Preface and Acknowledgments

Preface

The Time-Sensitive Emergency (TSE) Registry was established by Idaho Code §57-2001 to collect the data required to analyze the incidence, severity, causes, costs, and outcomes of traumatic injury, stroke, and ST-elevation myocardial infarction (STEMI) in Idaho. TSE Registry trauma data describe the nature and scope of traumatic injury, severity of injury, performance of out-of-hospital and hospital emergency medical systems, and patient outcomes for Idaho residents and non-Idaho residents treated for a traumatic injury at an Idaho acute care facility.

“Rates of Traumatic Injury by Idaho County — 2017–2021” shows, via charts and maps, where Idaho resident traumatic injury patients reside at the time of their injury and where in Idaho traumatic injuries occur among Idaho residents and non-residents. This document includes data from traumatic events occurring during 2017–2021.

We hope that these data are used by the Idaho Time Sensitive Emergency (TSE) Council, public health officials, hospital administrators, physicians, and others to develop prevention and intervention strategies, and identify high-risk populations in Idaho within the constraints of sex- and county-specific data.

Acknowledgements

The Idaho Department of Health and Welfare, Bureau of Emergency Medical Services and Preparedness (BEMSP) contracts with, and provides funding to, the Idaho Hospital Association (IHA) to maintain a statewide trauma registry.

The statewide TSE Registry database is a product of collaboration among multiple report sources, including Idaho’s acute care hospitals. Their reporting of timely, accurate, and complete data describing traumatic injury is acknowledged and sincerely appreciated.

The TSE Registry also thanks the Division of Public Health, Idaho Department of Health and Welfare for its continued partnership and collaboration.

Background

During 2017–2021, 38,592 qualifying traumatic injuries were reported to the Idaho TSE Registry – a 9.6% increase over the 2016–2020 injury years. Incident rates in this document were calculated using two types of numerators:

1. attributing events to a specific Idaho county using patient ZIP code of residence at time of injury; and
2. attributing events to a specific Idaho county using injury location ZIP code.

Patient ZIP code of residence at time of injury was missing or the patient was not a current resident of the United States in 10 (0.03%) of qualifying traumatic injuries. Of the 38,592 qualifying traumatic injuries, 32,037 occurred among Idaho residents and are depicted in the maps herein describing traumatic injury by patient residency.

Injury location ZIP code was missing (N = 32) or occurred out of state (N = 4,824) for 4,856 events (12.6%) occurring during 2017–2021. Most injuries with reported location occurred in Idaho (87% or 33,736 events). Also treated in Idaho acute care facilities were injuries occurring in Oregon (2.2% or 836 events), Wyoming (1.4% or 537 events), Washington (0.9% or 358 events), Montana (0.5% or 182 events), Nevada (0.3% or 99 events) and Utah (0.1% or 29 events).

Technical Notes

Participating Acute Care Facilities

As of December 31, 2020, 42 of Idaho’s acute care facilities were reporting trauma cases to TSE Registry. We thank these facilities for their participation.

- Bear Lake Memorial Hospital
- Benewah Community Hospital
- Bingham Memorial Hospital
- Bonner General Health
- Boundary Community Hospital
- Caribou Memorial Hospital, Living Center & Clinics

Age-adjusted and Crude Incidence Rates

Age-adjusted incidence rates shown on the maps included in this document were calculated using the direct method of standardization, and standardized to the age distribution of the 2000 U.S. population (see Appendix B). Incidence rates represent the average number of traumatic injuries annually per 100,000 persons. Age adjustment allows rates from one geographic area or time period to be compared with rates from other geographic areas or time periods that may have differences in age distributions. Any observed differences in age-adjusted incidence rates between populations are not due to differing age structures.

Crude incidence rates shown on the maps included in this document were calculated as the number of traumatic injuries occurring among residents of that county (or the number of injuries occurring in that county) and divided by the population of that county for the injury year. No standardization, or age-adjustment, was applied to these rates. Crude rates are useful for public health by identifying areas of higher absolute burden of injury-related morbidity and mortality, scaled to population.

Rates are sorted and displayed by color groups. Counties are assigned to one of five color groups using a clustering method based on Euclidean distances, whereby the center of each cluster is based on least squares estimation. This approach is commonly referred to as a *k*-means model.¹

Confidence Intervals

Confidence intervals, which are estimated from available data, provide a range of values that are likely to include the true and unknown population value. The width of a confidence interval is a measure of variability, with wider confidence intervals connoting less reliable estimates. The charts included in this document display confidence intervals around county-specific rate estimates.

Classification of Injury Mechanism and Intent

Maps in this document are presented by injury mechanism and intent. Injury mechanism is typically thought of as the “how” of injury, e.g., firearm, motor vehicle accident, fall. Injury intent can be thought of as the manner in which a person was injured or died, i.e., unintentionally, intentionally (homicide/assault, suicide/self-harm) or undetermined. Injury mechanism and injury intent as shown in this document are classified based on the ICD-10-CM external cause of injury code. For non-fatal injuries, external cause codes are classified as described in the “Proposed framework for presenting injury data using the International Classification of Diseases, Tenth Revision, Clinical Modification (ICD–10–CM) diagnosis codes.”² Fatal injuries are classified as described in the “The ICD-10 injury mortality diagnosis matrix”^{3,4} based on ICD-10 mortality codes.

Limitations

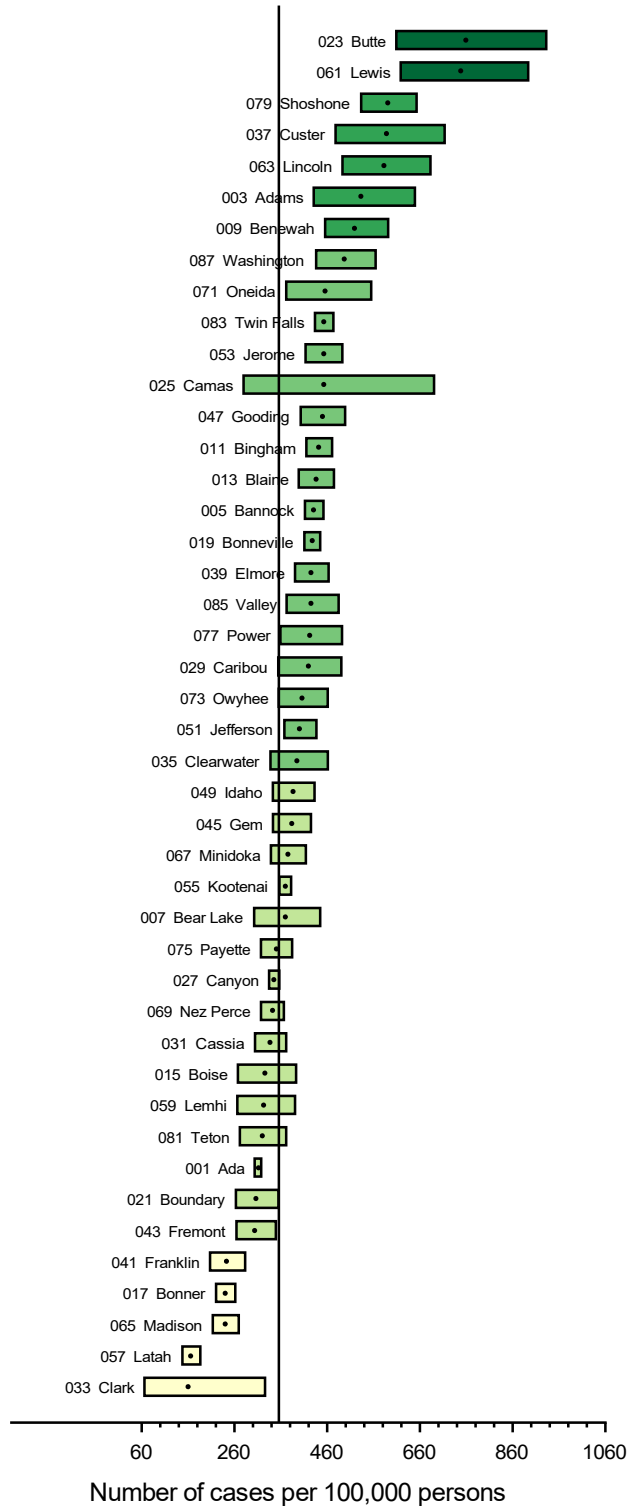

Maps in this document based on injury location use numerator data that include Idaho residents and non-residents in conjunction with denominator data that only represent Idaho residents. Thus, the rates for a given county may be artificially high (in particular when comparing these data to other counties) in areas where there are large numbers of non-Idaho residents experiencing traumatic injury, e.g. state border communities and counties, counties with relatively large number of tourists. These rates may be particularly inflated in areas with relatively small resident populations. For all of these reasons, rates of injury based on injury location should be interpreted with prudence.

These data are, however, being presented as rates of injury based on location as they provide some insight as to the burden of injury that first responders and local hospitals may experience with respect to treating traumatic injury. They may also be hypothesis generating with respect to public health intervention in a particular county.

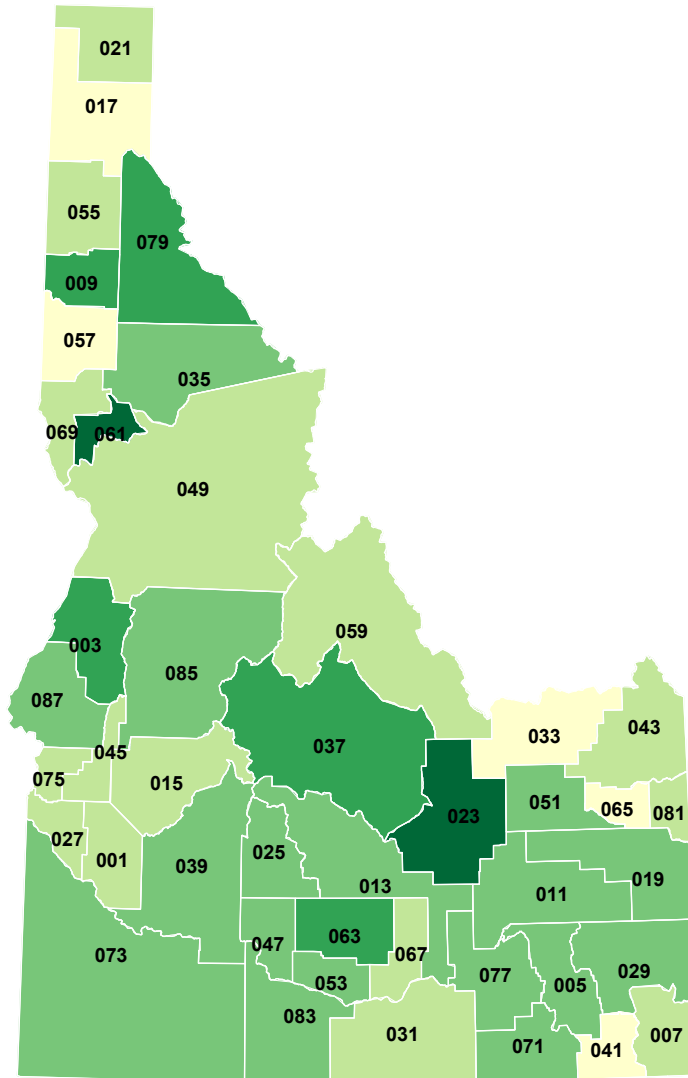

I: Maps and Charts of Age-Adjusted Incidence by County and Mechanism of Injury, 2017–2021 Injury Years

Male and Female Idaho Residents

State of Idaho Rate: 2.5

Age-Adjusted Incidence of Pediatric Injury (Idaho Residents) Suffocation Females (< 15 years) State of Idaho, by County, 2017-2021

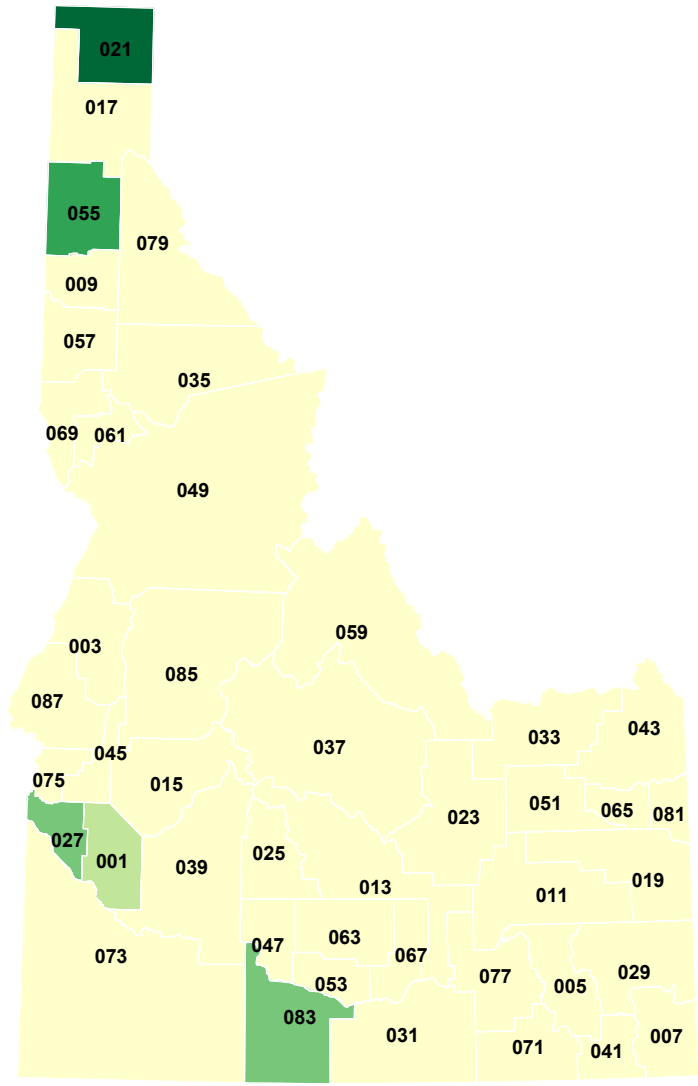

Idaho Time-Sensitive Emergency Registry. Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 0.9

Age-Adjusted Incidence of Pediatric Injury (Idaho Residents) Unspecified Females (< 15 years) State of Idaho, by County, 2017-2021

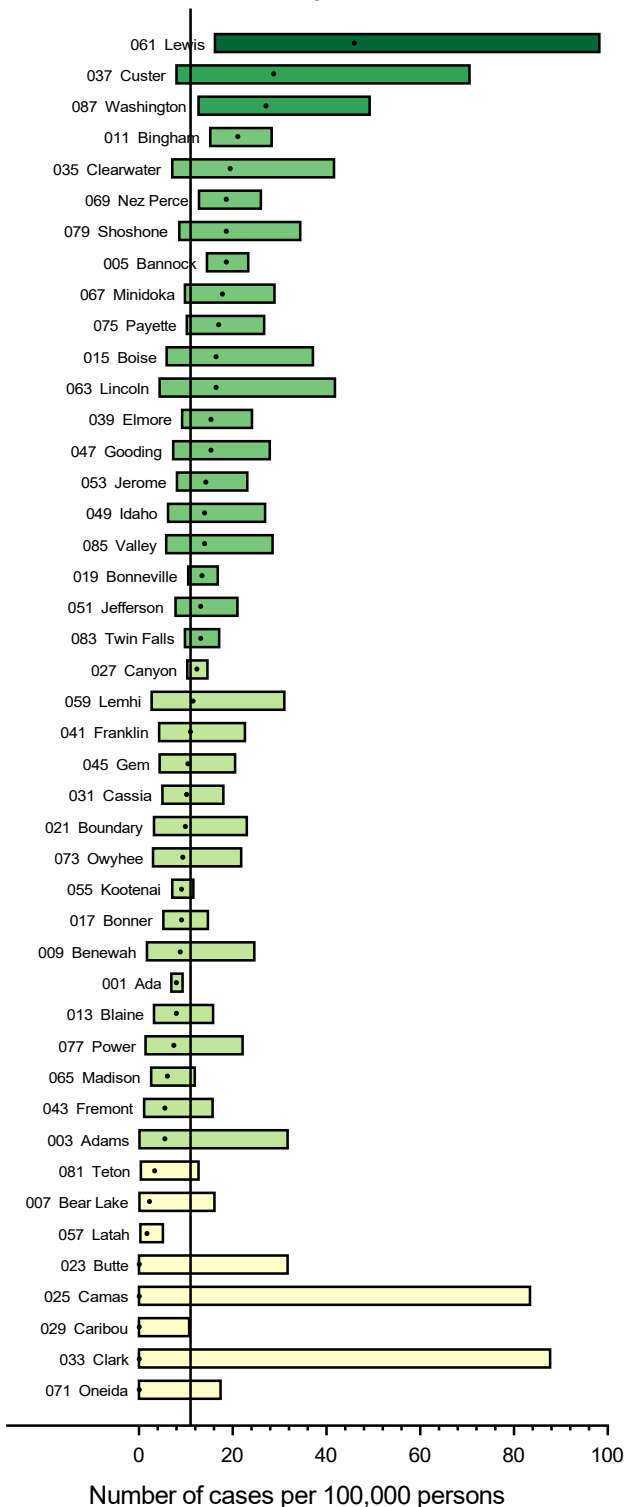

Idaho Time-Sensitive Emergency Registry. Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

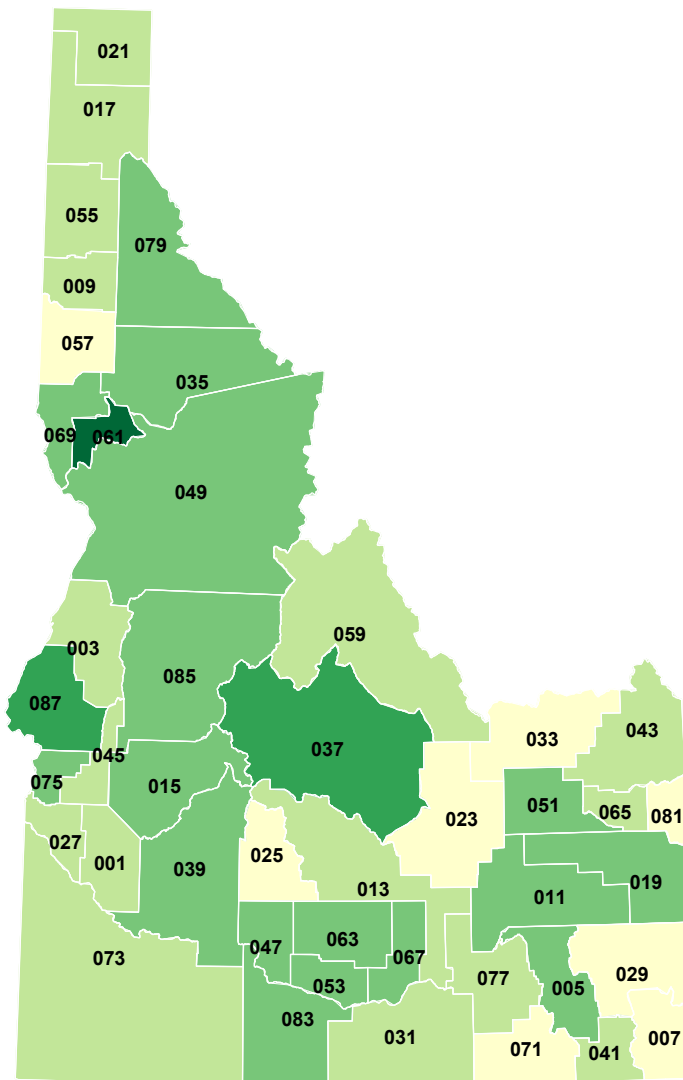

IV: Maps and Charts of Age-Adjusted Incidence by County and Injury Intent, 2017–2021 Injury Years

Male and Female Idaho Residents

State of Idaho Rate: 11.0

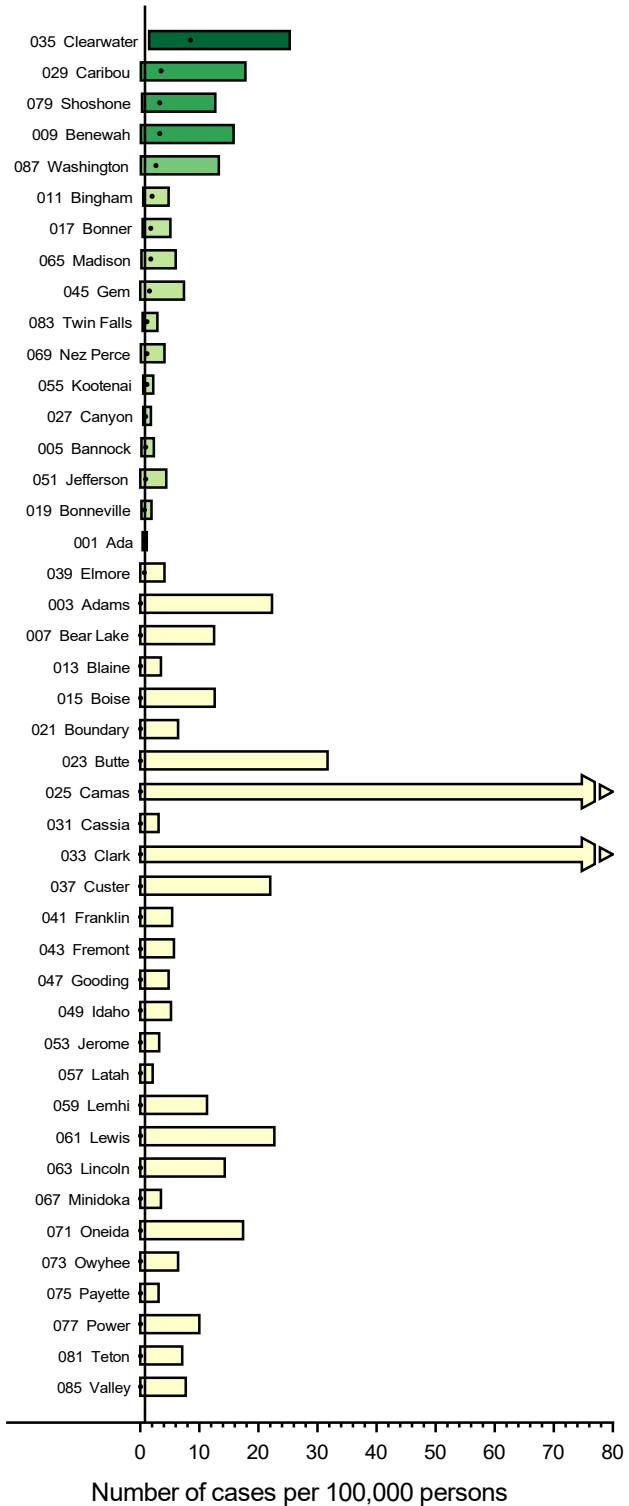

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Assault Males and Females State of Idaho, by County, 2017-2021

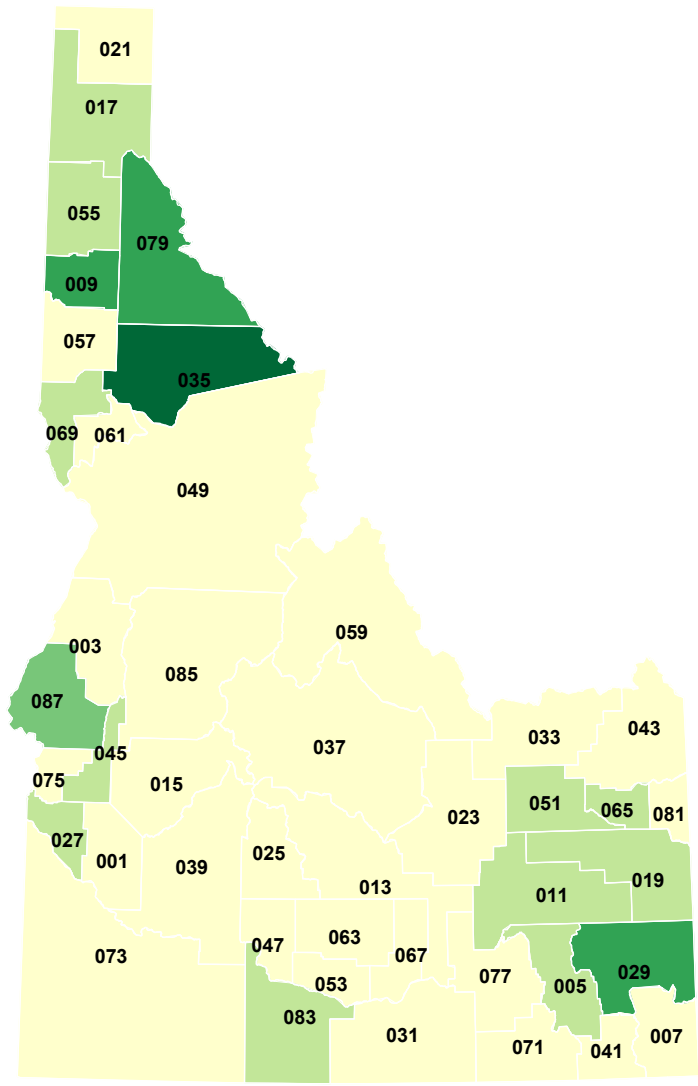

*Idaho Time-Sensitive Emergency Registry.
Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties.
Colors denote rate clustering. Width of bars indicate 95% confidence intervals.*

State of Idaho Rate: 0.8

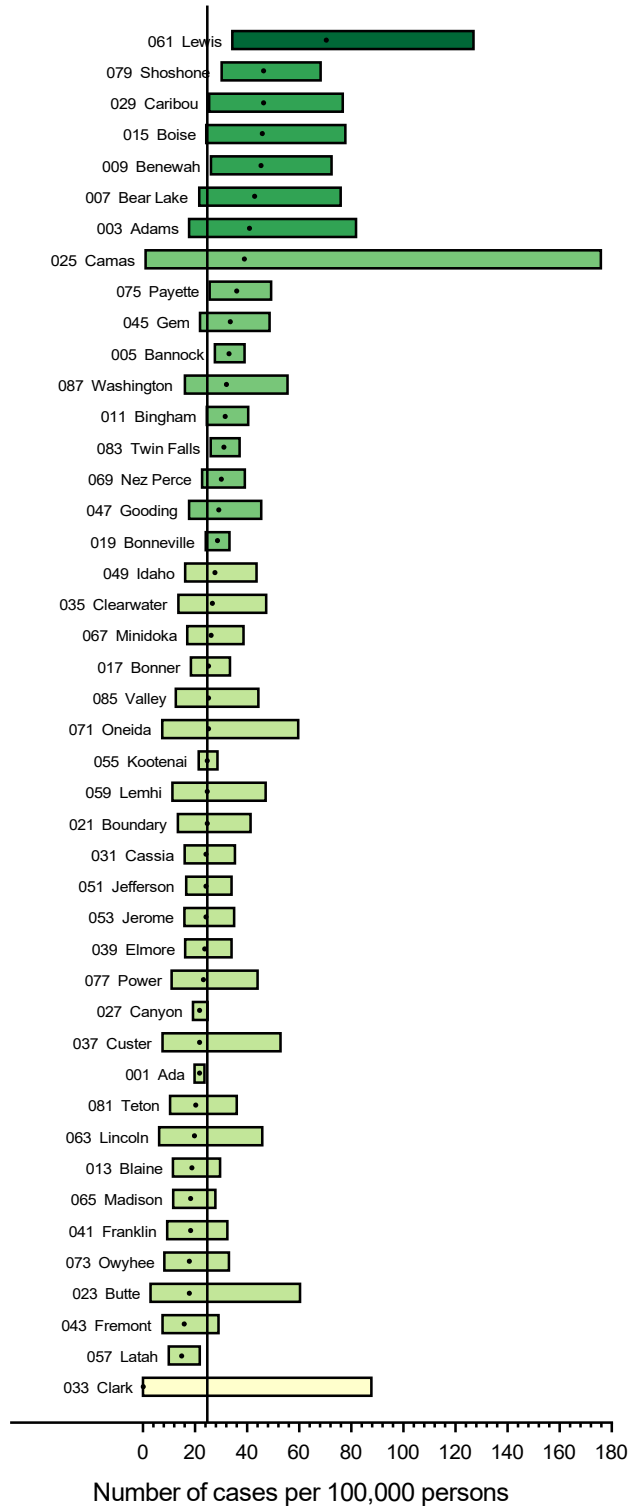

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Other/Legal/War Males and Females State of Idaho, by County, 2017-2021

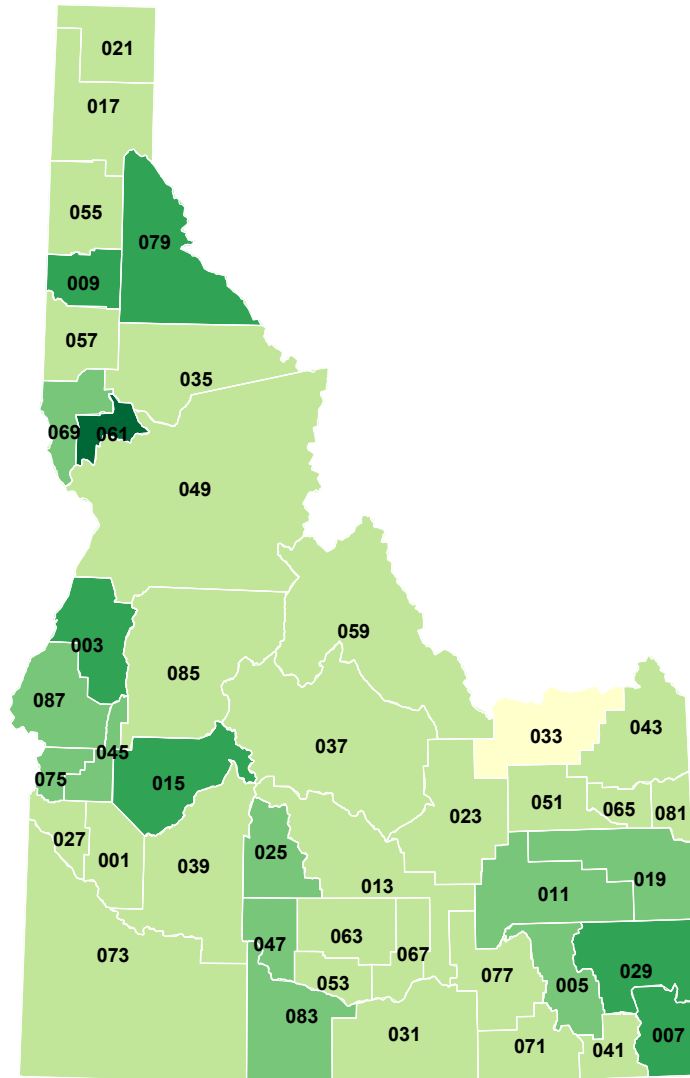

Idaho Time-Sensitive Emergency Registry. Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 24.7

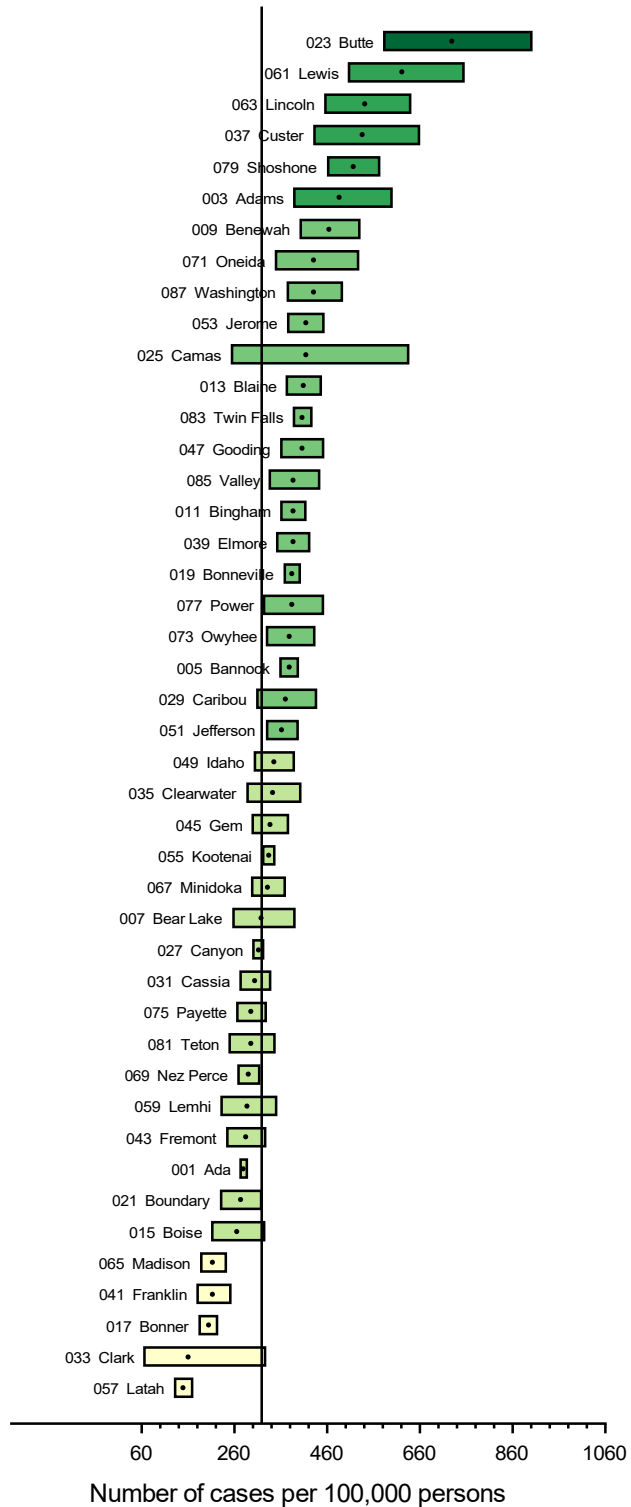

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Self-harm/Suicide Males and Females State of Idaho, by County, 2017-2021

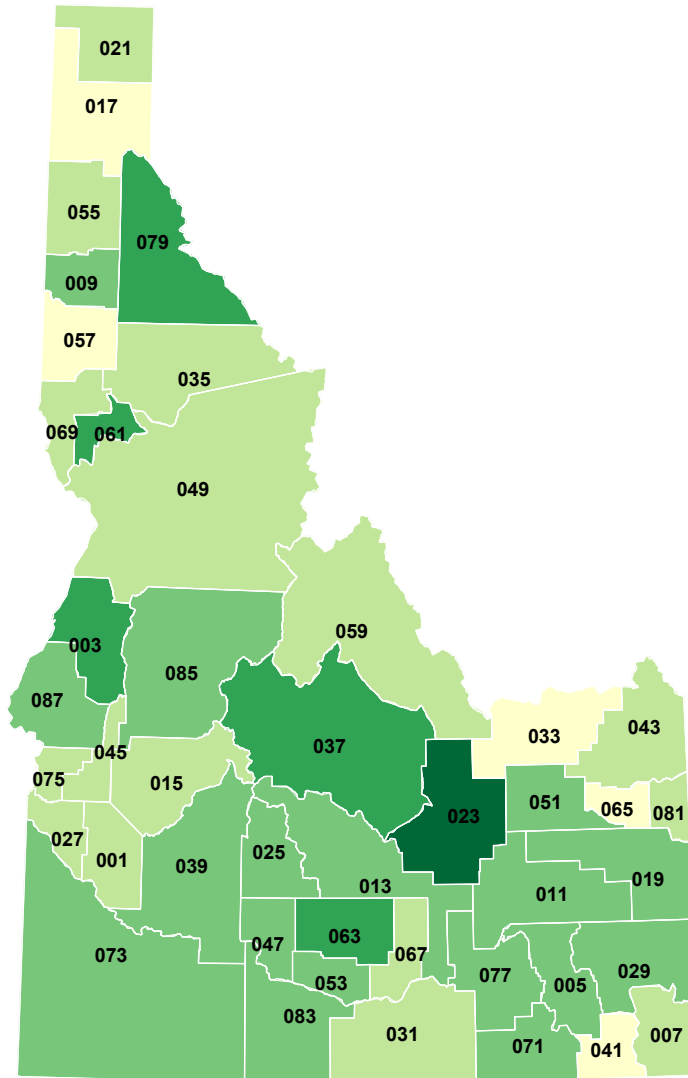

*Idaho Time-Sensitive Emergency Registry.
Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties.
Colors denote rate clustering. Width of bars indicate 95% confidence intervals.*

State of Idaho Rate: 318.8

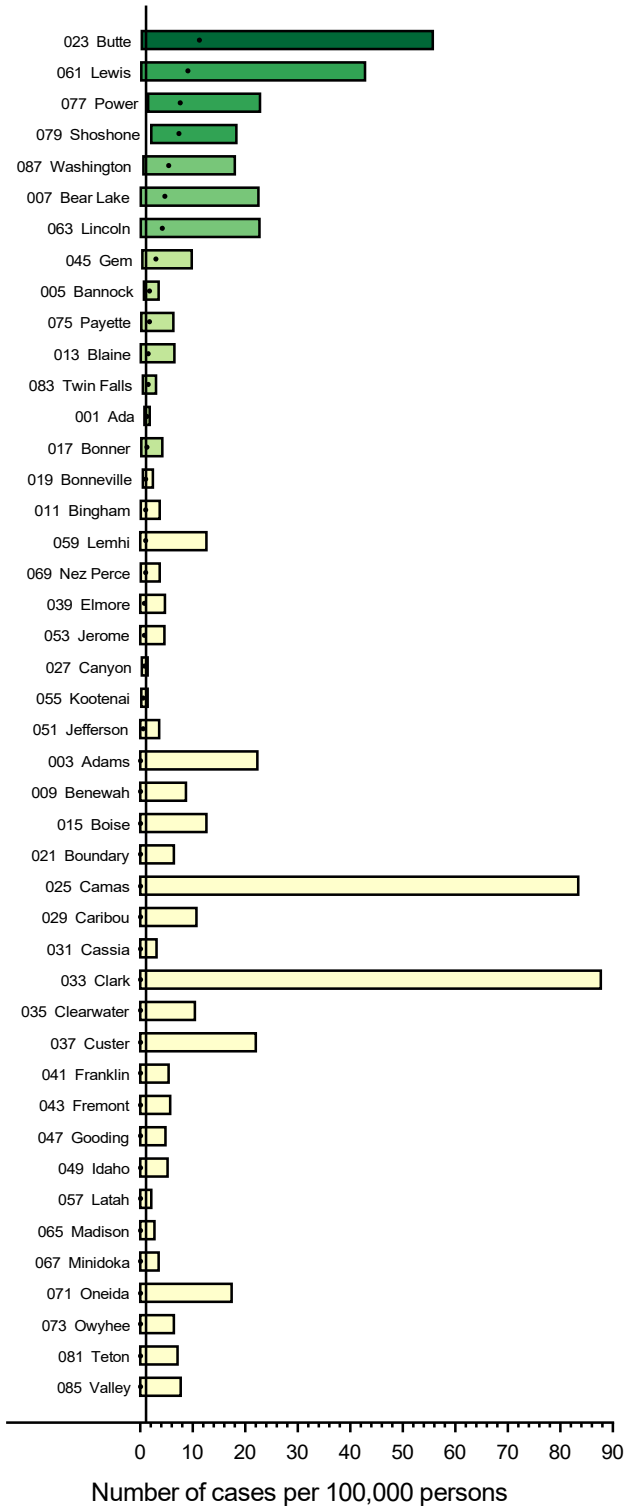

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Unintentional Males and Females State of Idaho, by County, 2017-2021

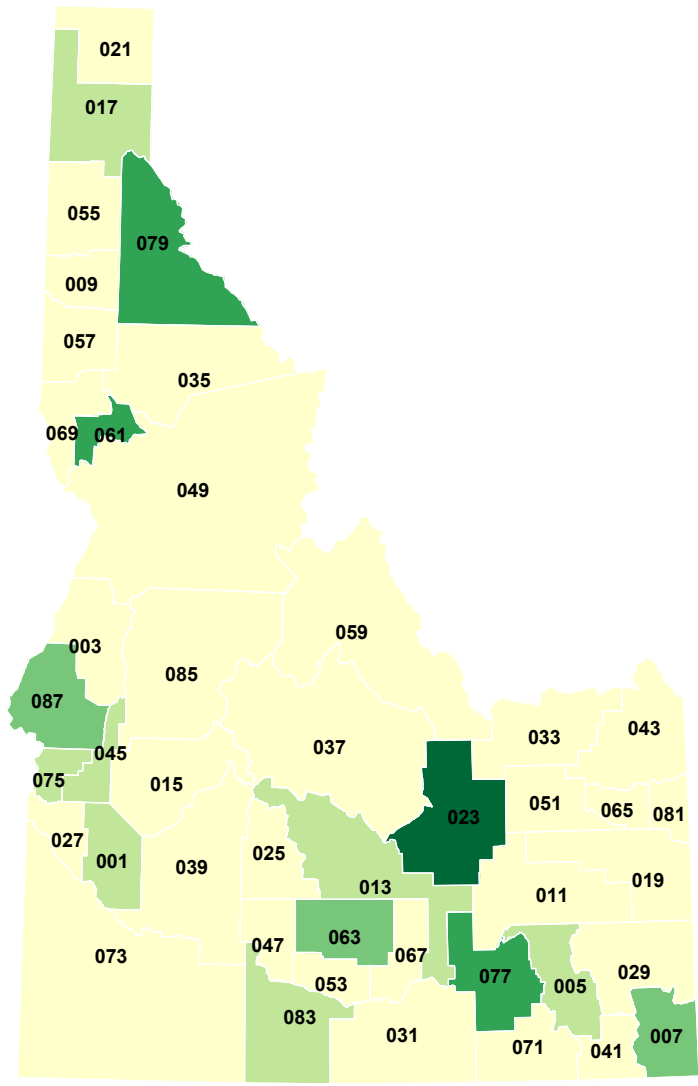

*Idaho Time-Sensitive Emergency Registry.
Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties.
Colors denote rate clustering. Width of bars indicate 95% confidence intervals.*

State of Idaho Rate: 1.1

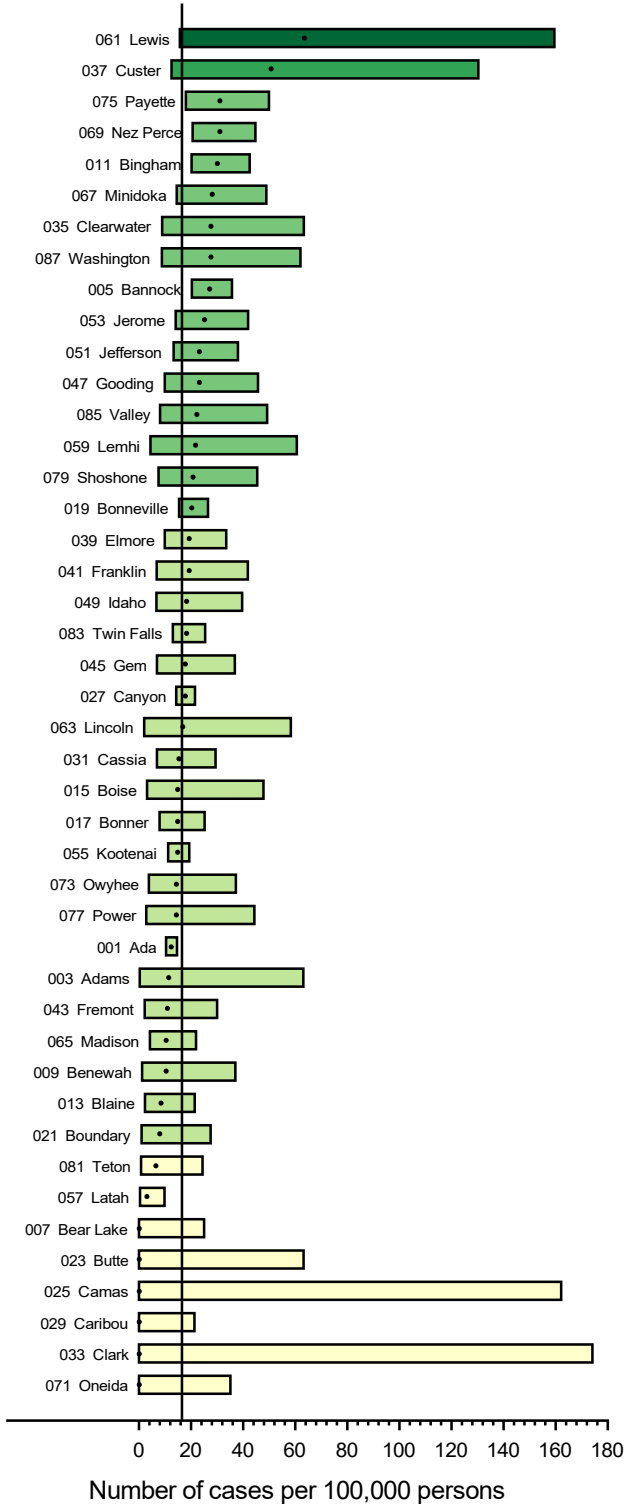

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Undetermined Males and Females State of Idaho, by County, 2017-2021

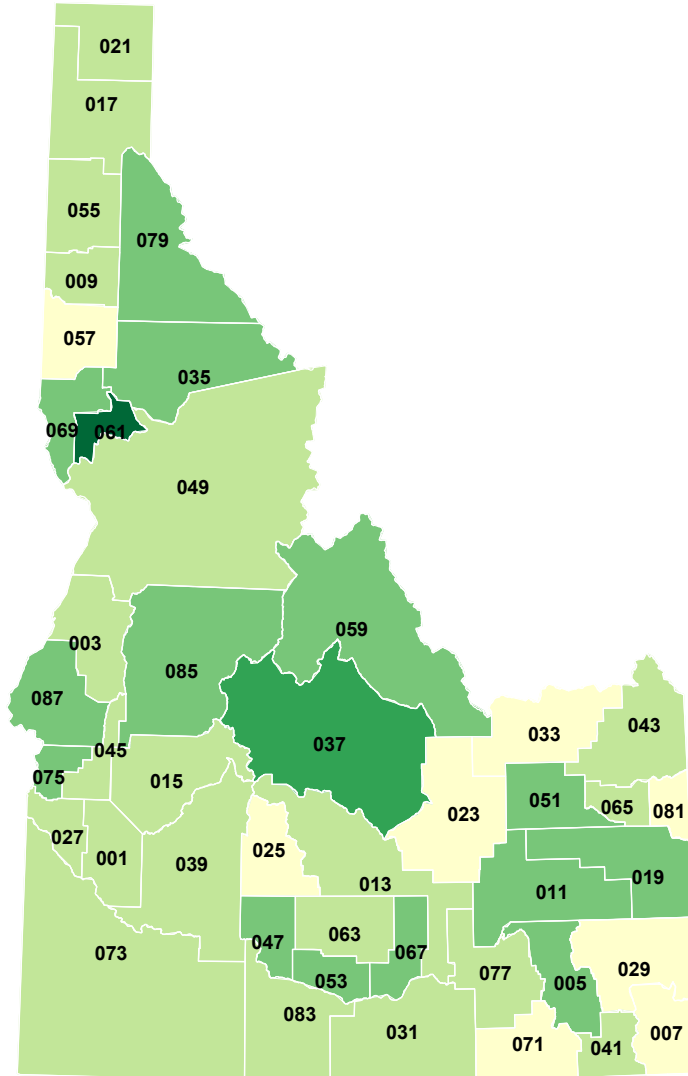

Idaho Time-Sensitive Emergency Registry. Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

Male Idaho Residents

State of Idaho Rate: 16.5

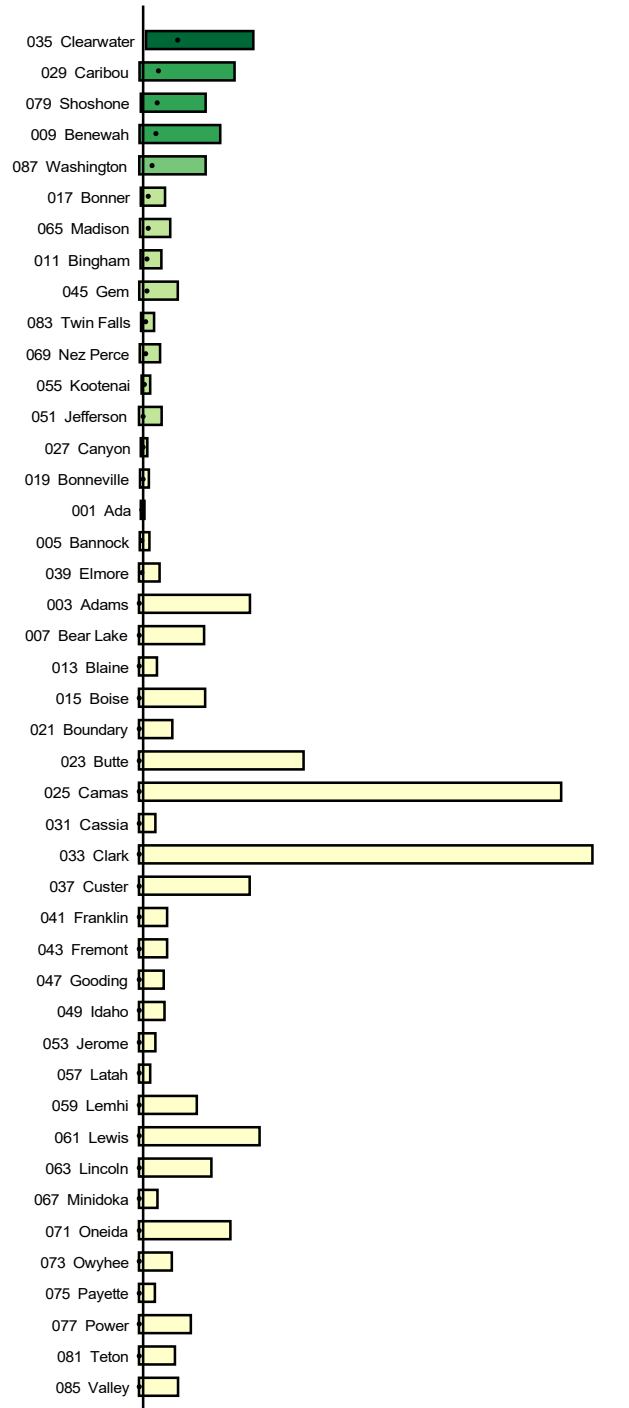

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Assault Males State of Idaho, by County, 2017-2021

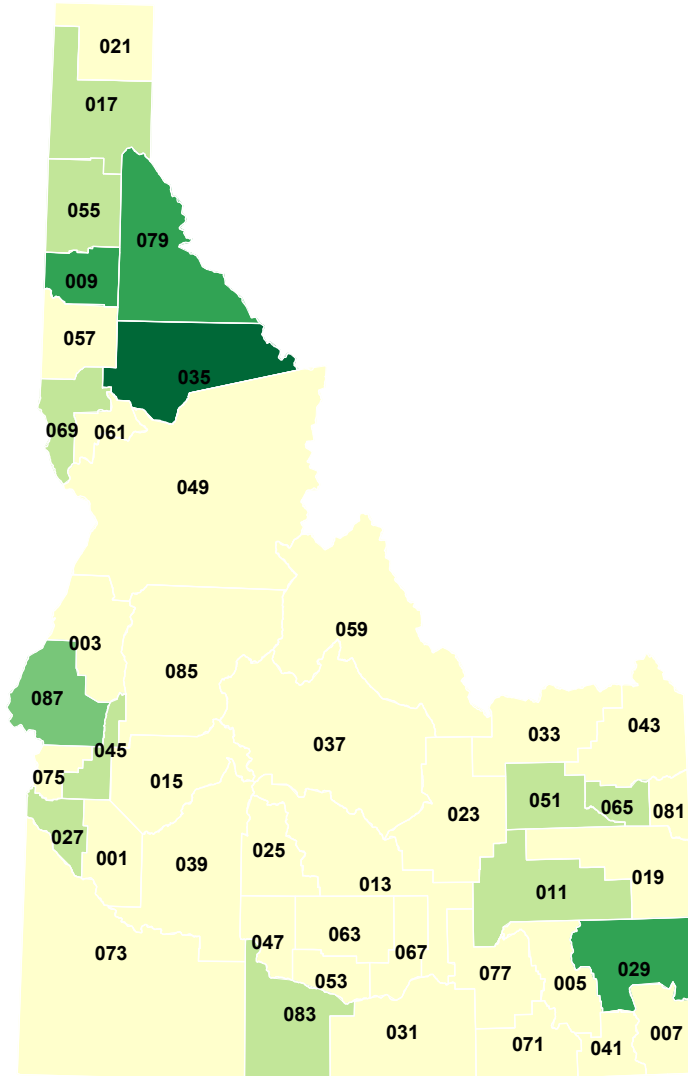

*Idaho Time-Sensitive Emergency Registry.
Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties.
Colors denote rate clustering. Width of bars indicate 95% confidence intervals.*

State of Idaho Rate: 1.6

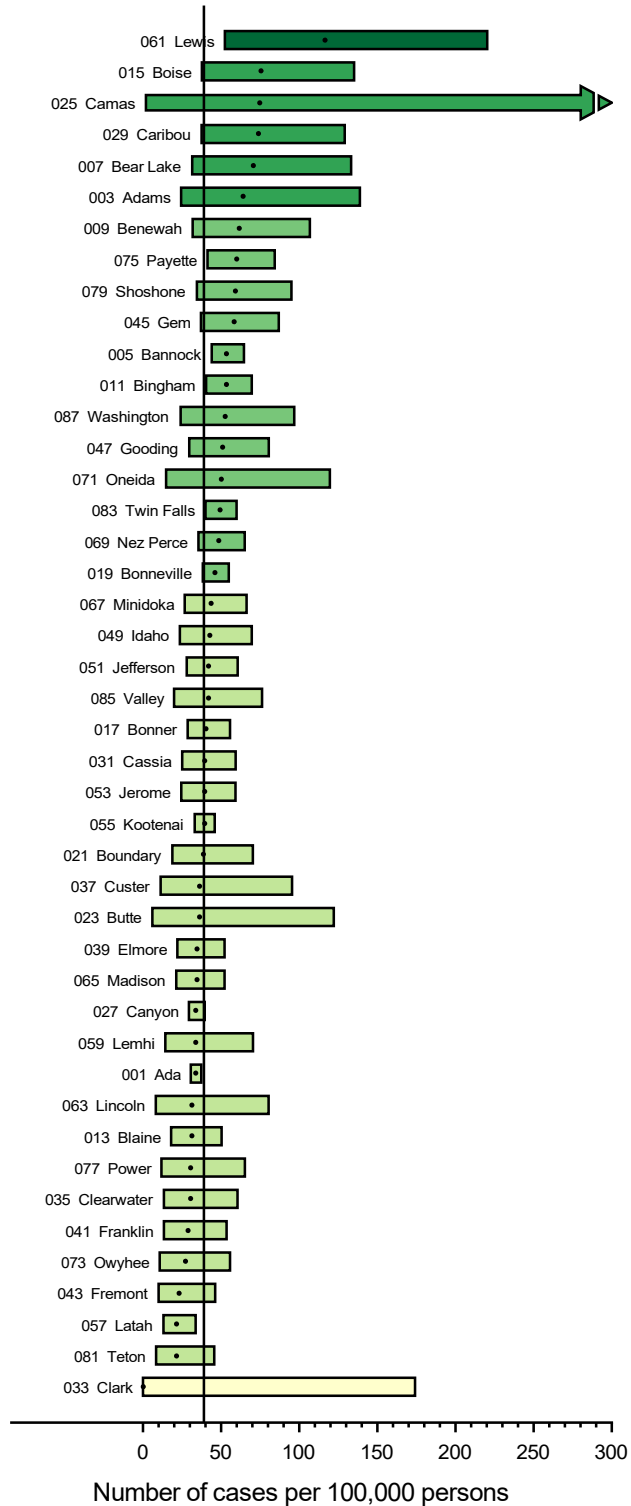

Number of cases per 100,000 persons

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Other/Legal/War Males State of Idaho, by County, 2017-2021

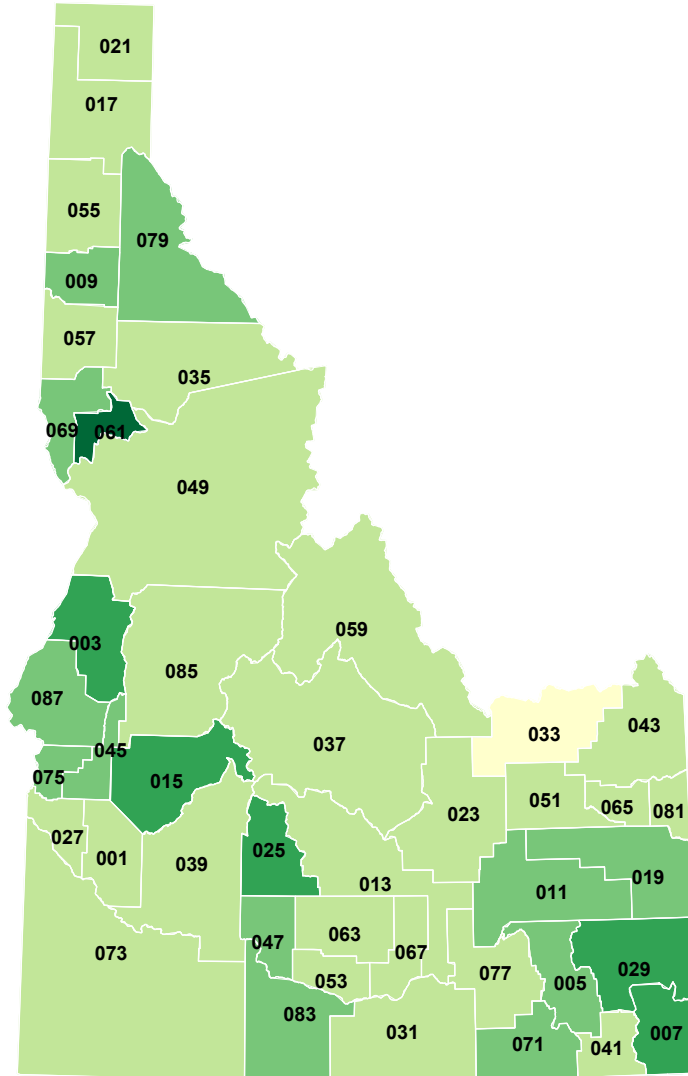

*Idaho Time-Sensitive Emergency Registry.
Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties.
Colors denote rate clustering. Width of bars indicate 95% confidence intervals.*

State of Idaho Rate: 39.0

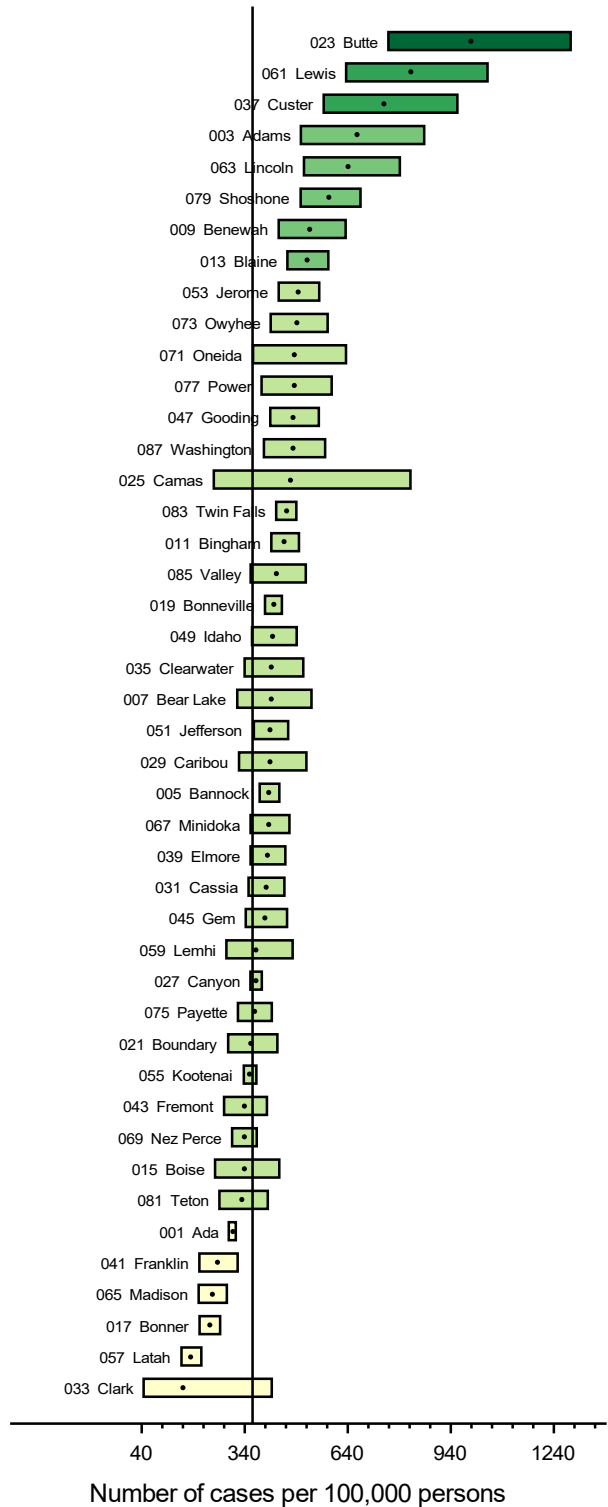

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Self-harm/Suicide Males State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

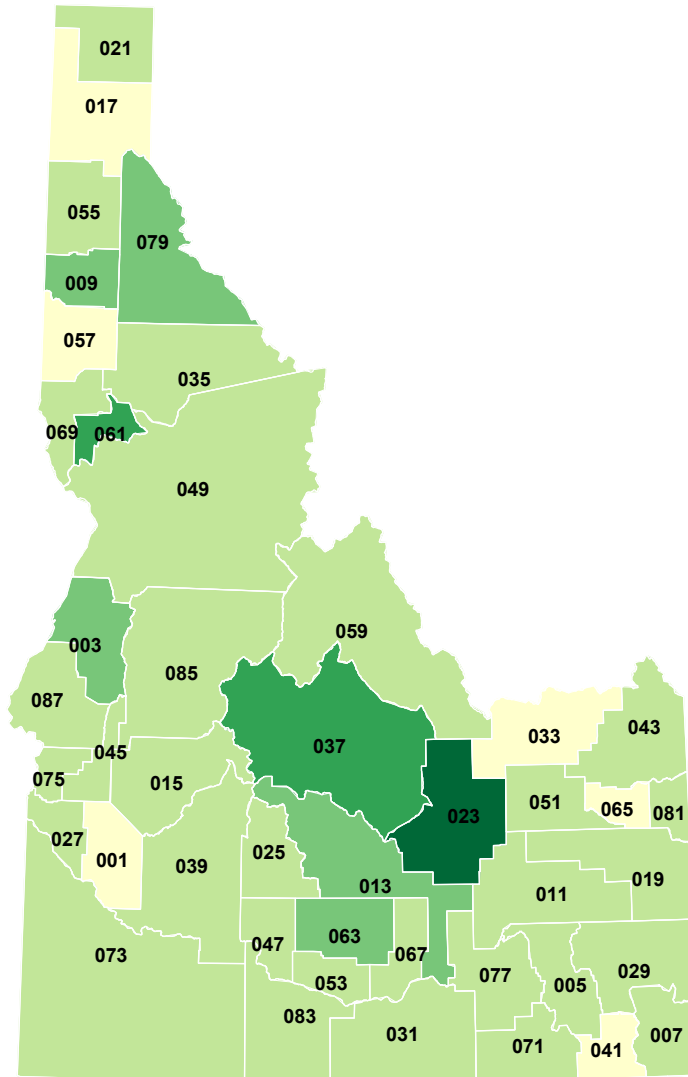

State of Idaho Rate: 362.7

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury

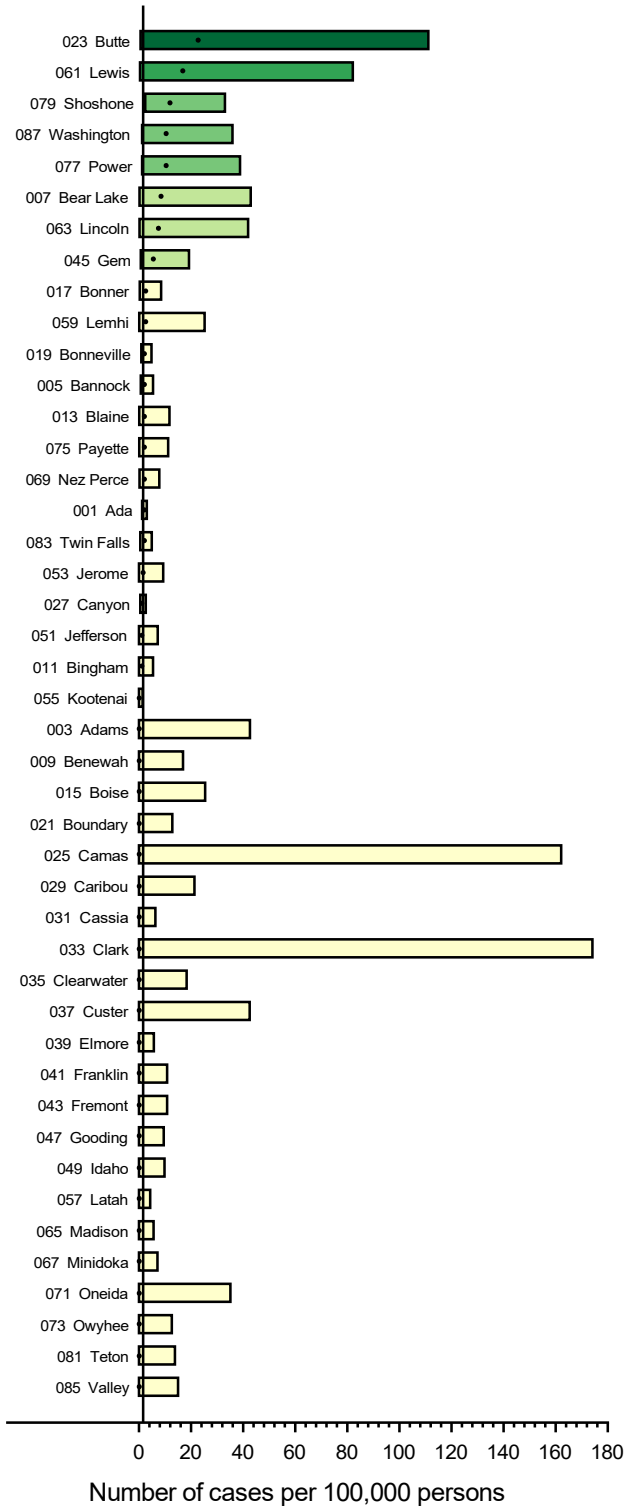

Unintentional Males

State of Idaho, by County, 2017-2021

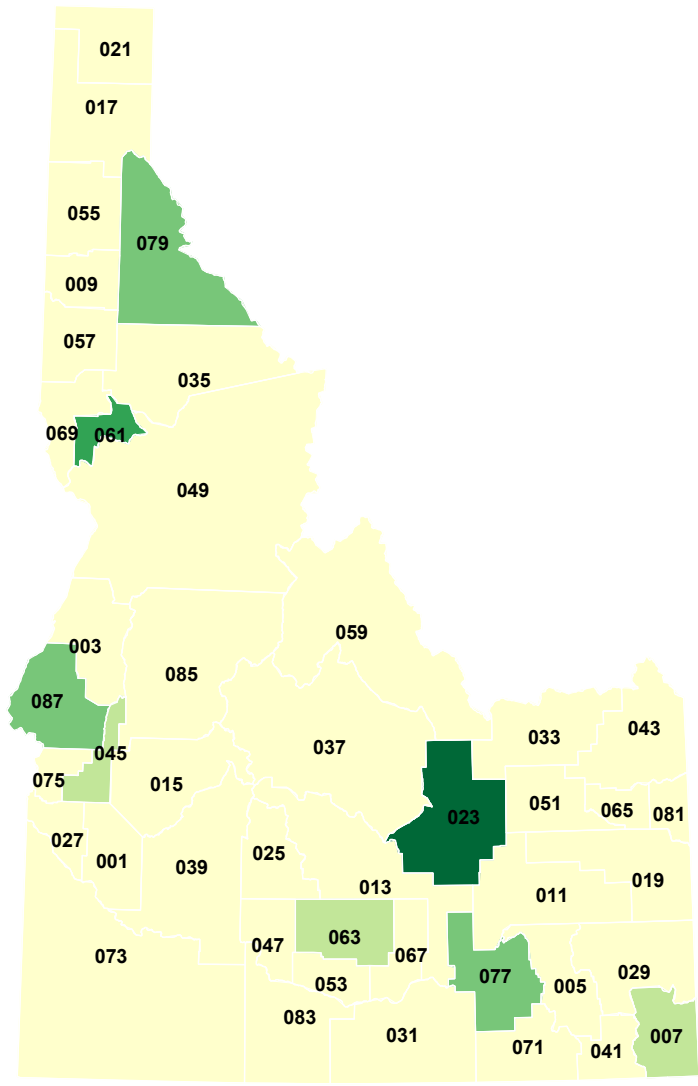

Idaho Time-Sensitive Emergency Registry. Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 1.6

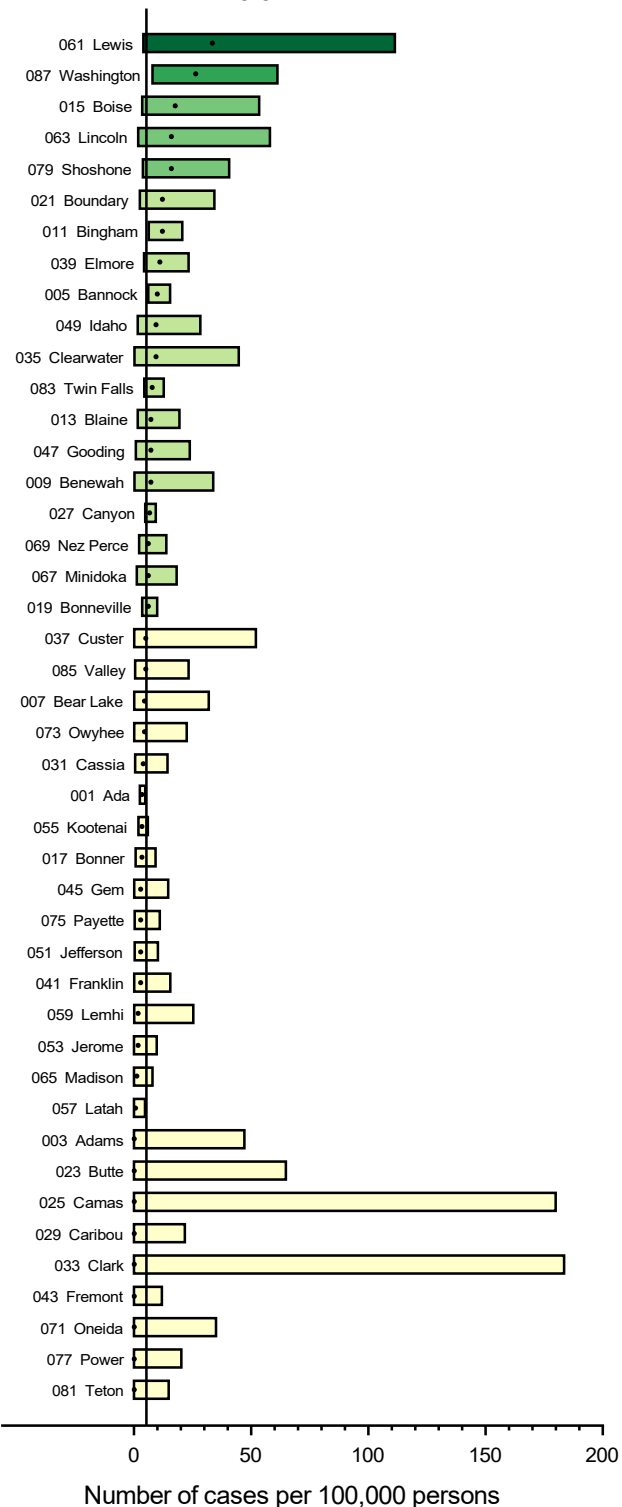

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Undetermined Males State of Idaho, by County, 2017-2021

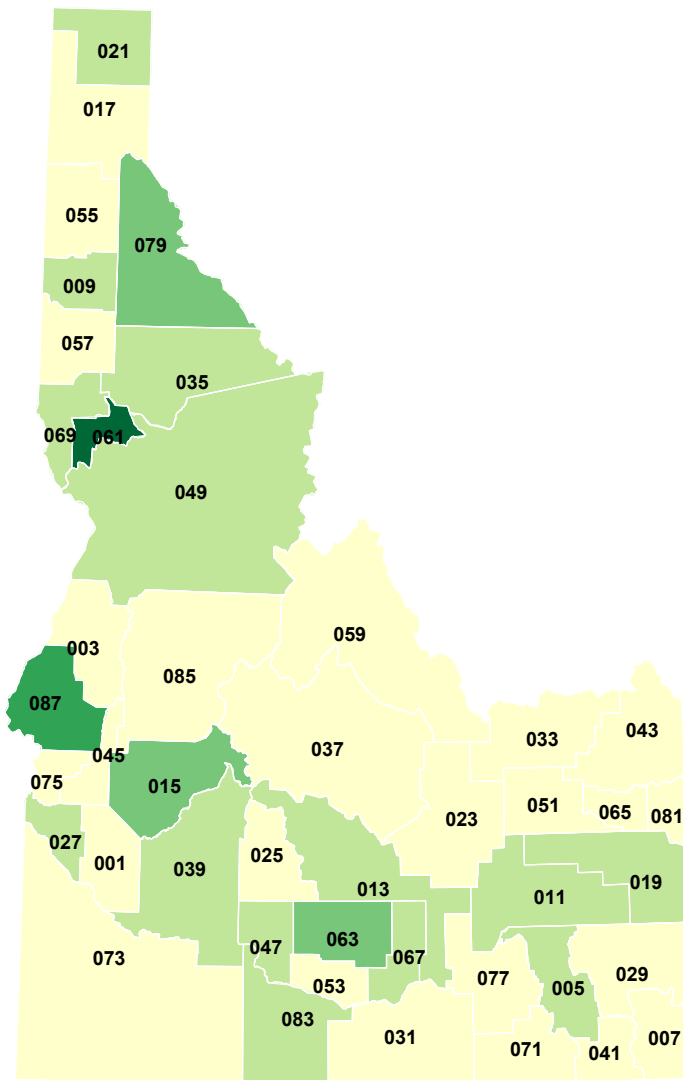

Idaho Time-Sensitive Emergency Registry. Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

Female Idaho Residents

State of Idaho Rate: 5.3

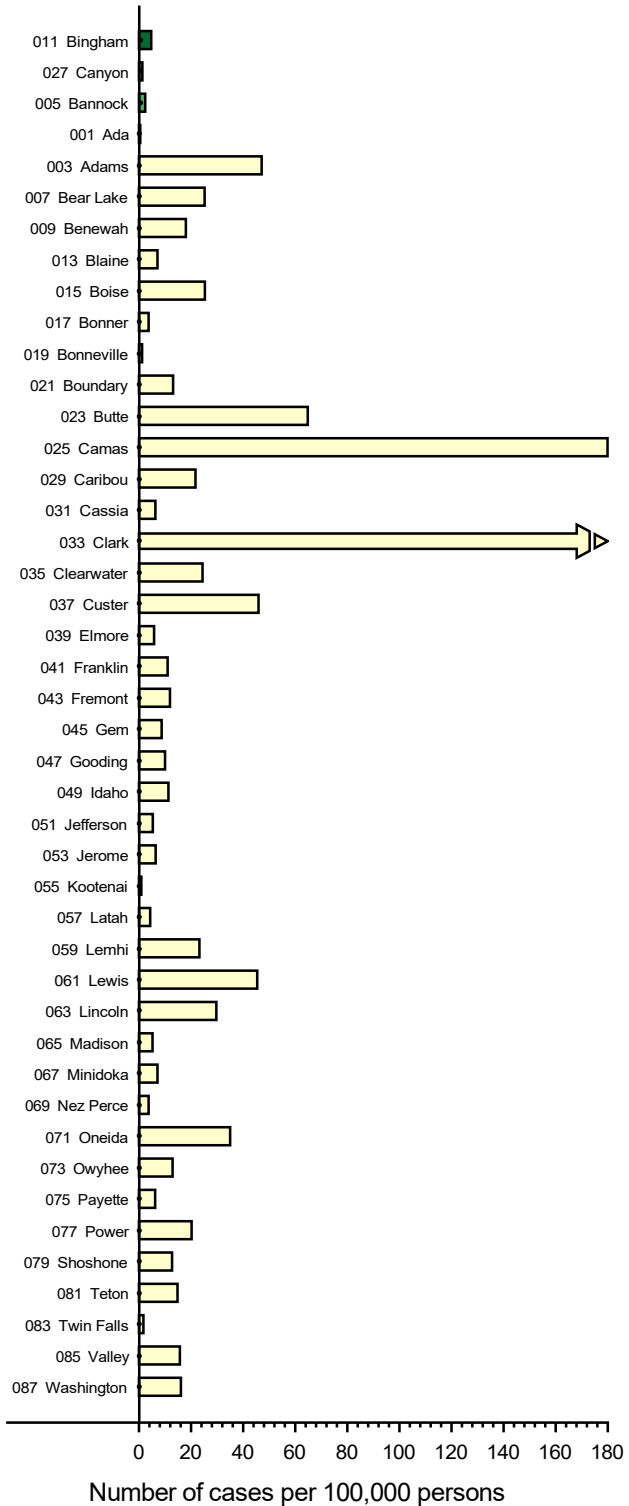

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Assault Females State of Idaho, by County, 2017-2021

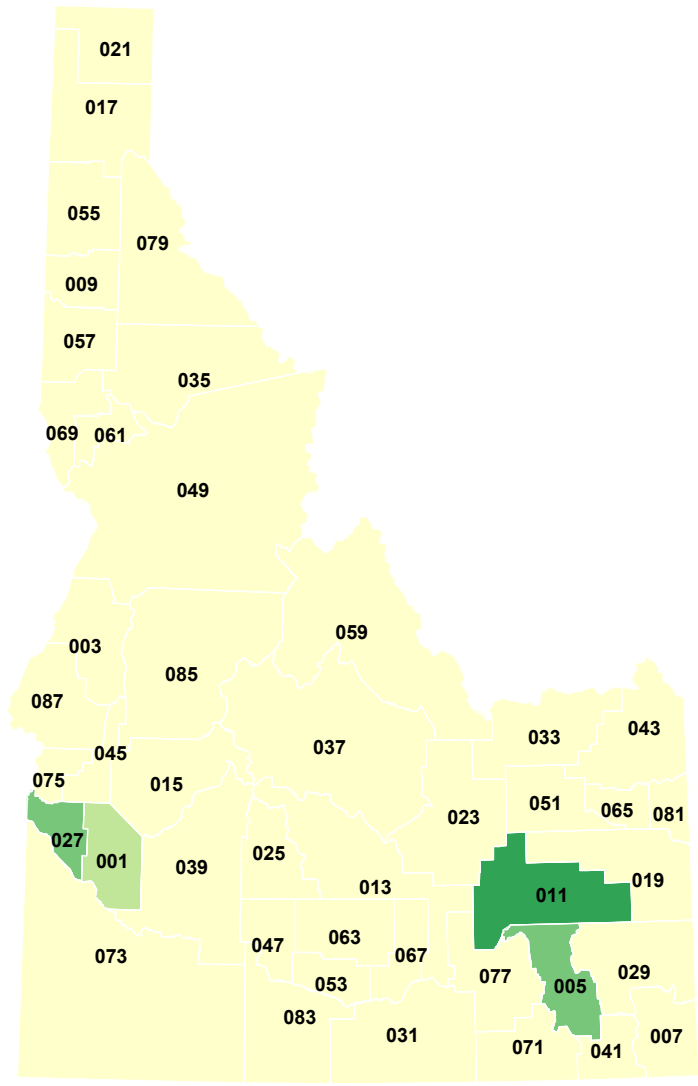

*Idaho Time-Sensitive Emergency Registry.
Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties.
Colors denote rate clustering. Width of bars indicate 95% confidence intervals.*

State of Idaho Rate: 0.1

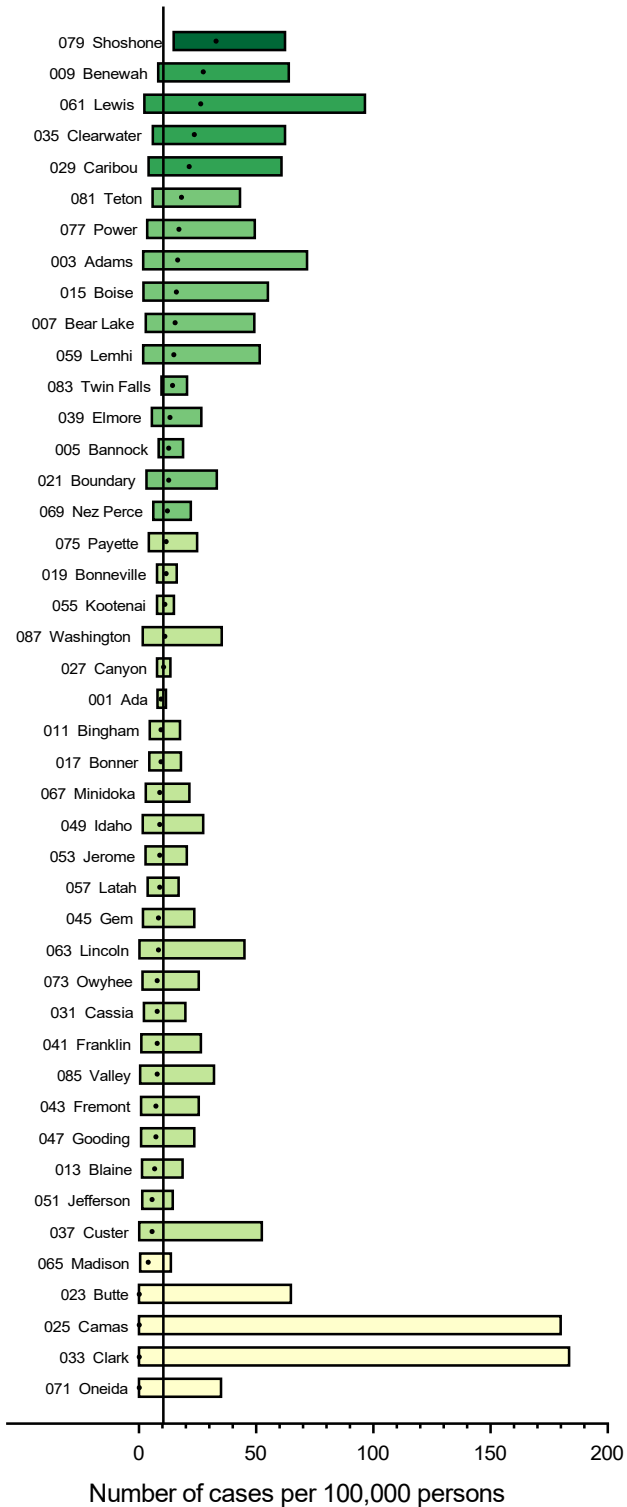

**Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury
Other/Legal/War
Females
State of Idaho, by County, 2017-2021**

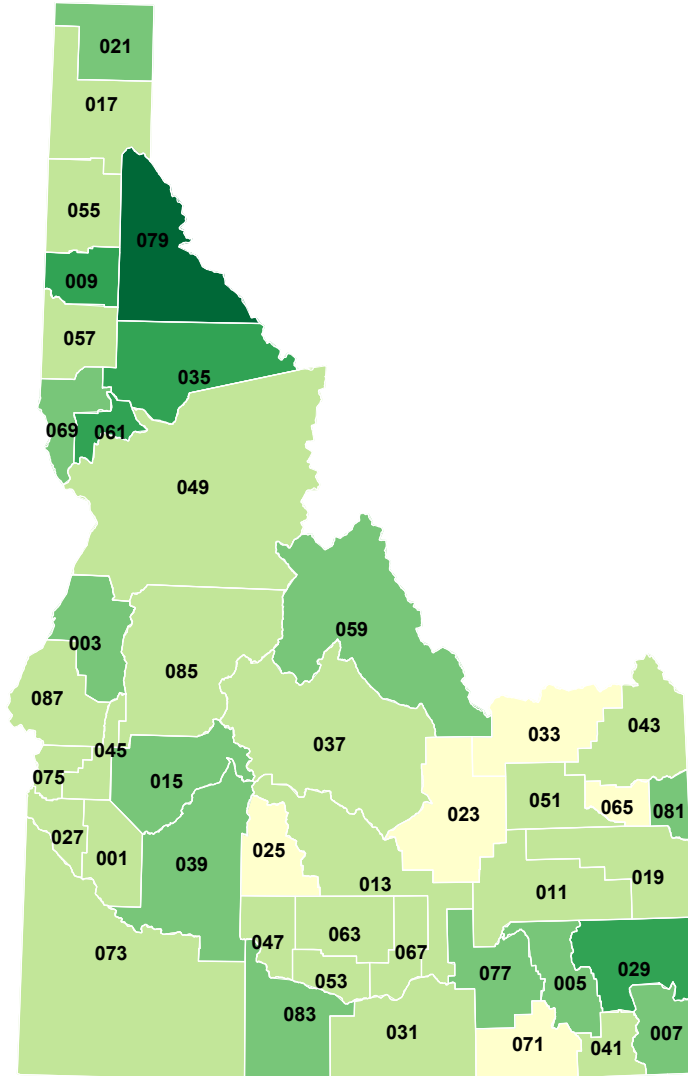

*Idaho Time-Sensitive Emergency Registry.
Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties.
Colors denote rate clustering. Width of bars indicate 95% confidence intervals.
Arrows indicate upper confidence interval extends beyond graphic area.*

State of Idaho Rate: 10.4

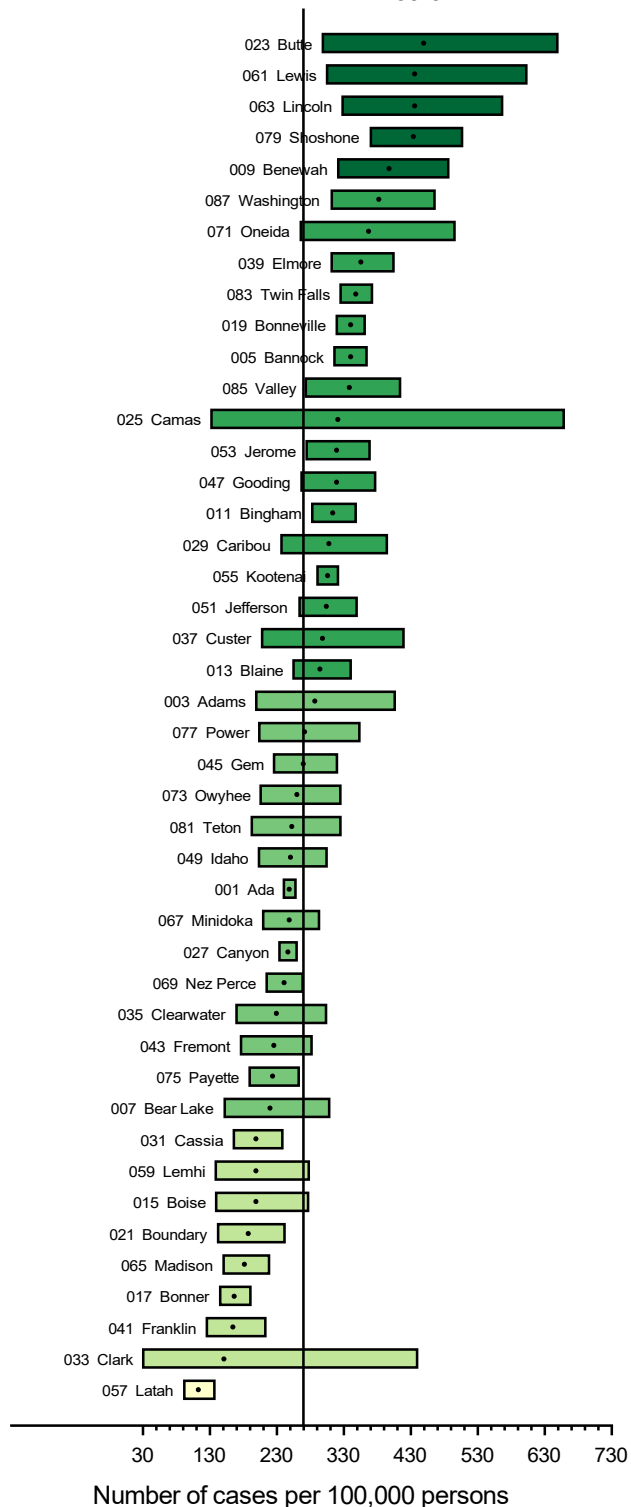

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Self-harm/Suicide Females State of Idaho, by County, 2017-2021

*Idaho Time-Sensitive Emergency Registry.
Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties.
Colors denote rate clustering. Width of bars indicate 95% confidence intervals.*

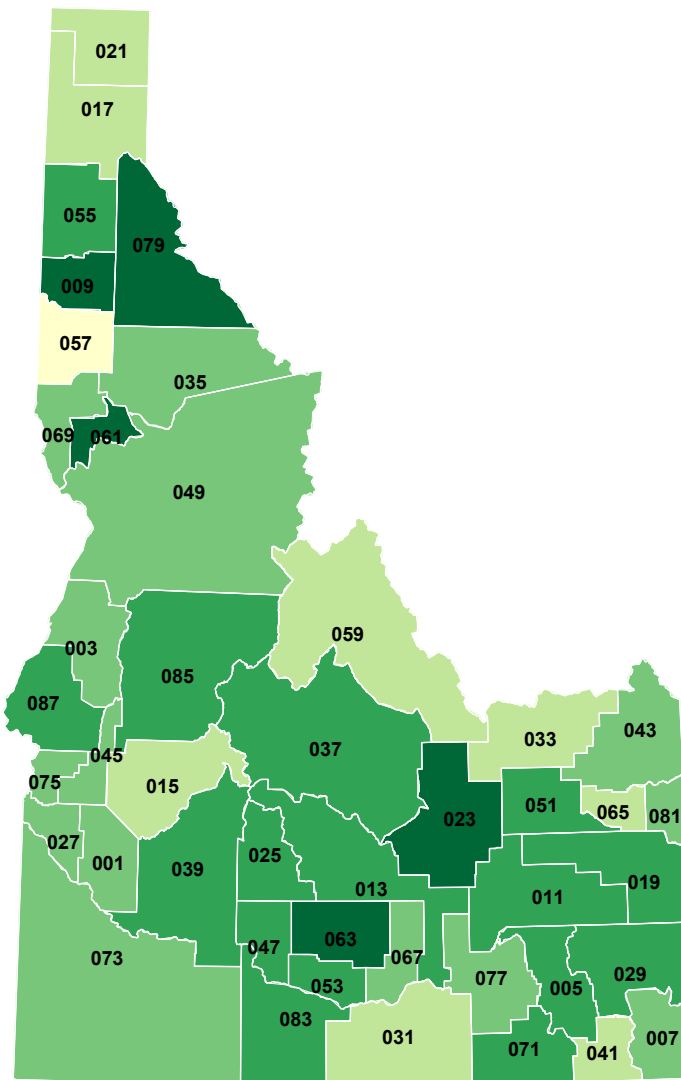

State of Idaho Rate: 269.6

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury

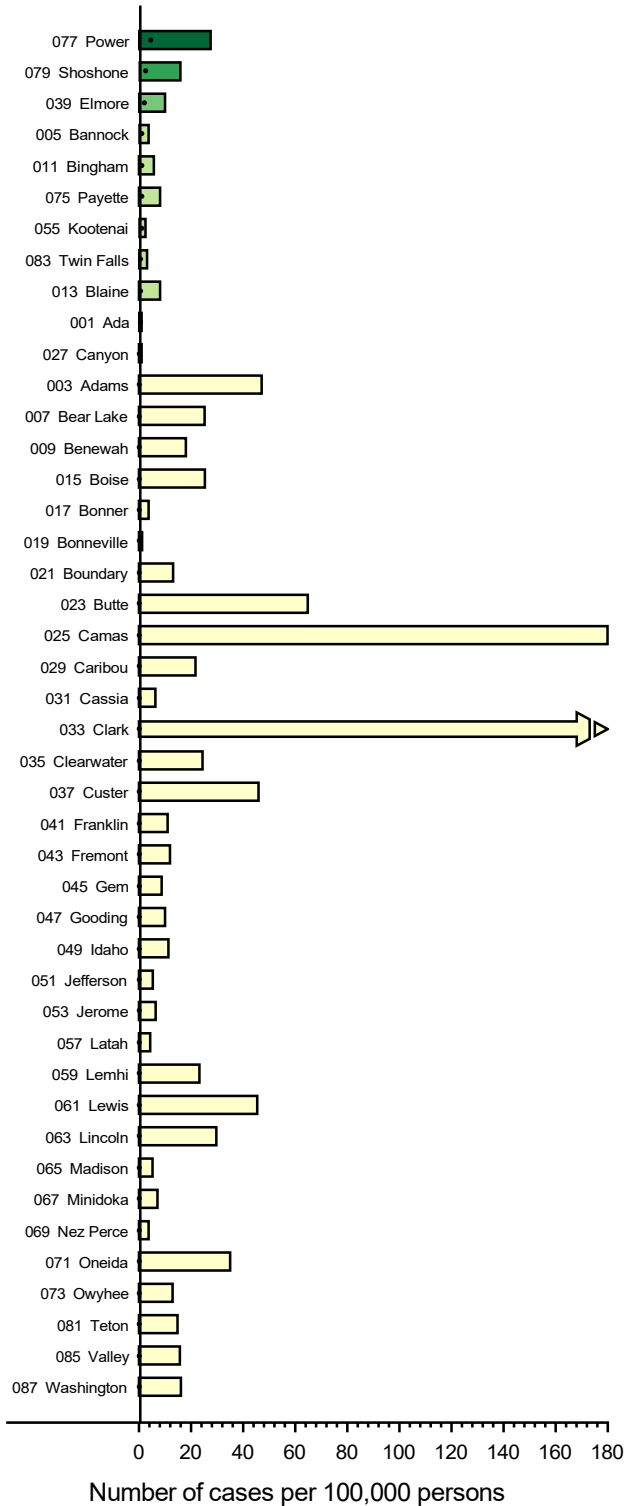

Unintentional Females

State of Idaho, by County, 2017-2021

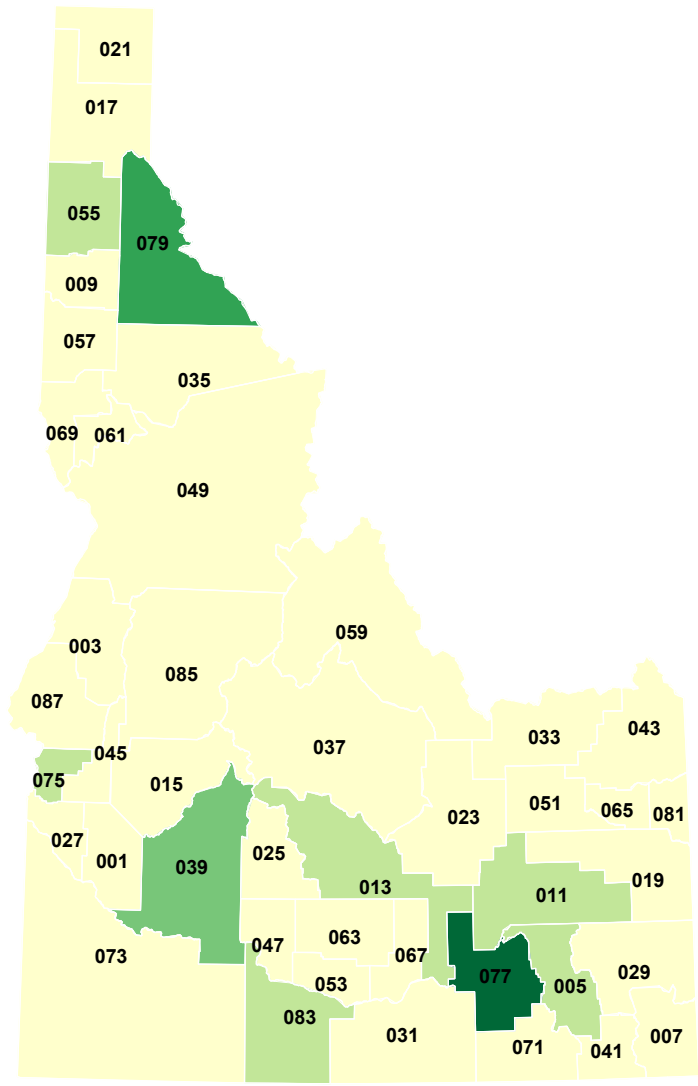

Idaho Time-Sensitive Emergency Registry. Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 0.5

Age-Adjusted Incidence - Calculated from Patient Residence at Time of Injury Undetermined Females State of Idaho, by County, 2017-2021

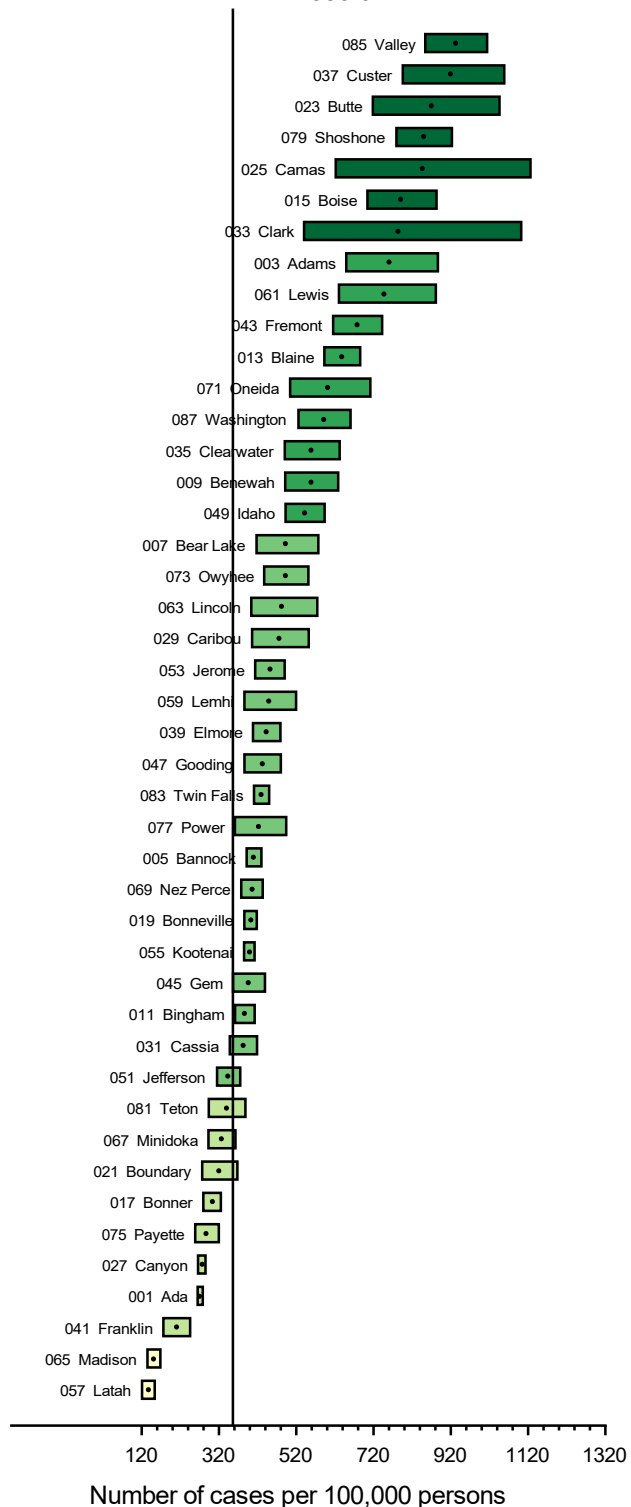

Idaho Time-Sensitive Emergency Registry. Rates age-adjusted to the 2000 U.S. population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

V: Maps and Charts of Crude Incidence by County and Injury Mechanism by Location of Injury, 2017–2021 Injury Years

Male and Female Patients (Idaho and non-Idaho Residents)

State of Idaho Rate: 356.0

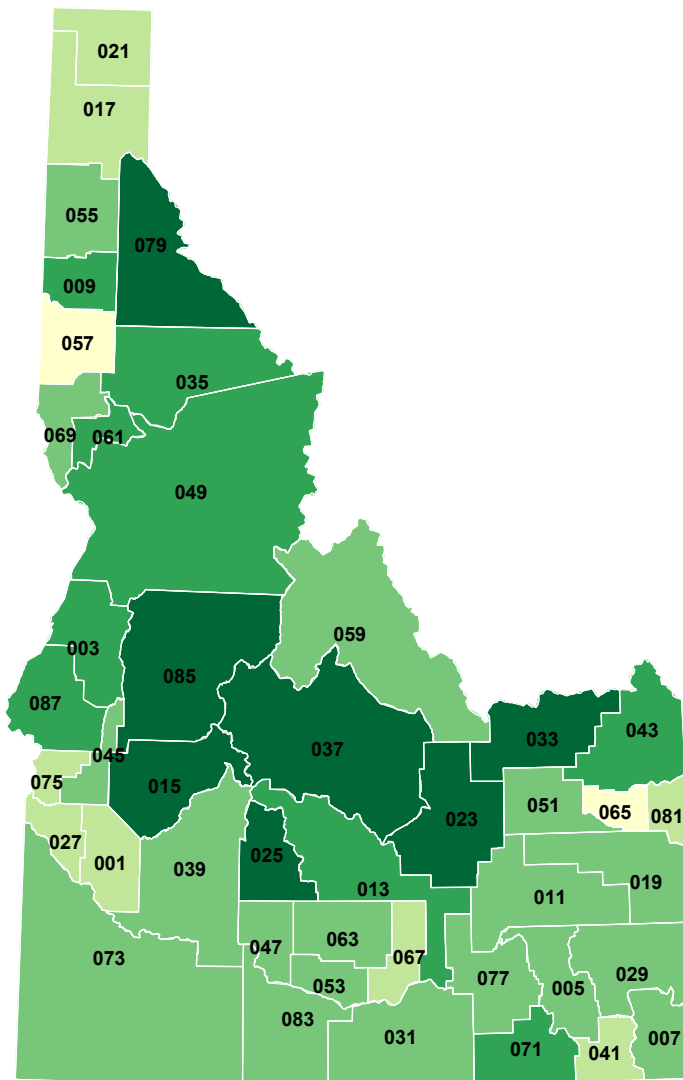

Crude Incidence Rates - Calculated from Injury ZIP Code

All causes (known and unknown)

Males and Females

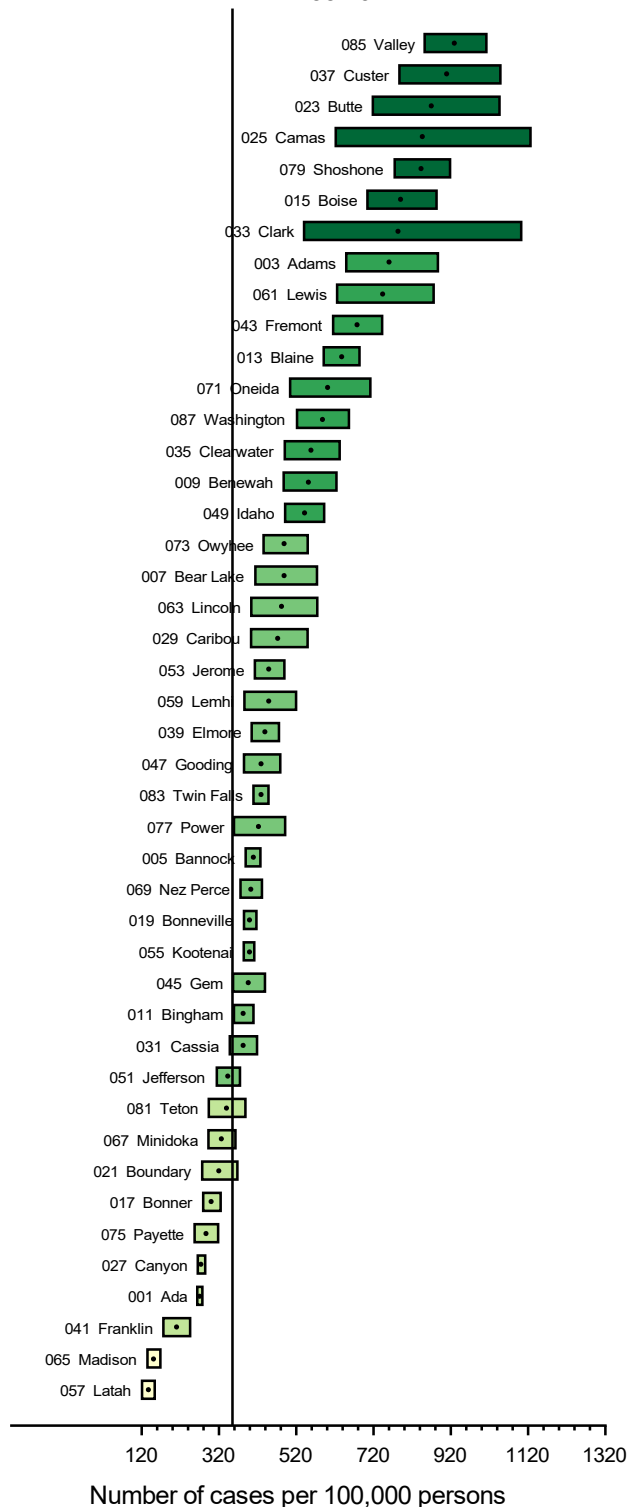

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 354.9

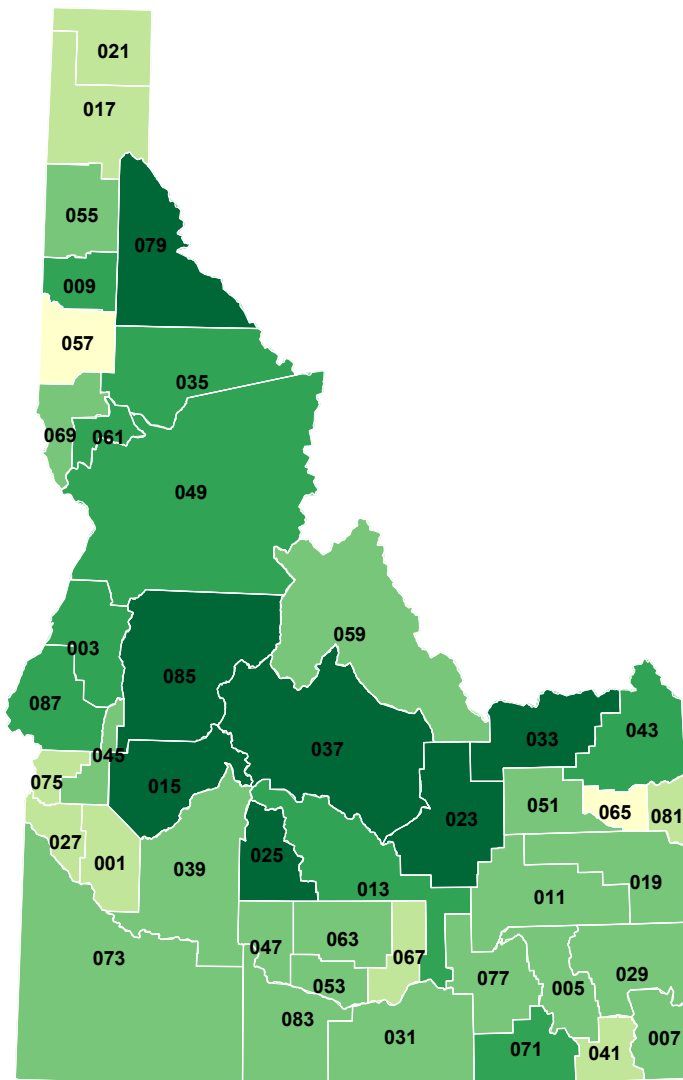

Crude Incidence Rates - Calculated from Injury ZIP Code

Total with known cause

Males and Females

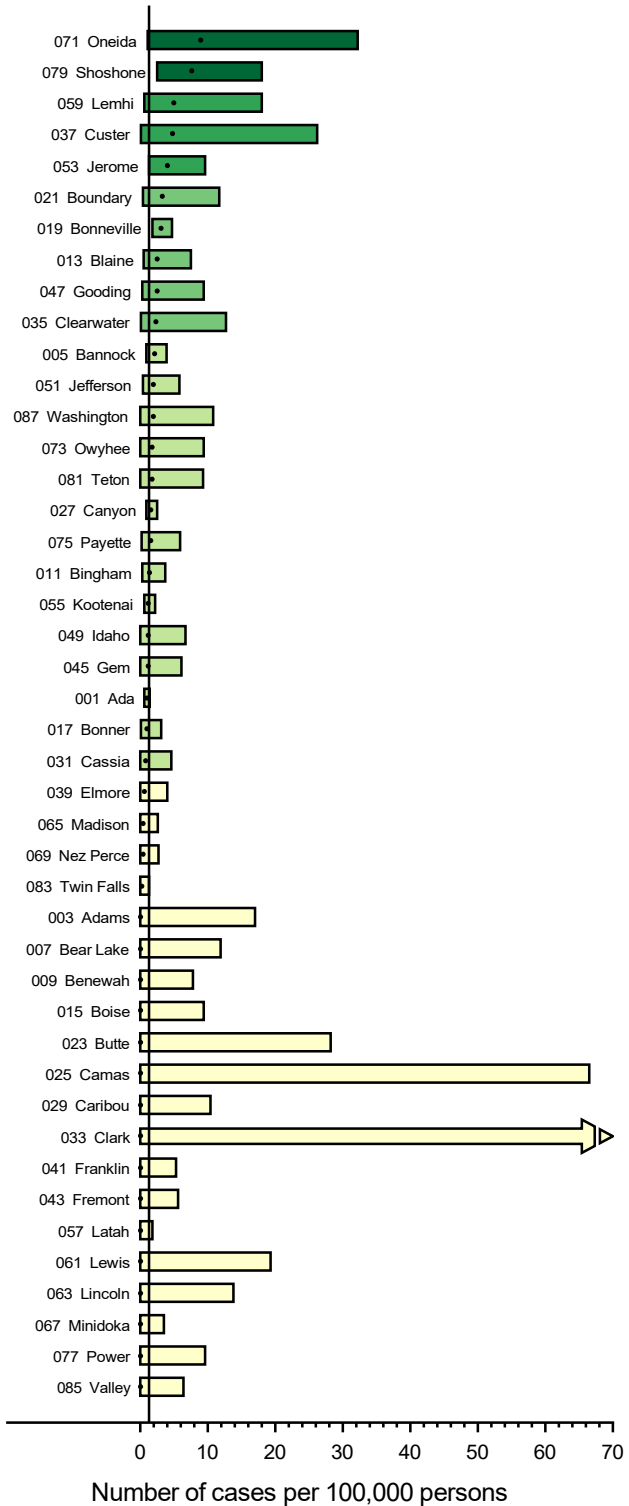

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 1.3

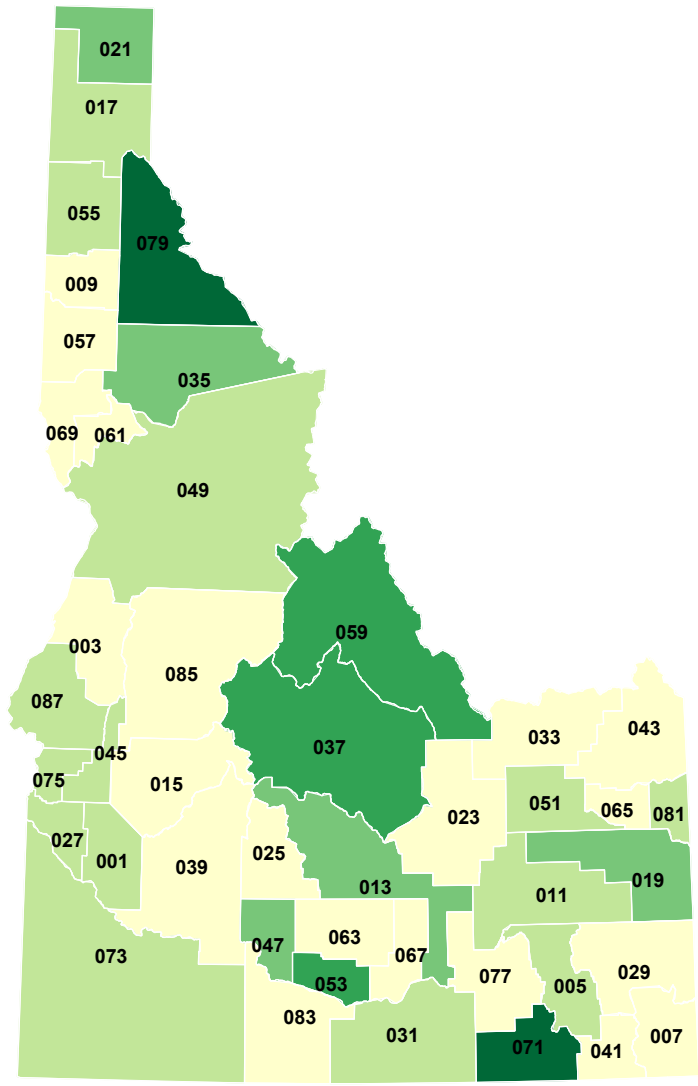

Crude Incidence Rates - Calculated from Injury ZIP Code

Bites and Stings

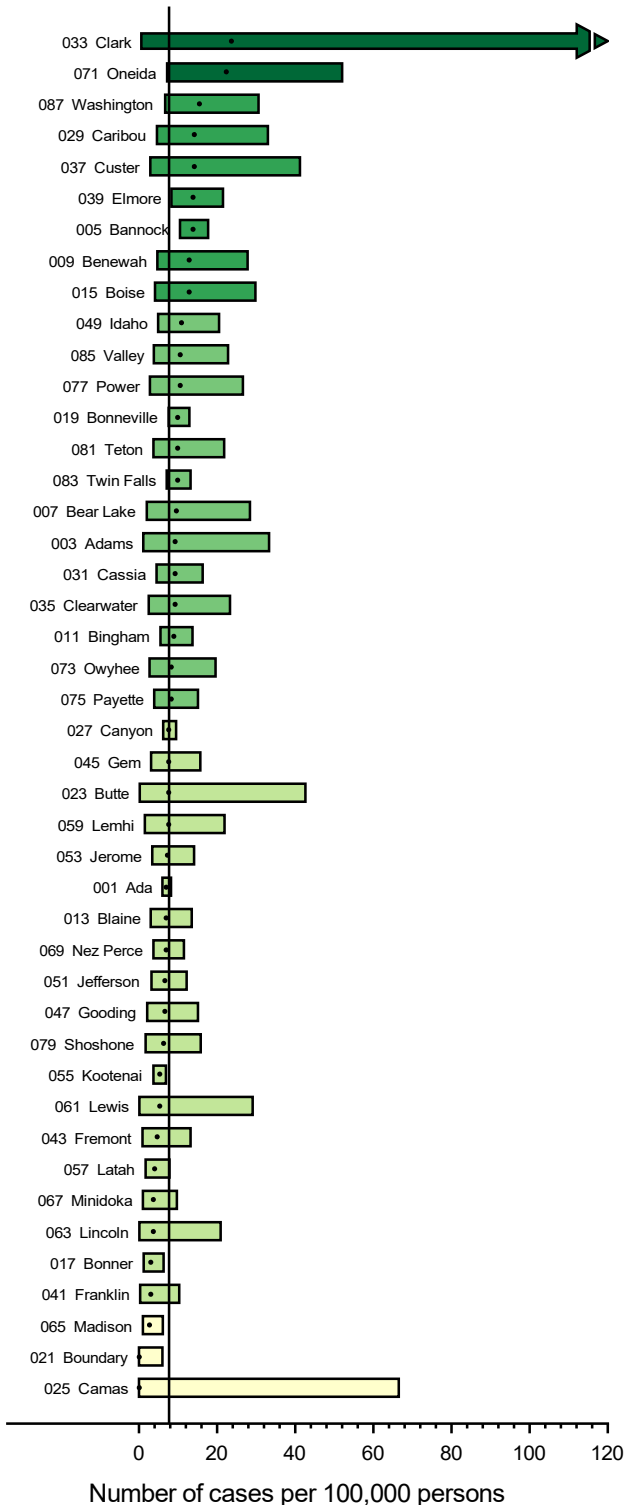

Males and Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 7.7

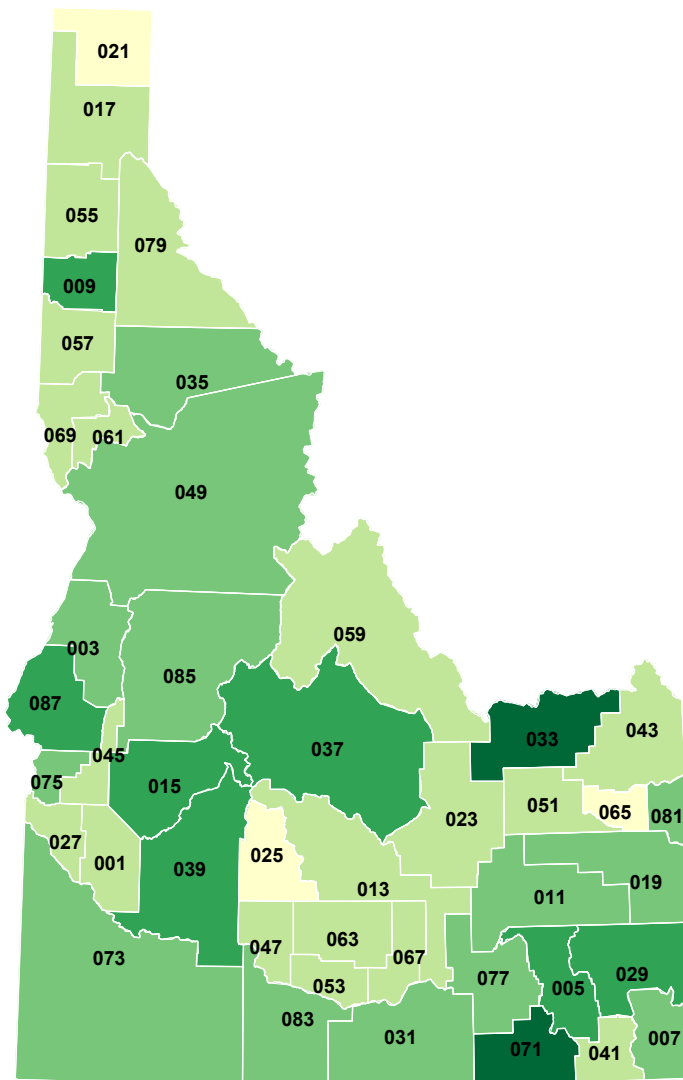

Crude Incidence Rates - Calculated from Injury ZIP Code

Cut/pierce

Males and Females

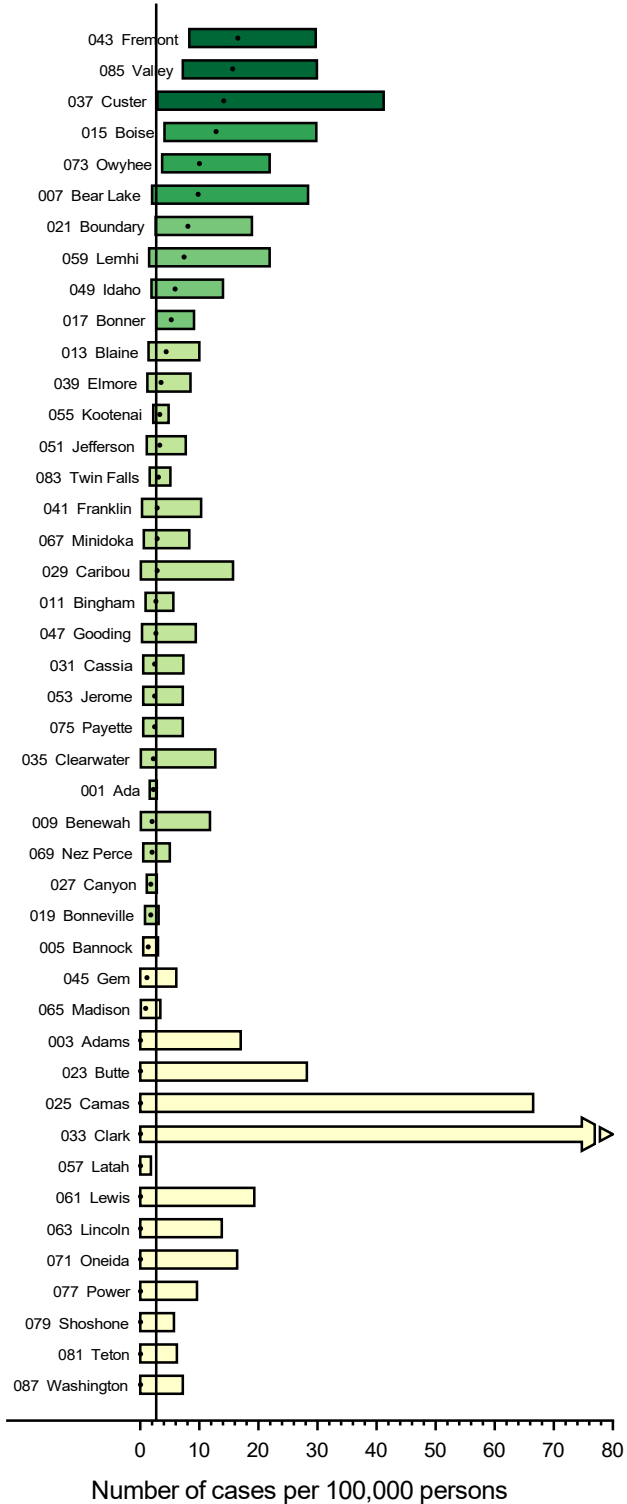

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 2.7

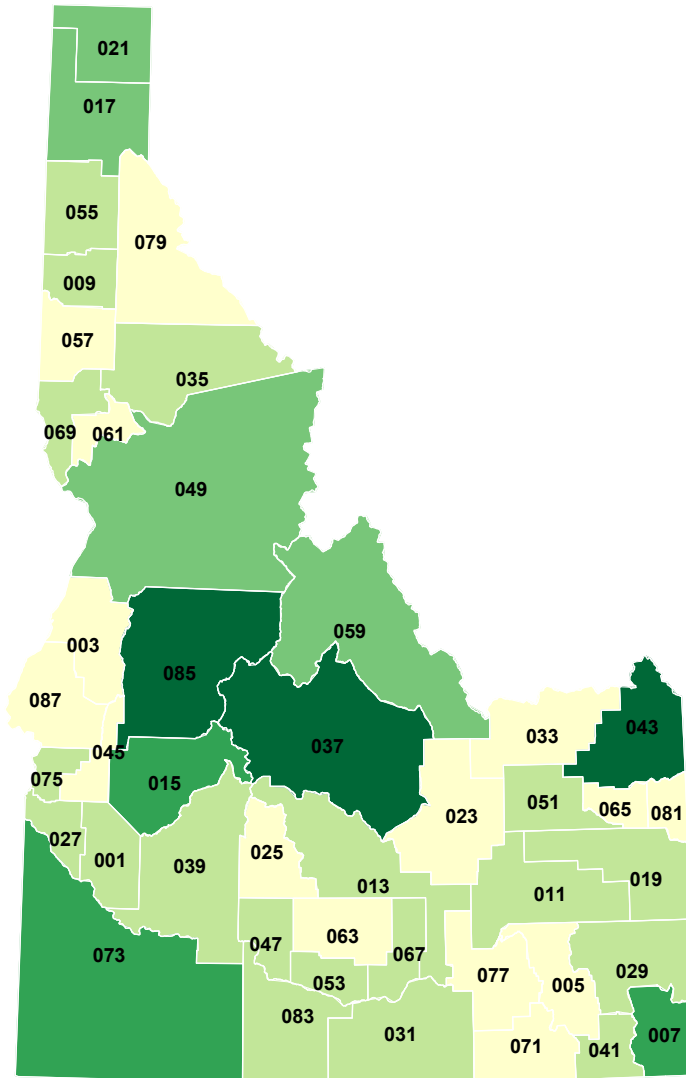

Crude Incidence Rates - Calculated from Injury ZIP Code

Drowning/submersion

Males and Females

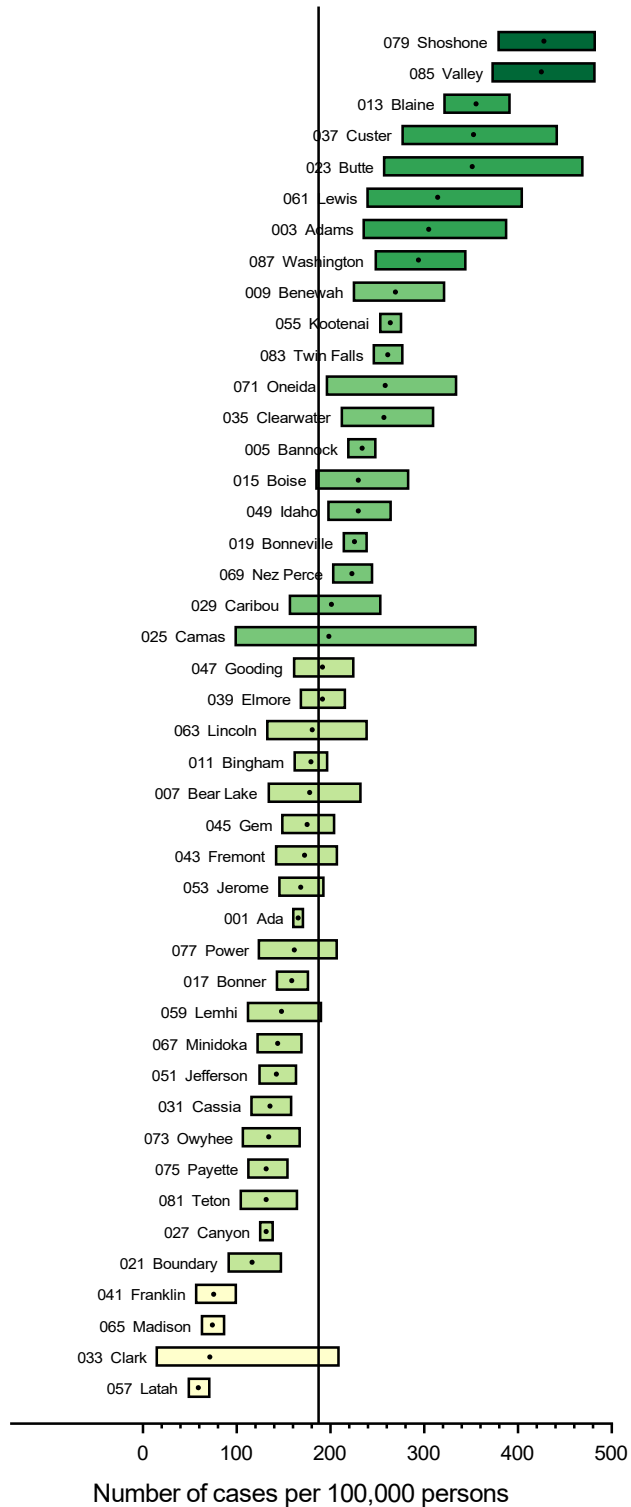

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 187.3

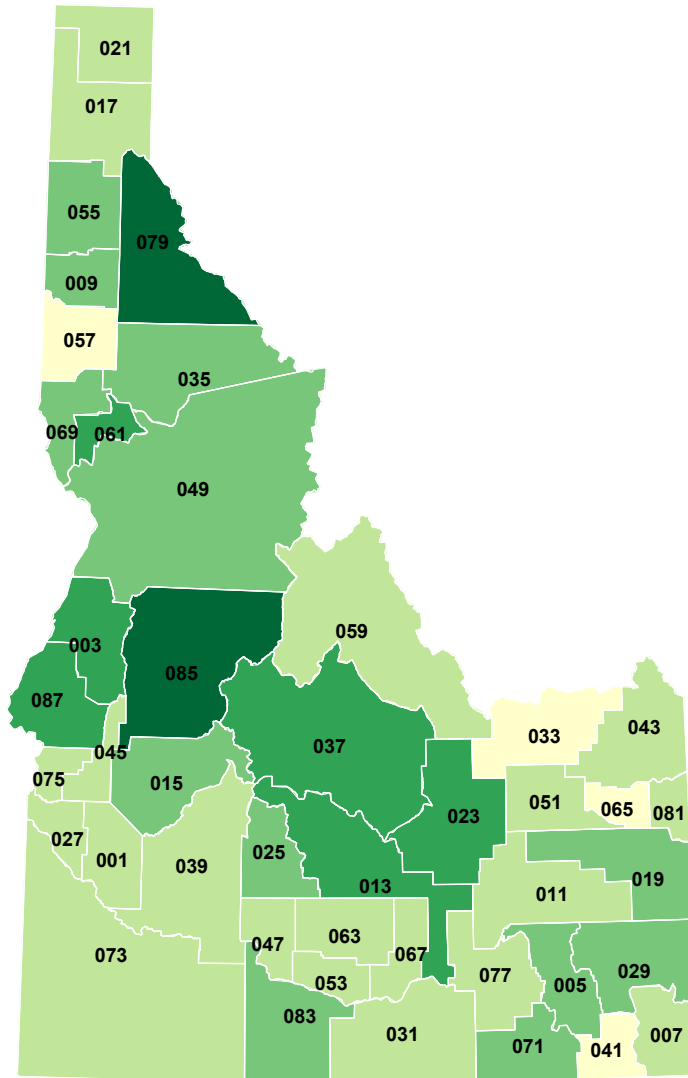

Crude Incidence Rates - Calculated from Injury ZIP Code

Fall

Males and Females

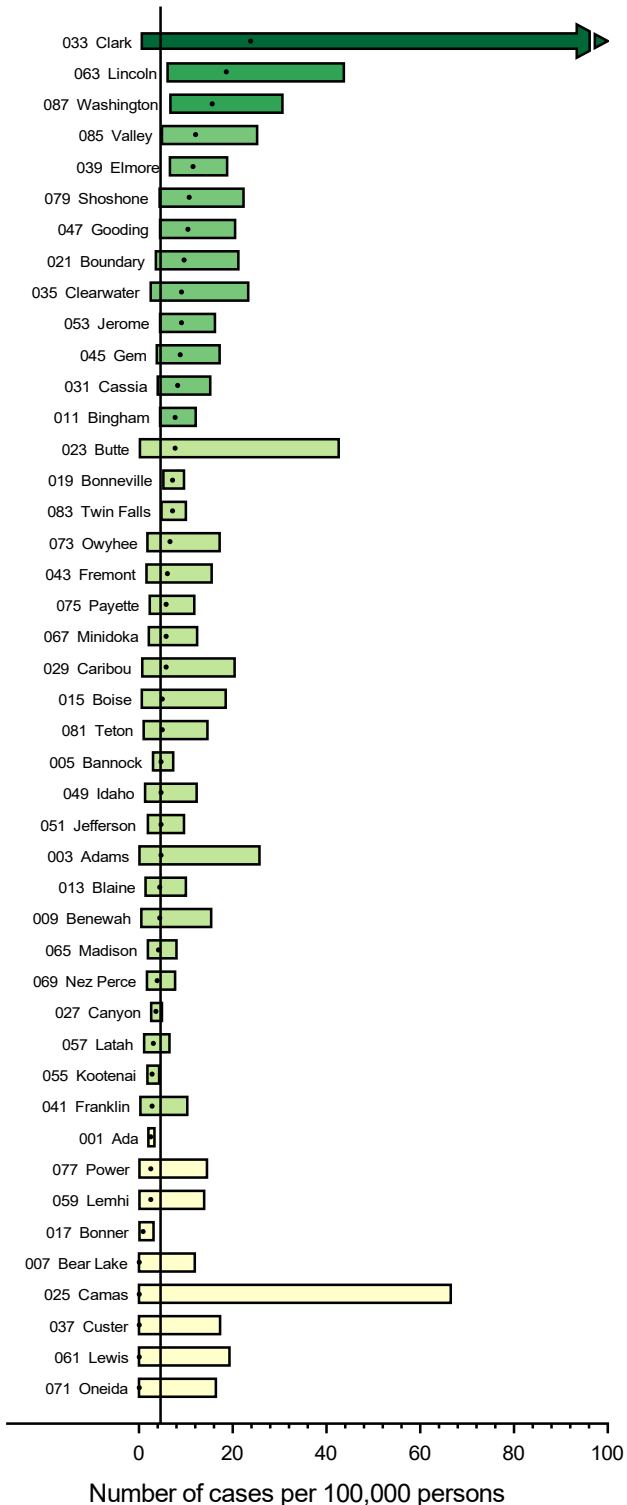

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 4.6

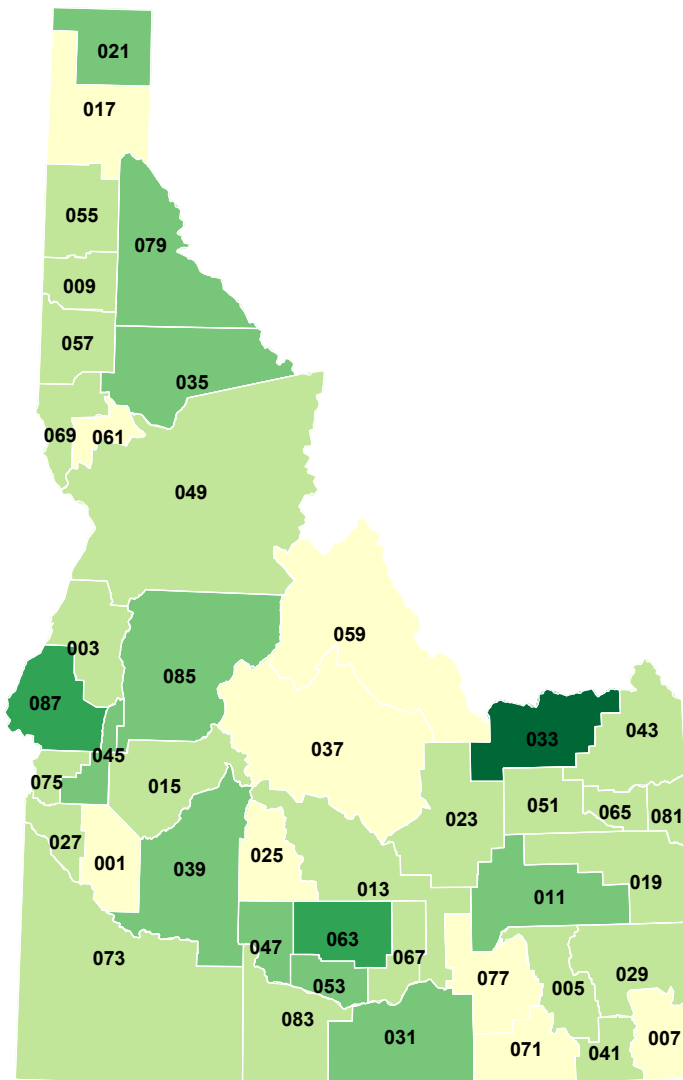

Crude Incidence Rates - Calculated from Injury ZIP Code

Fire/burn

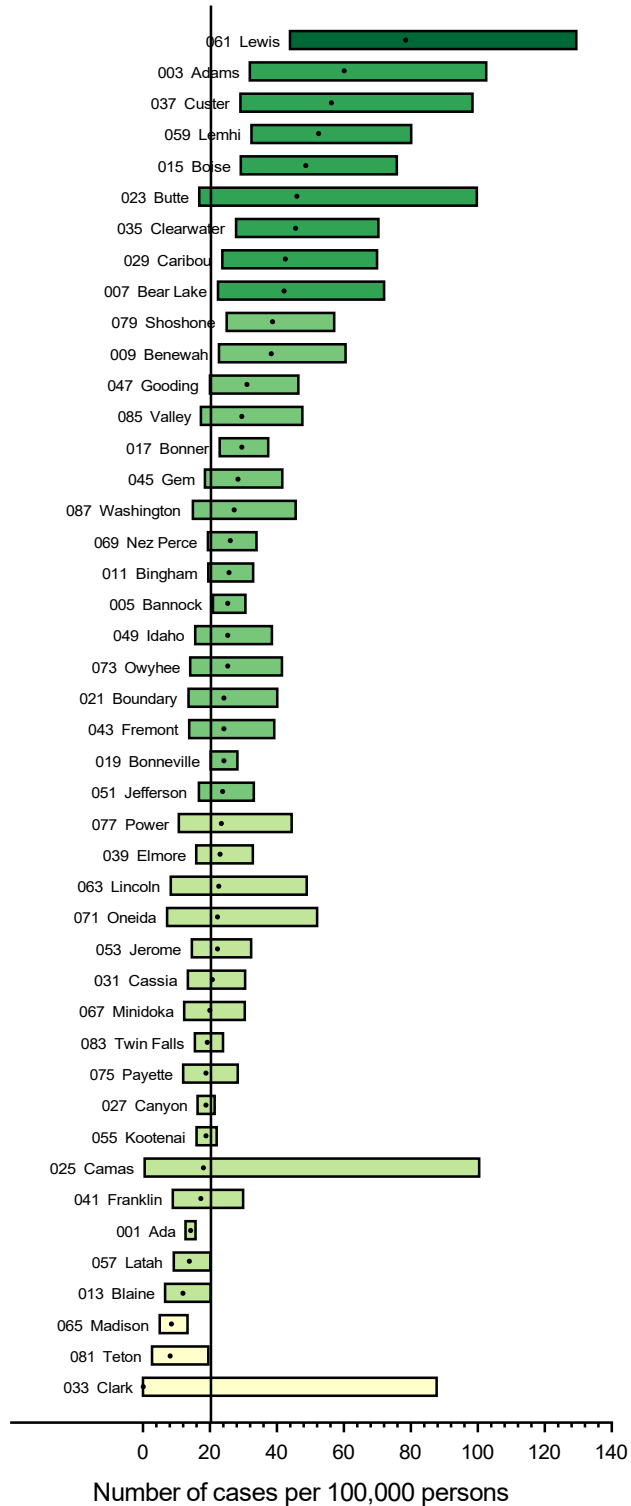

Males and Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

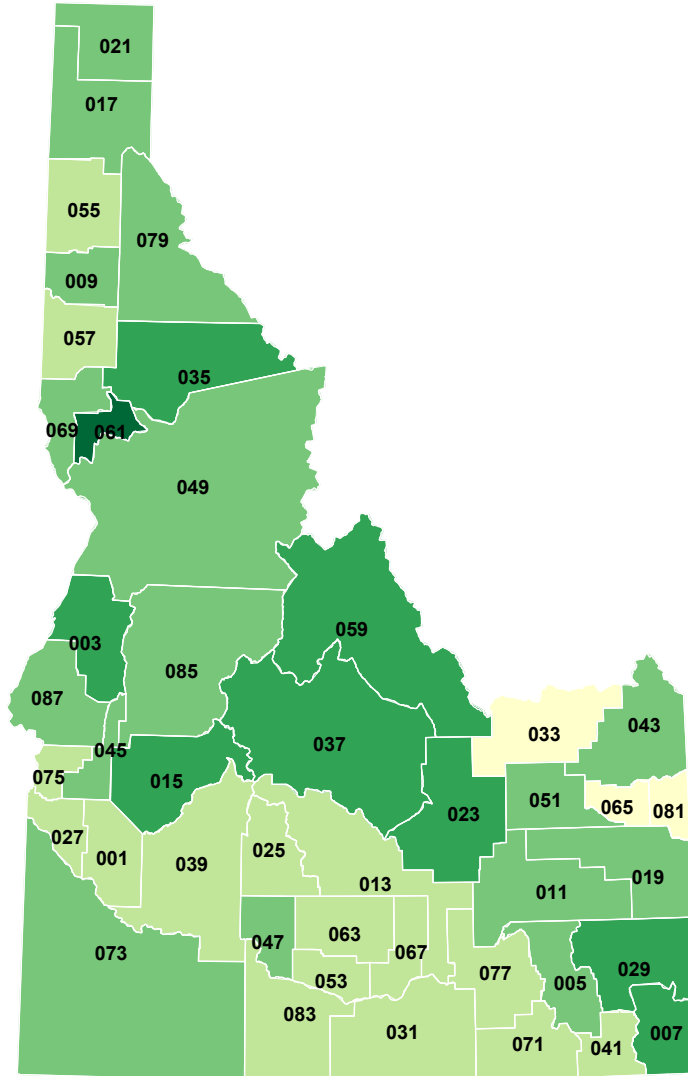

State of Idaho Rate: 20.3

Crude Incidence Rates - Calculated from Injury ZIP Code

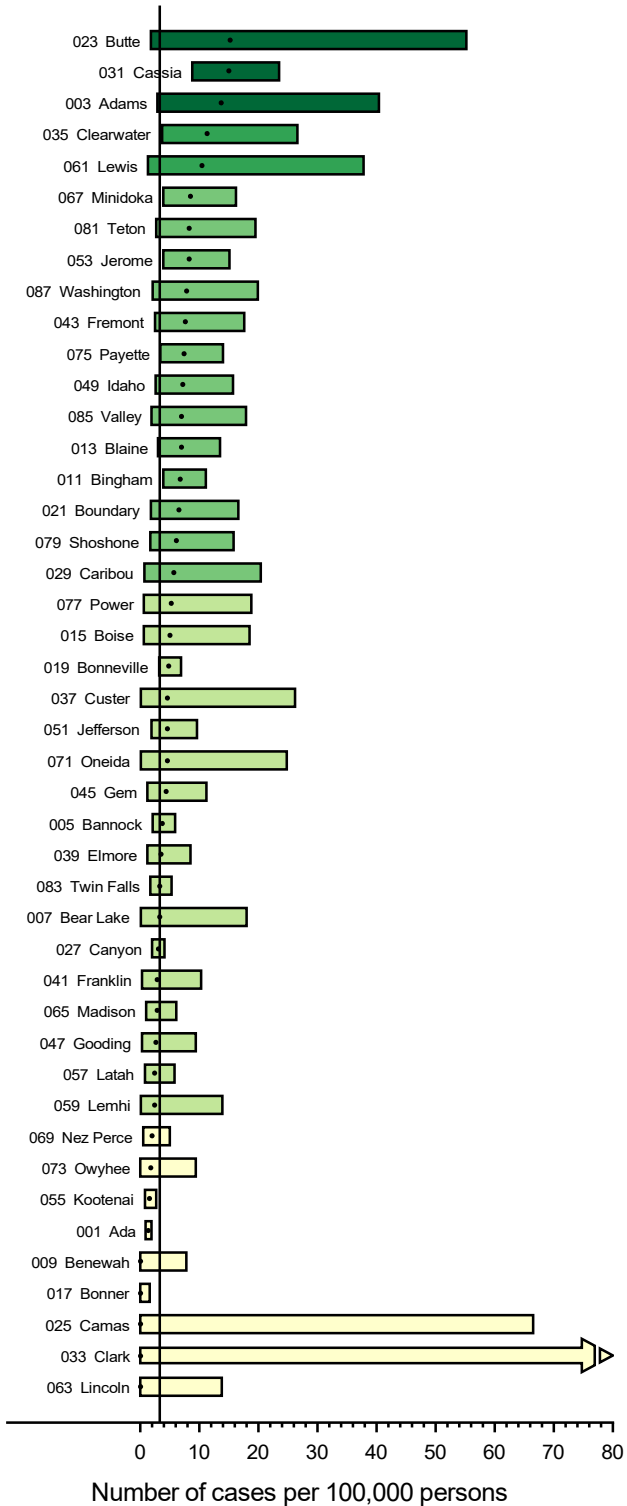

Firearm Males and Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 3.3

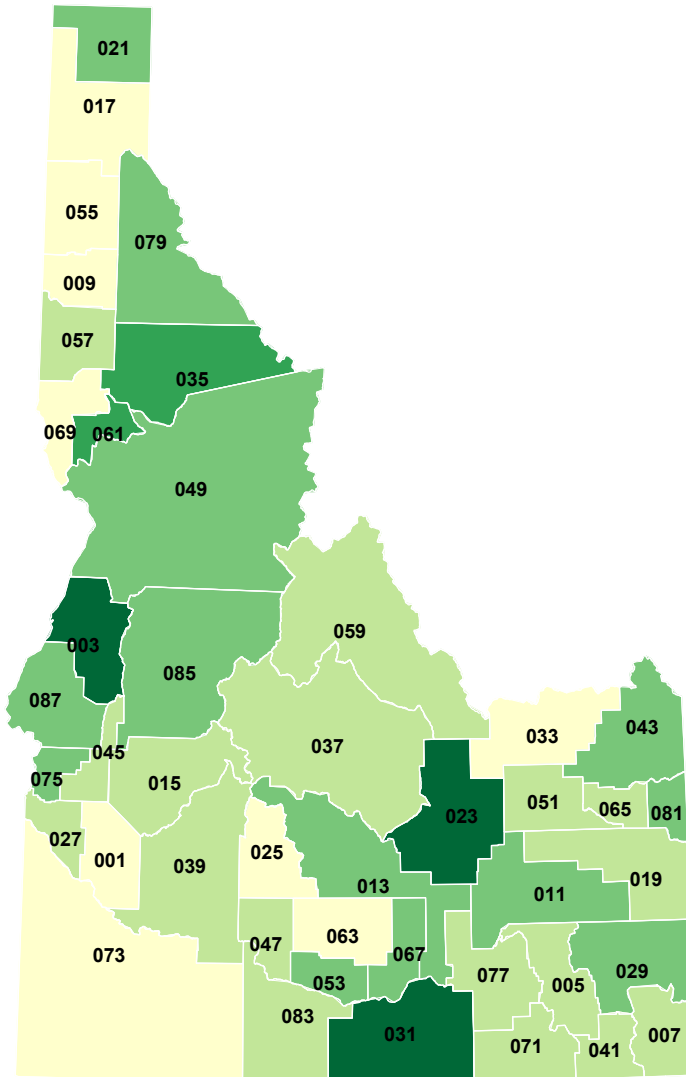

Crude Incidence Rates - Calculated from Injury ZIP Code

Machinery

Males and Females

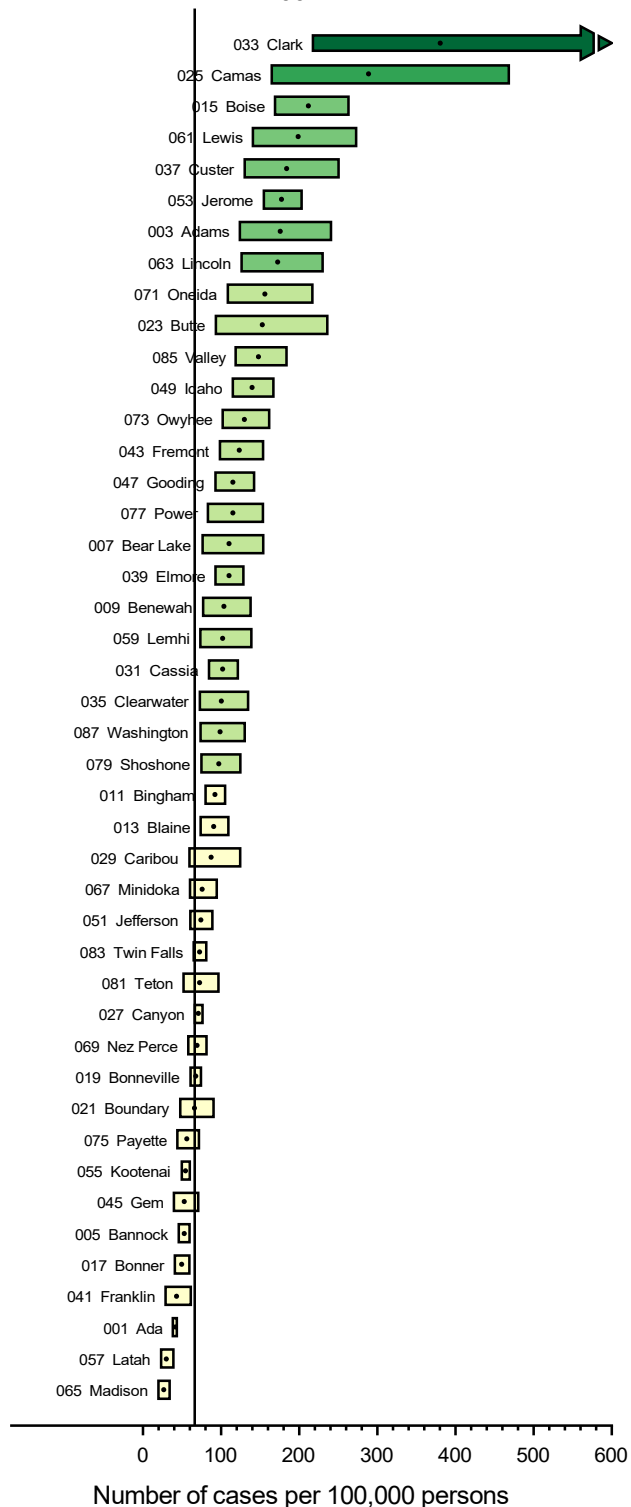

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 66.2

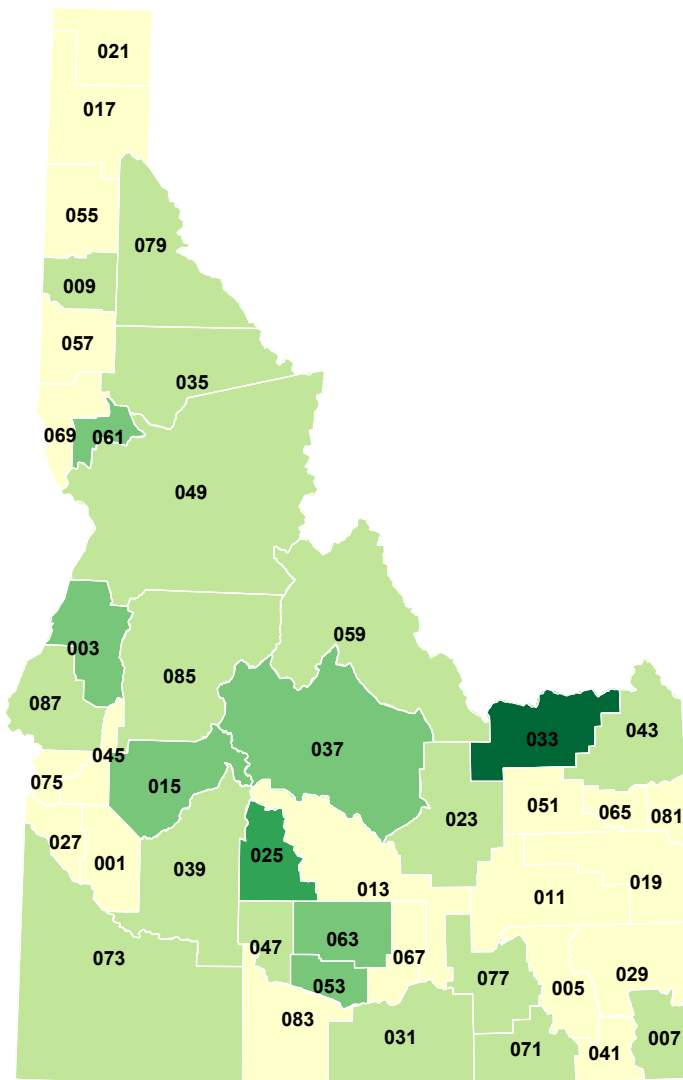

Crude Incidence Rates - Calculated from Injury ZIP Code

Motor vehicle traffic

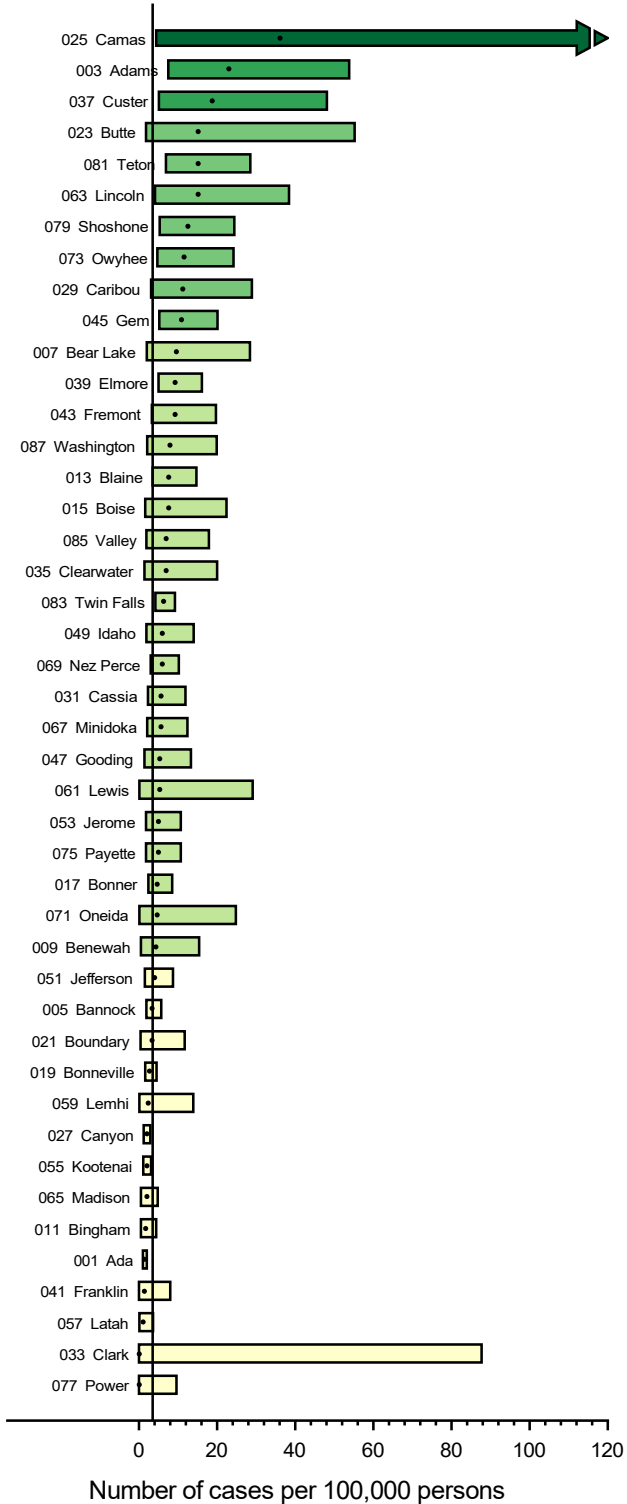

Males and Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 3.5

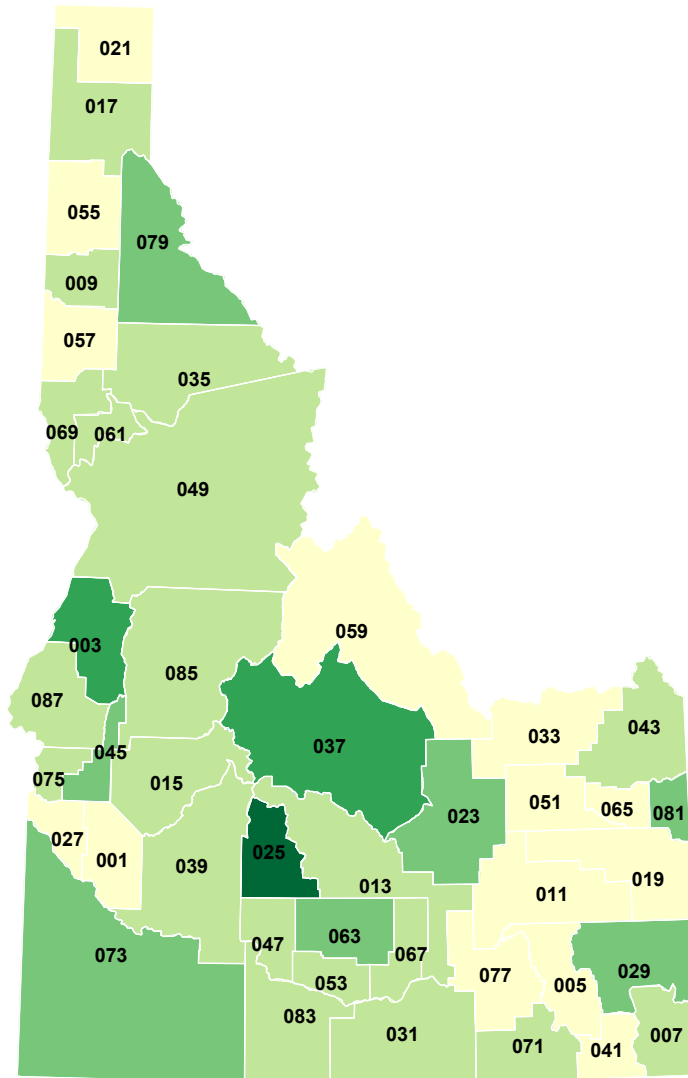

Crude Incidence Rates - Calculated from Injury ZIP Code

Natural/environmental

Males and Females

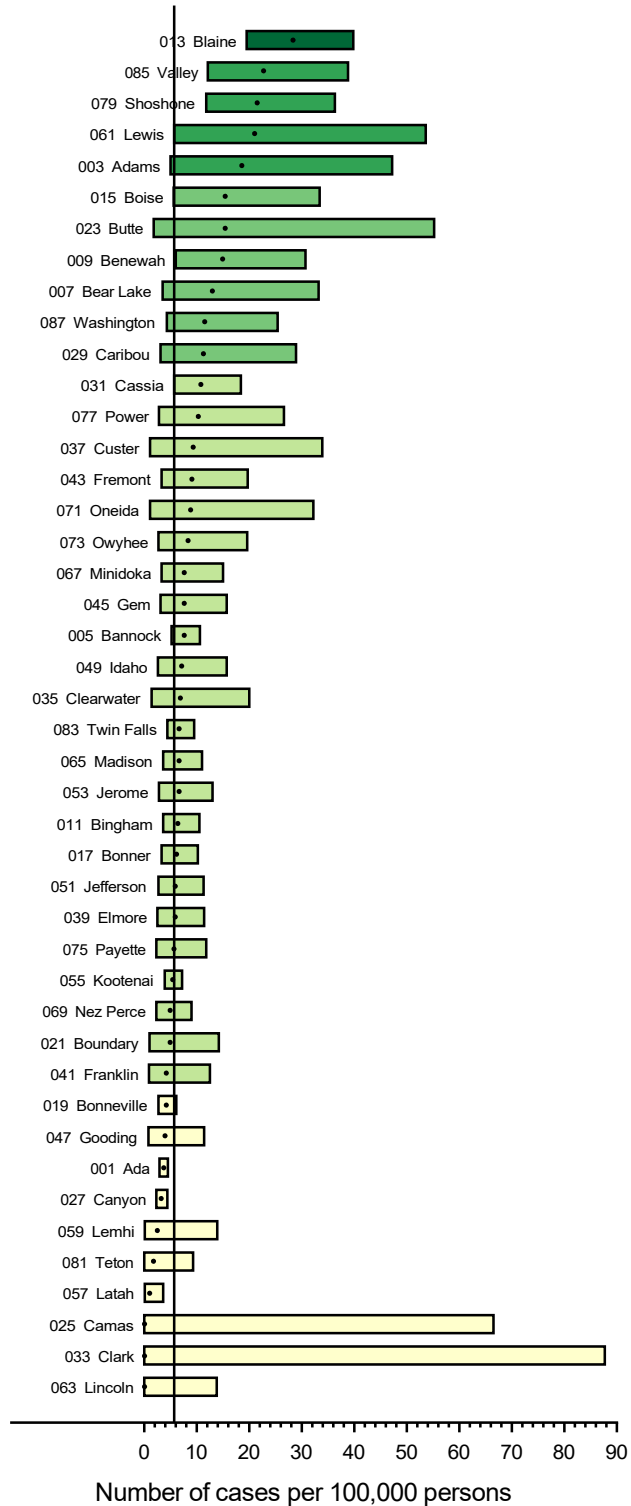

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 5.7

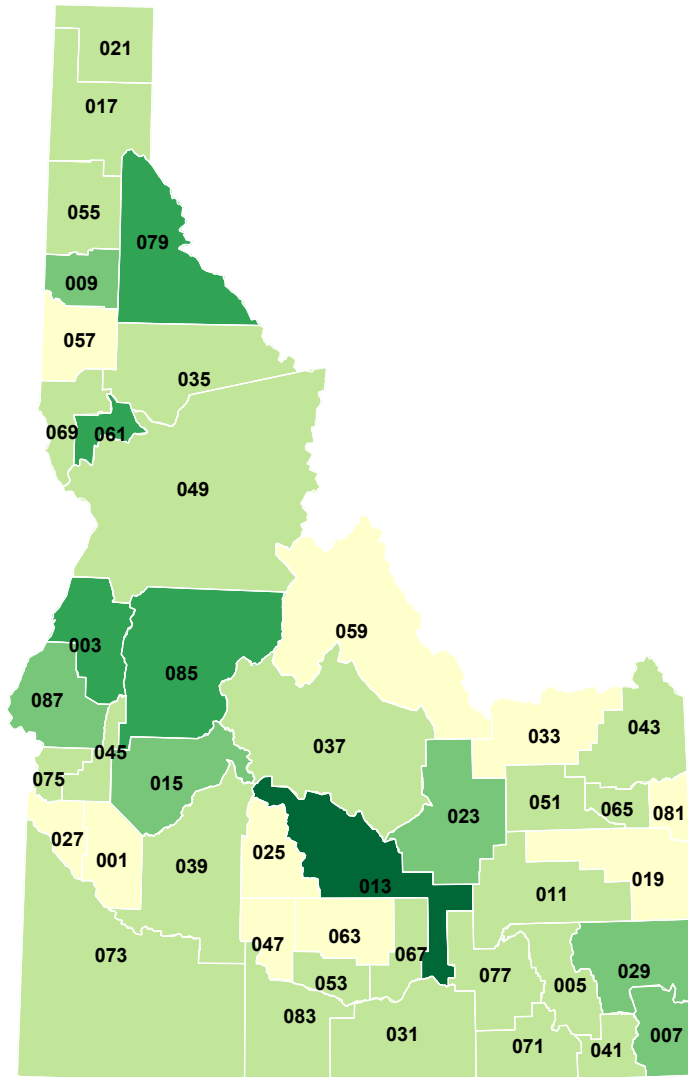

Crude Incidence Rates - Calculated from Injury ZIP Code

Other Specified

Males and Females

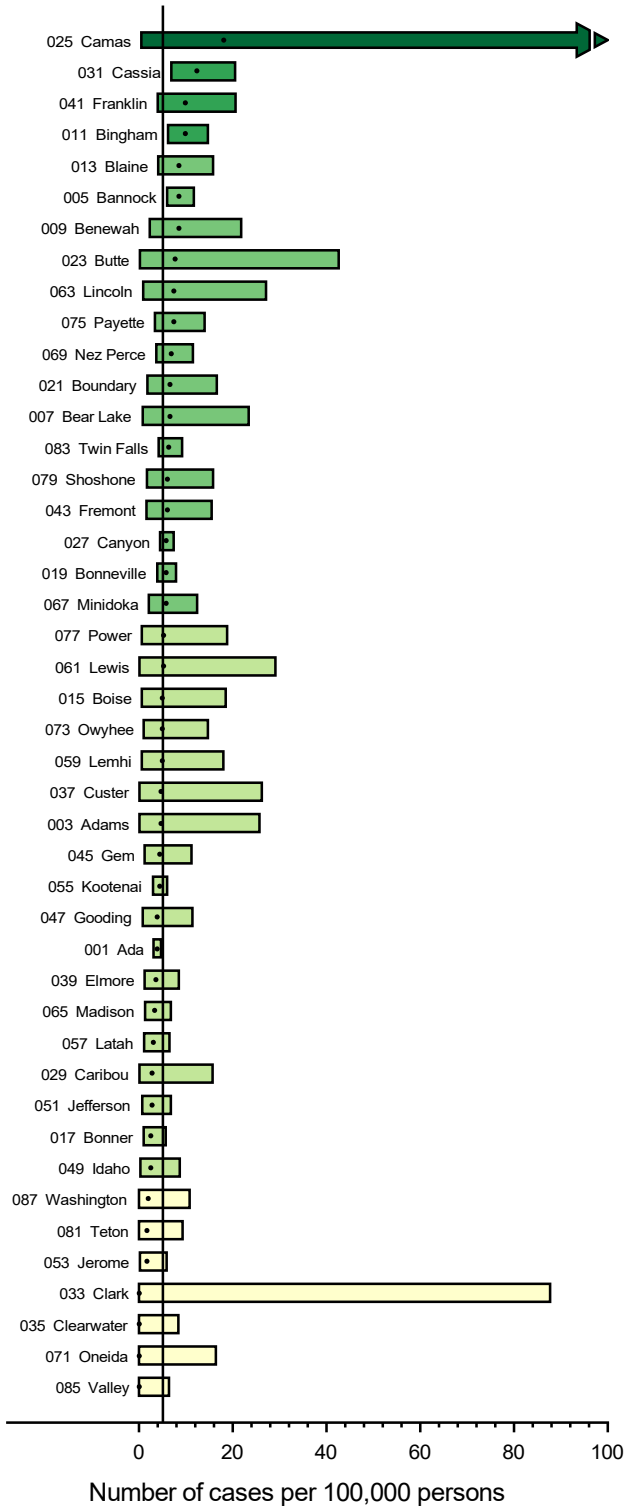

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 5.1

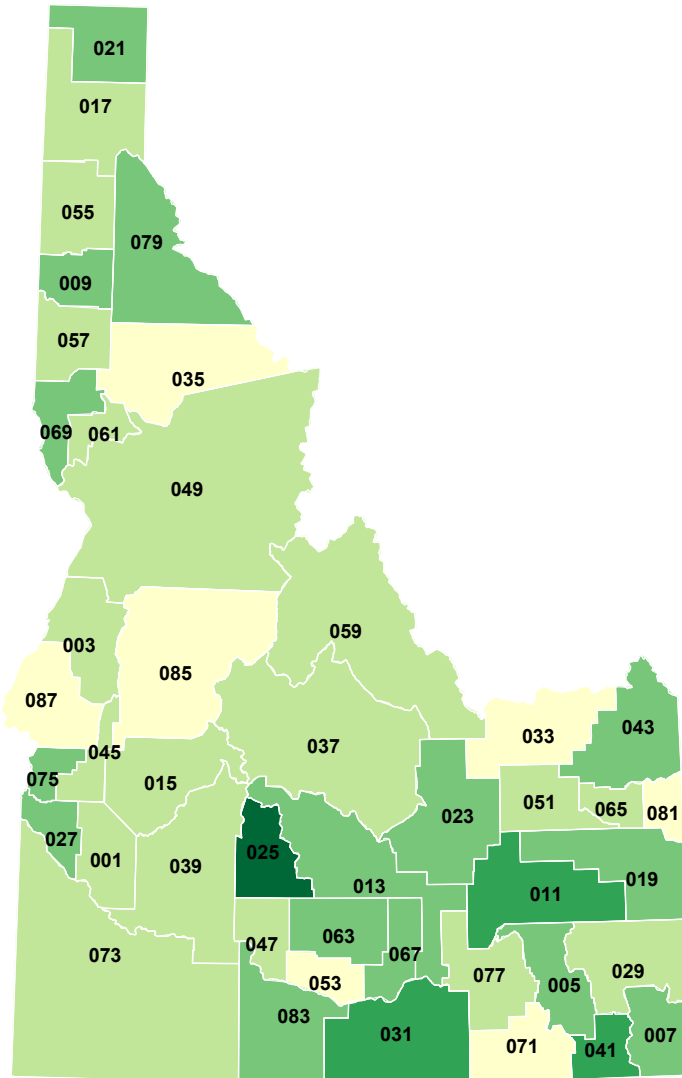

Crude Incidence Rates - Calculated from Injury ZIP Code

Suffocation

Males and Females

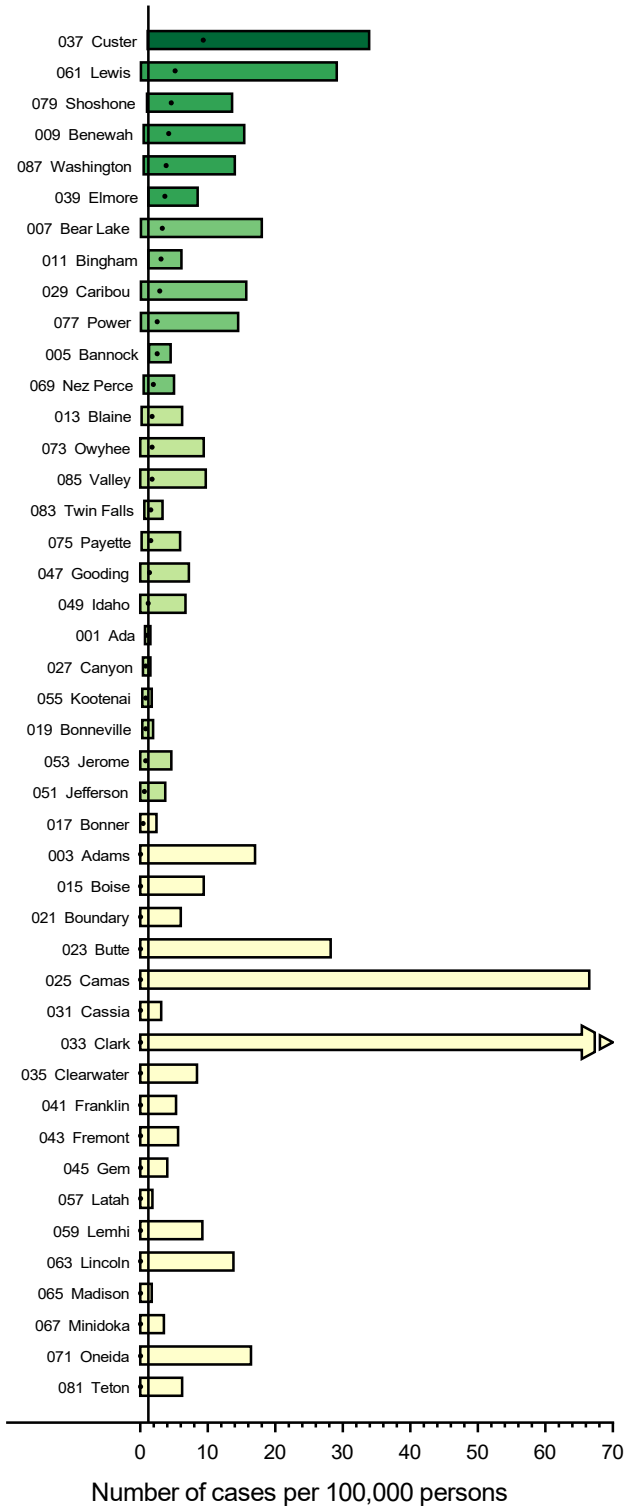

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 1.2

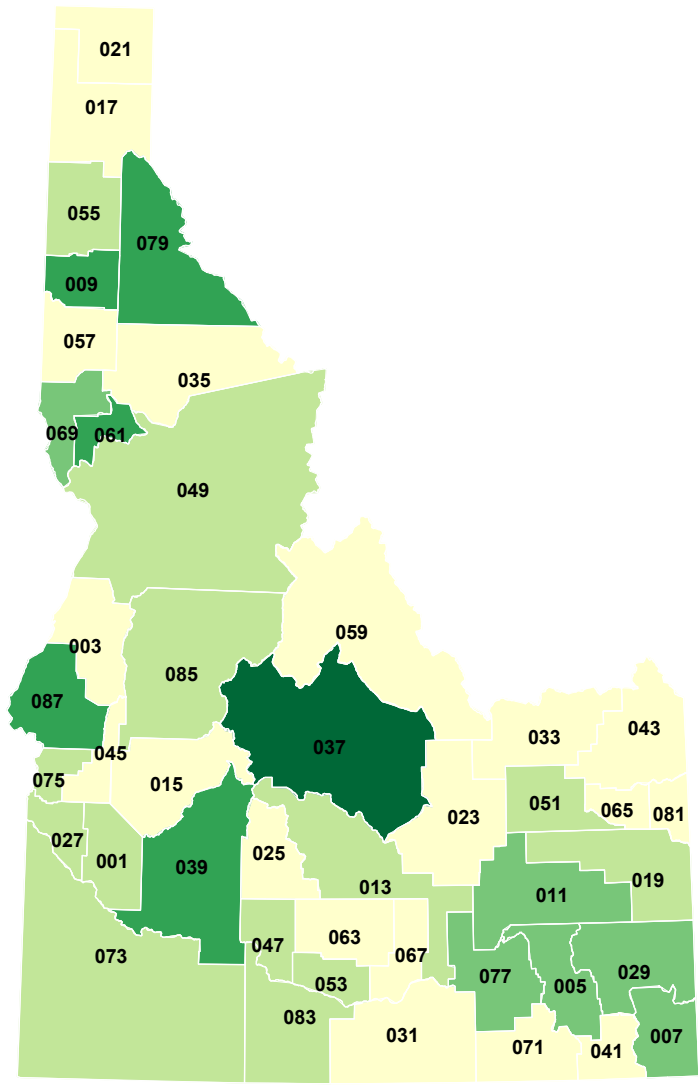

Crude Incidence Rates - Calculated from Injury ZIP Code

Unspecified

Males and Females

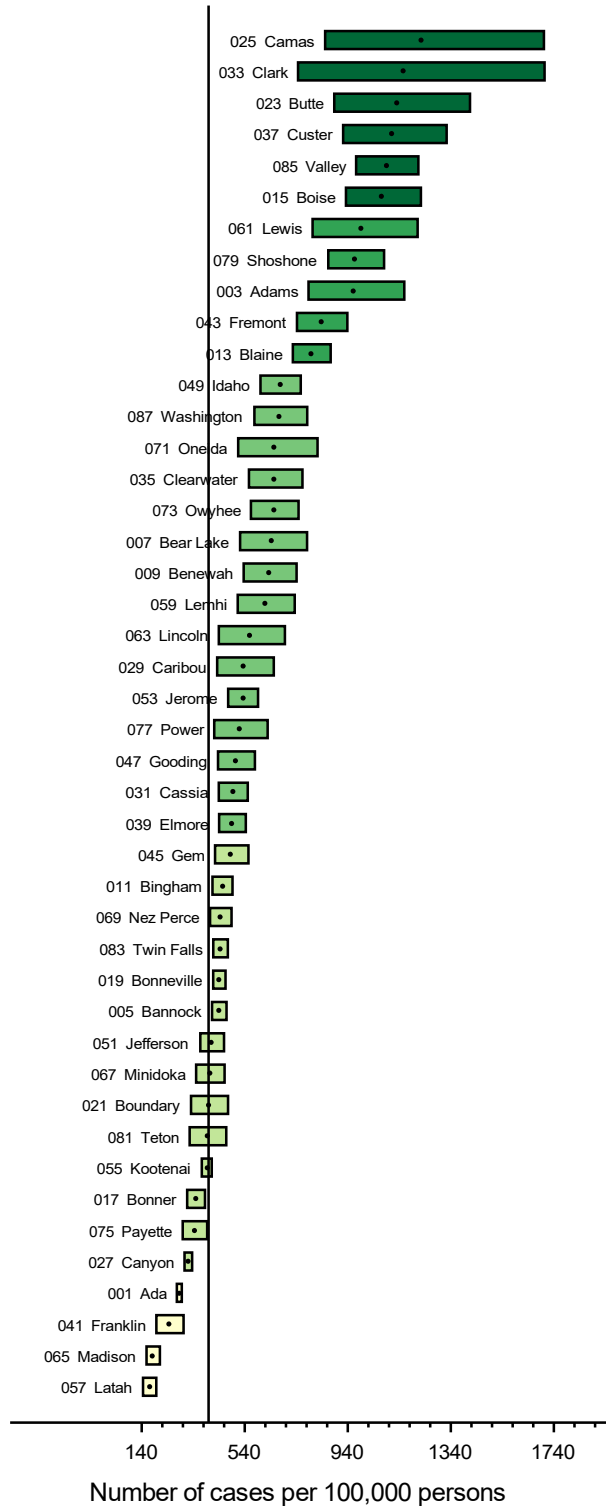

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

Male Patients (Idaho and non-Idaho Residents)

State of Idaho Rate: 399.6

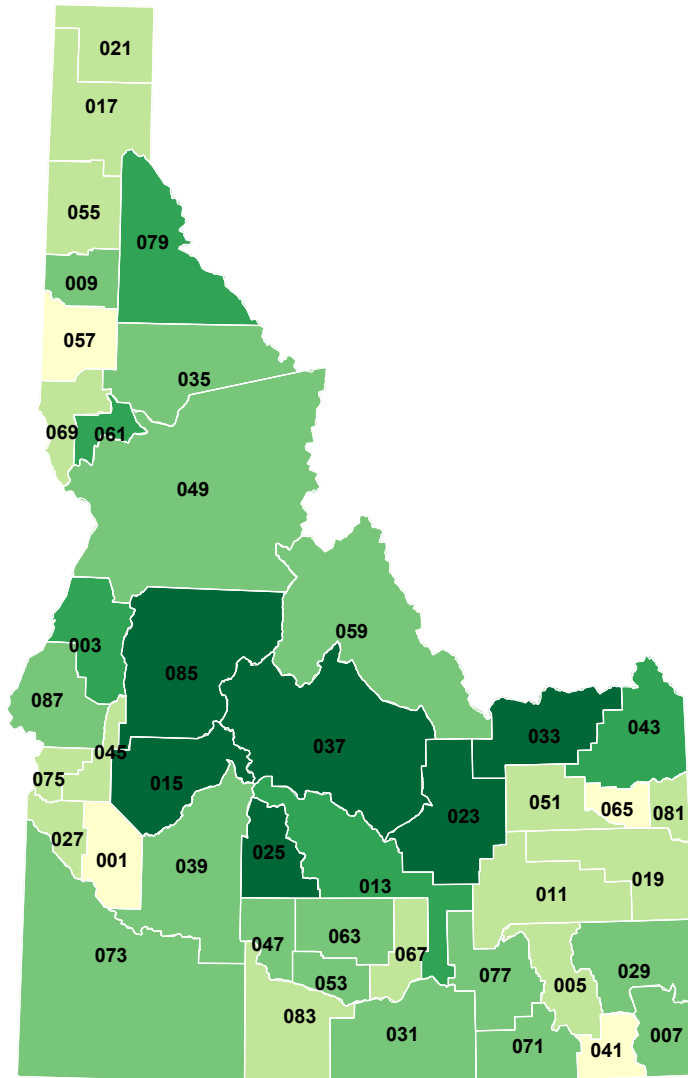

Crude Incidence Rates - Calculated from Injury ZIP Code

All causes (known and unknown)

Males

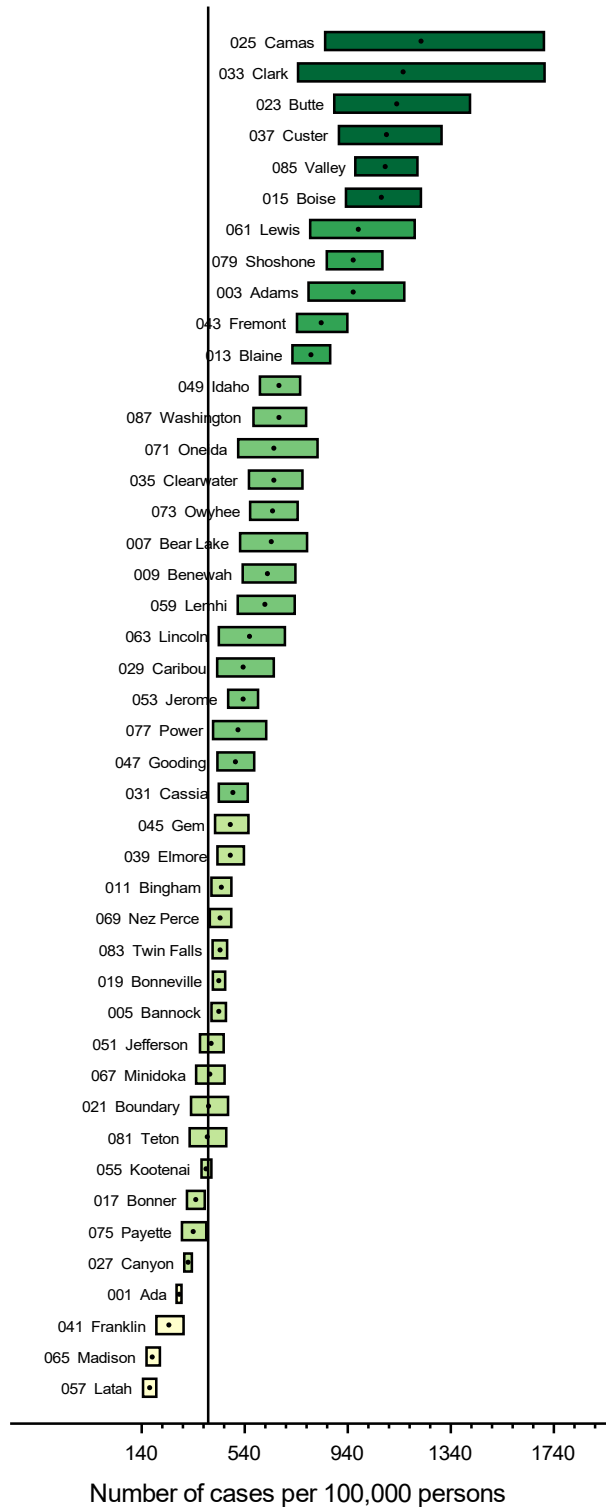

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 398.1

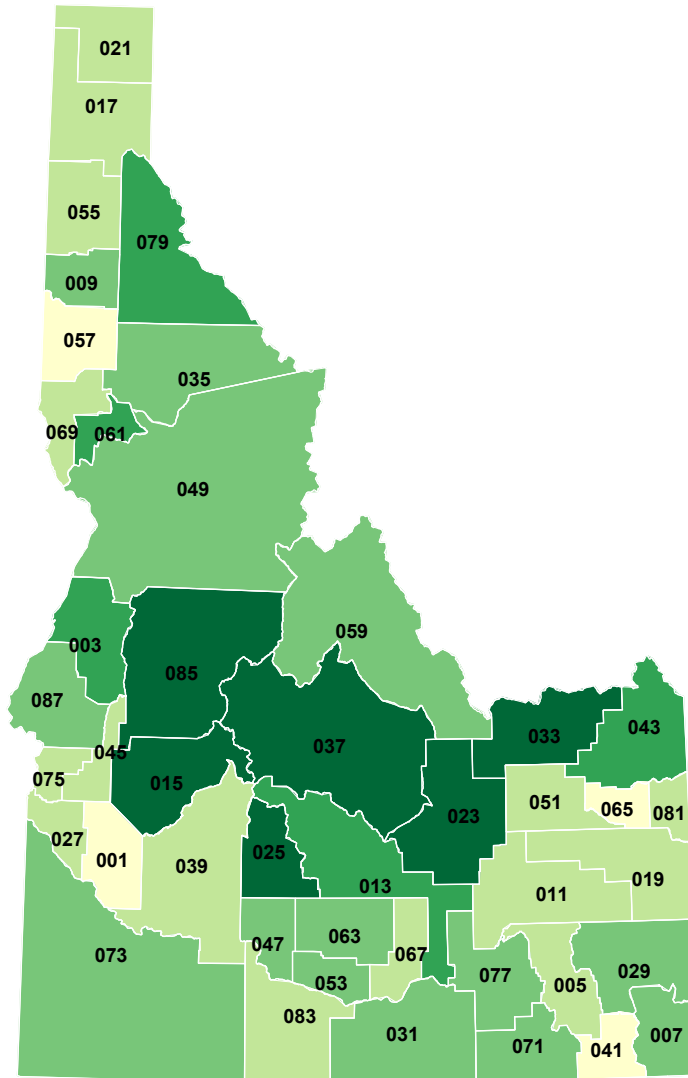

Crude Incidence Rates - Calculated from Injury ZIP Code

Total with known cause

Males

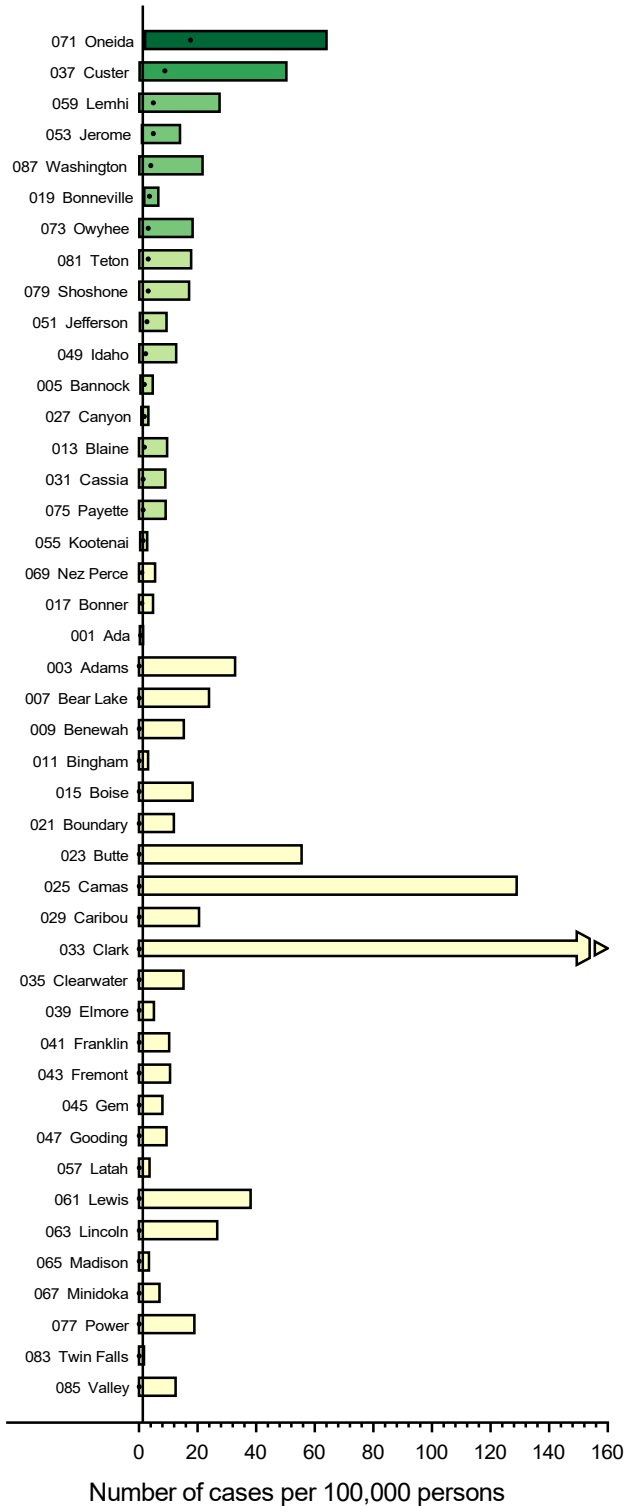

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 1.3

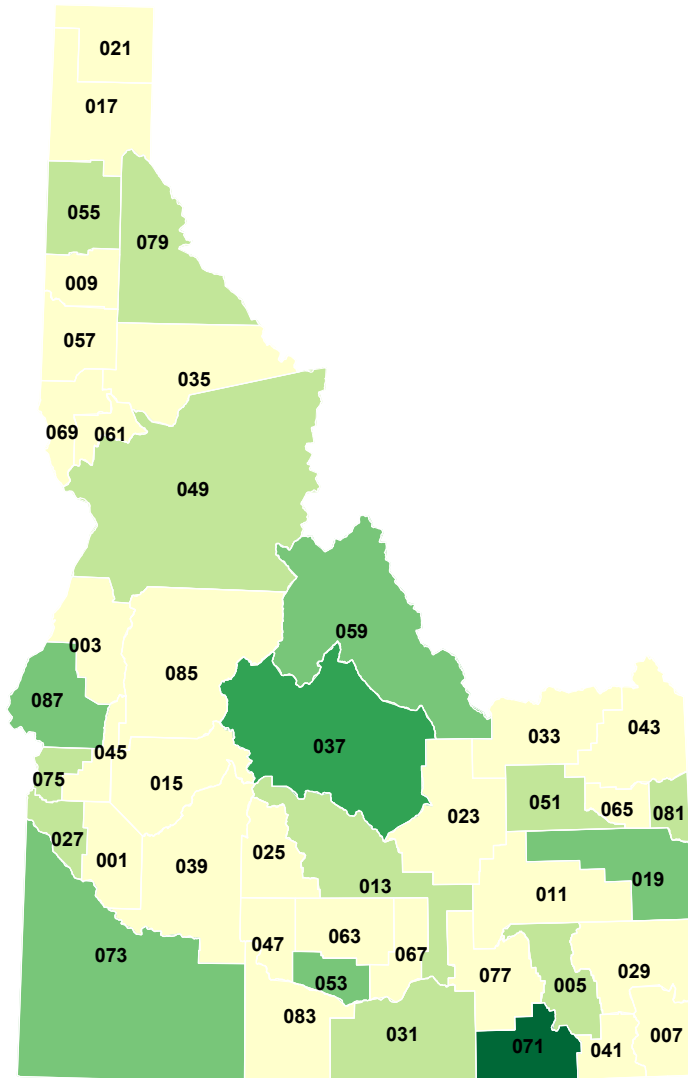

Crude Incidence Rates - Calculated from Injury ZIP Code

Bites and Stings

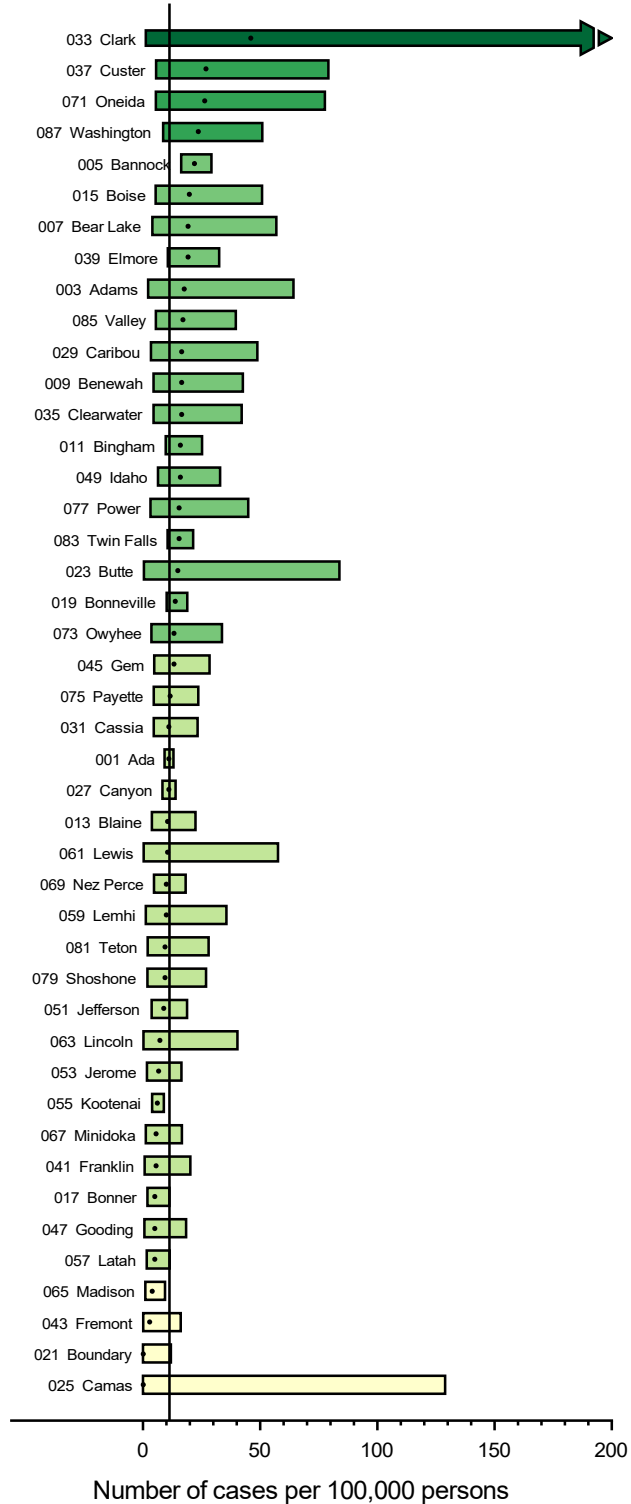

Males

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 11.3

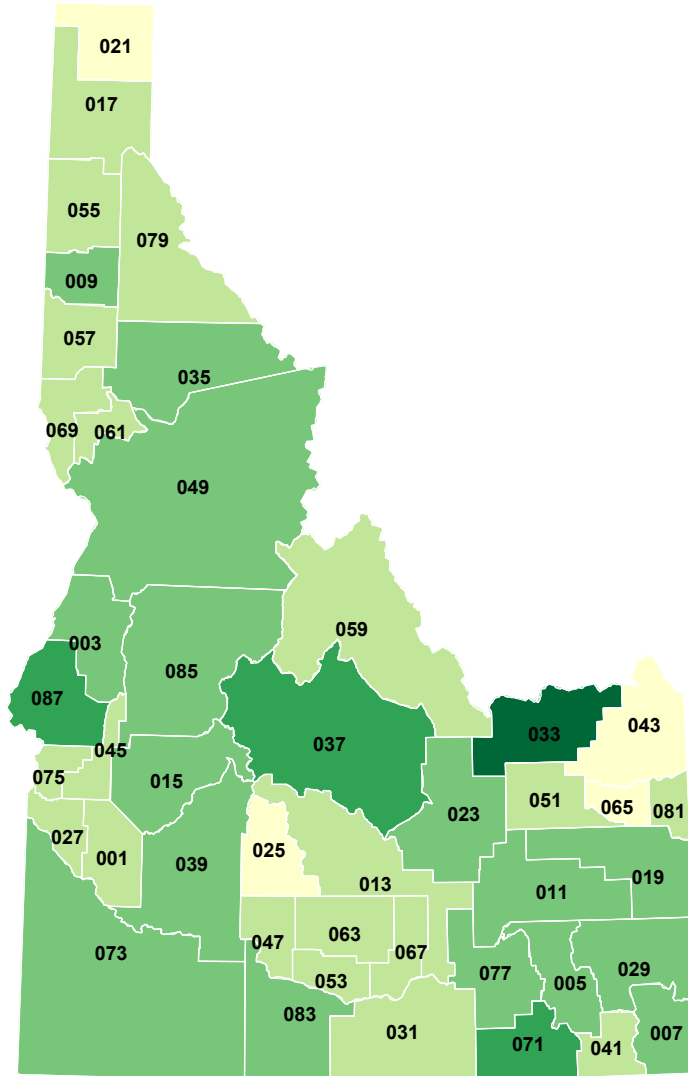

Crude Incidence Rates - Calculated from Injury ZIP Code

Cut/pierce

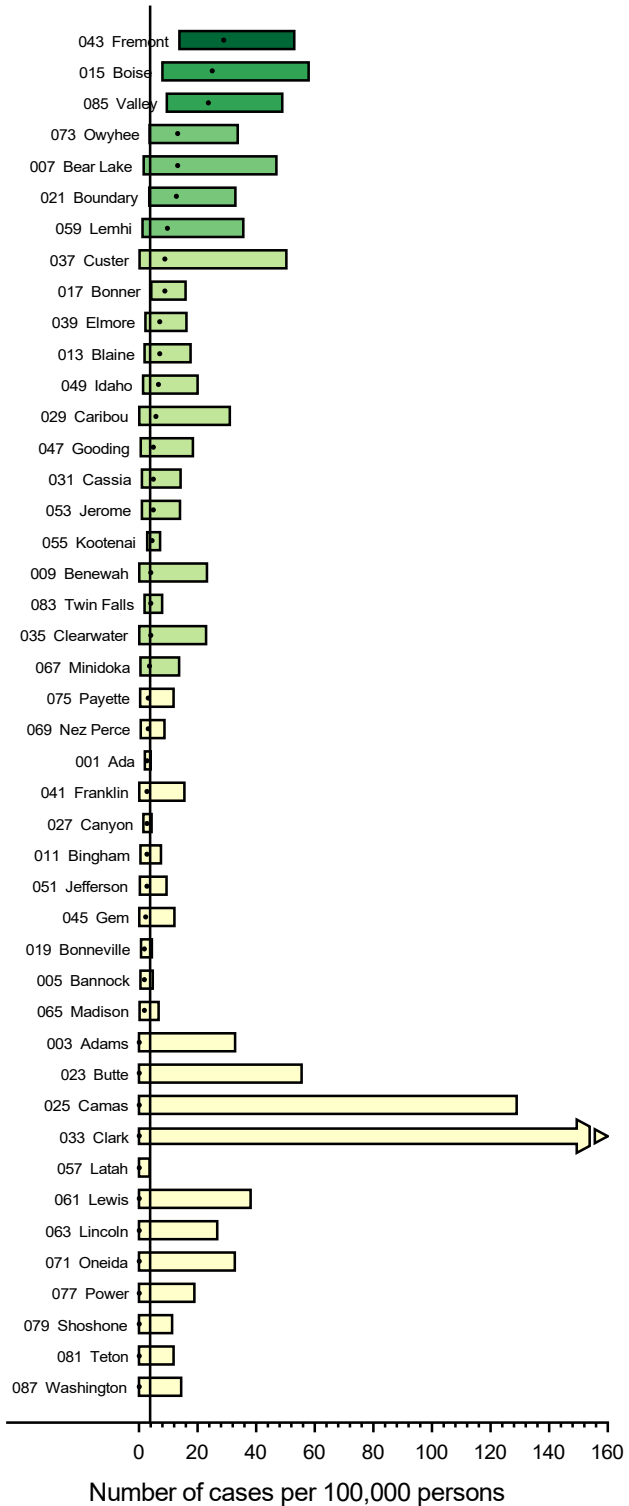

Males

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 3.8

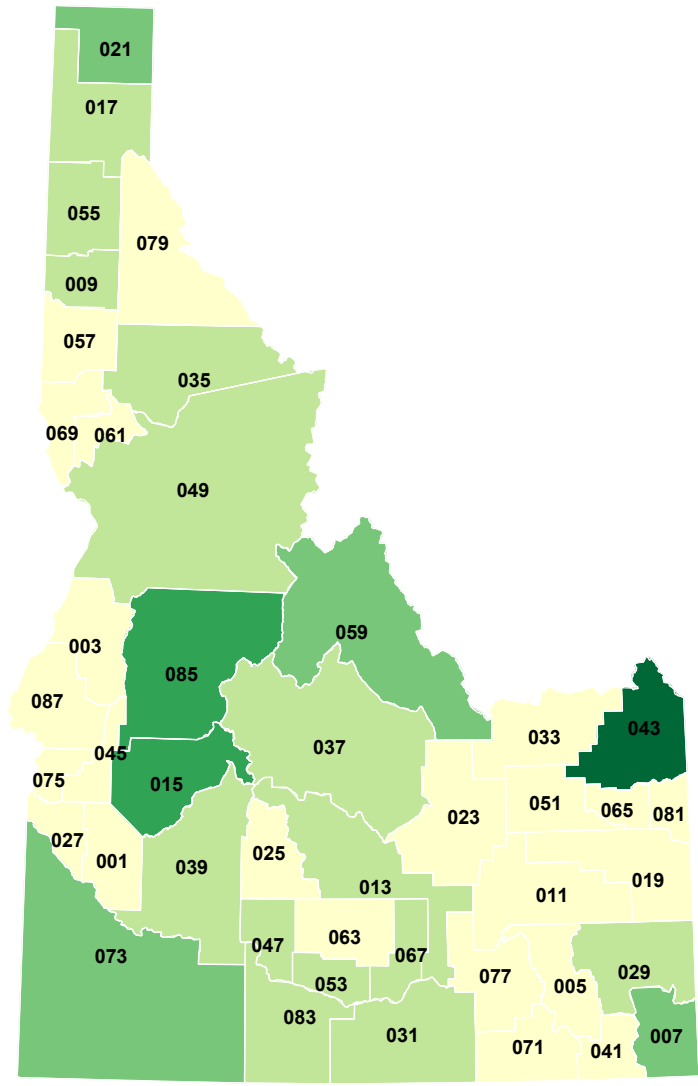

Crude Incidence Rates - Calculated from Injury ZIP Code

Drowning/submersion

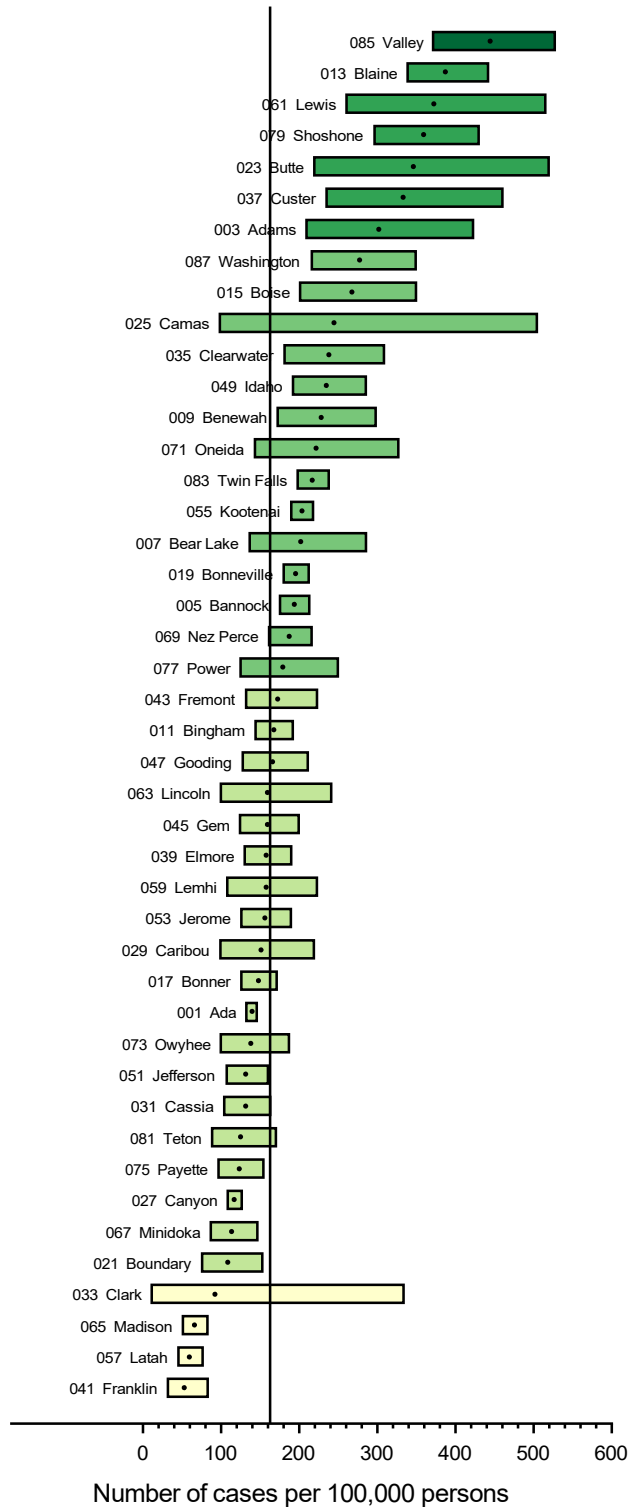

Males

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 162.7

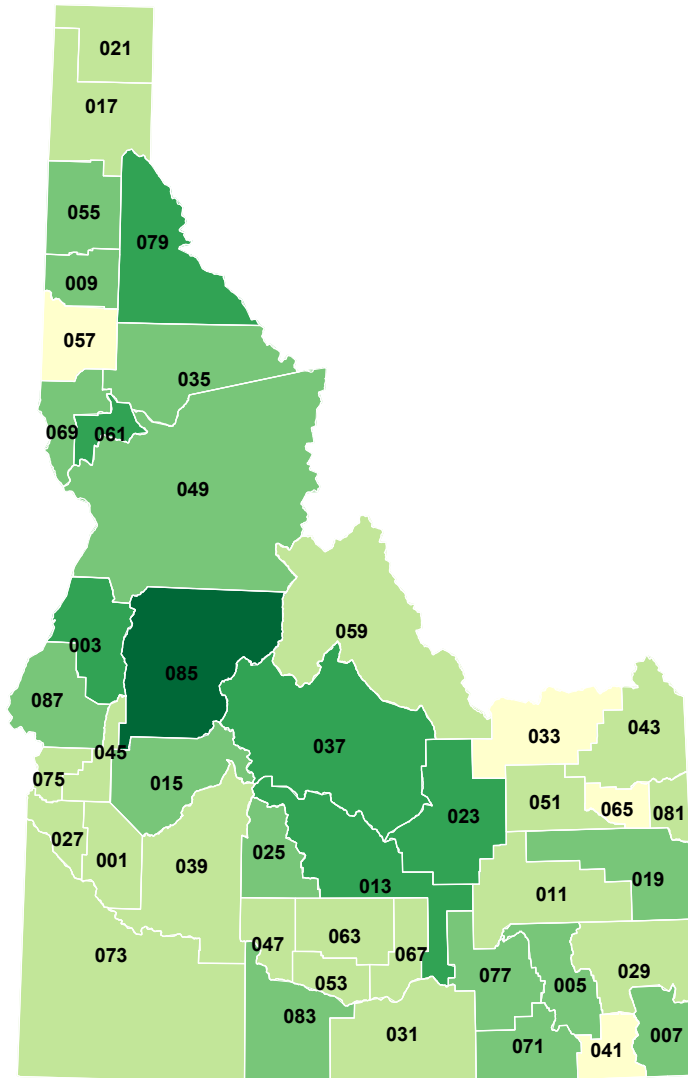

Crude Incidence Rates - Calculated from Injury ZIP Code

Fall

Males

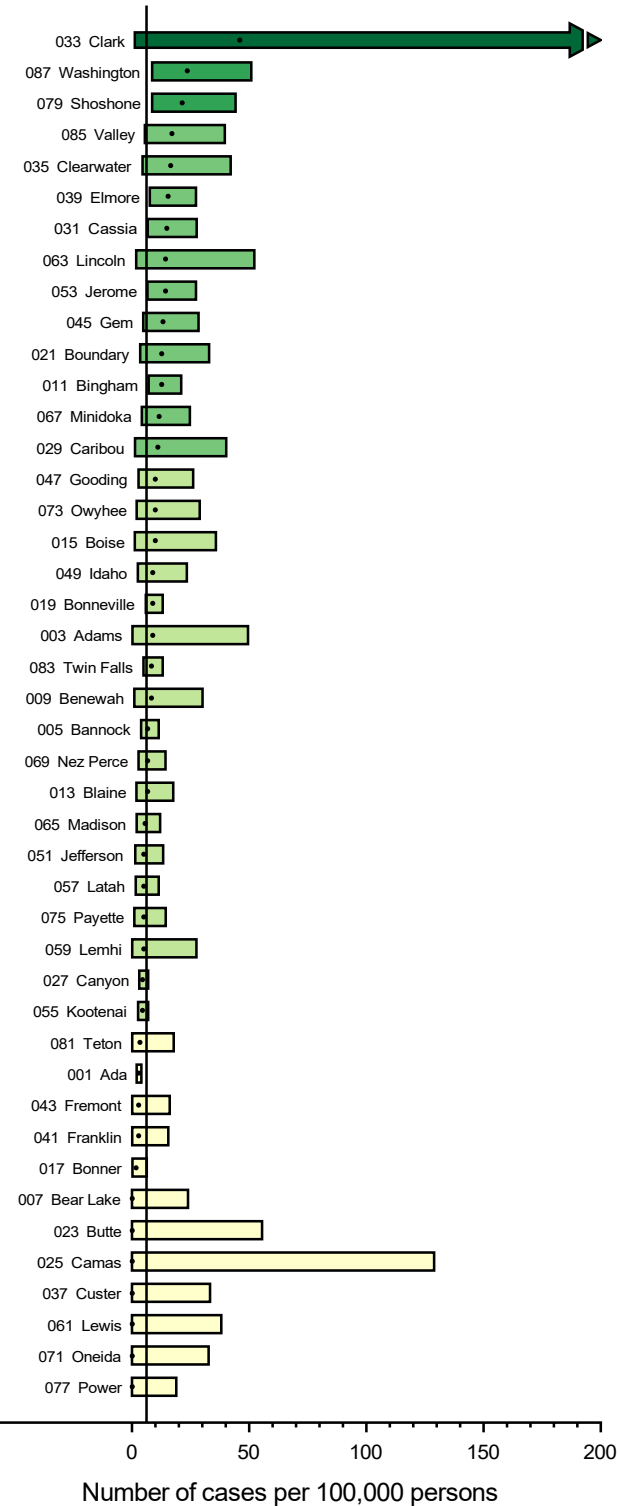

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 6.2

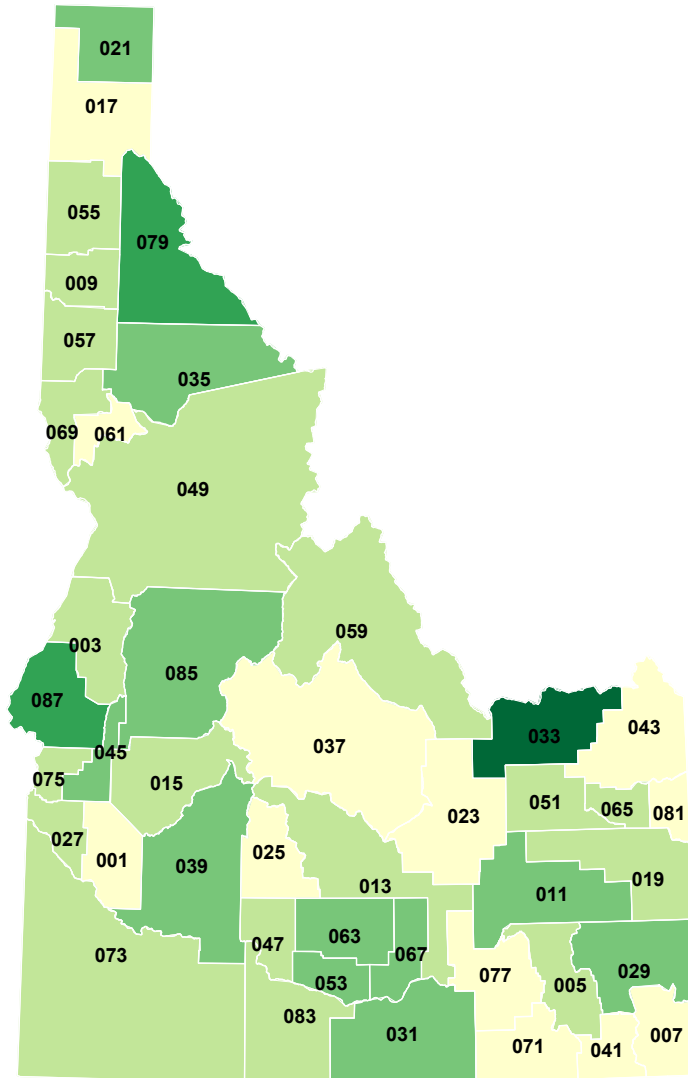

Crude Incidence Rates - Calculated from Injury ZIP Code

Fire/burn

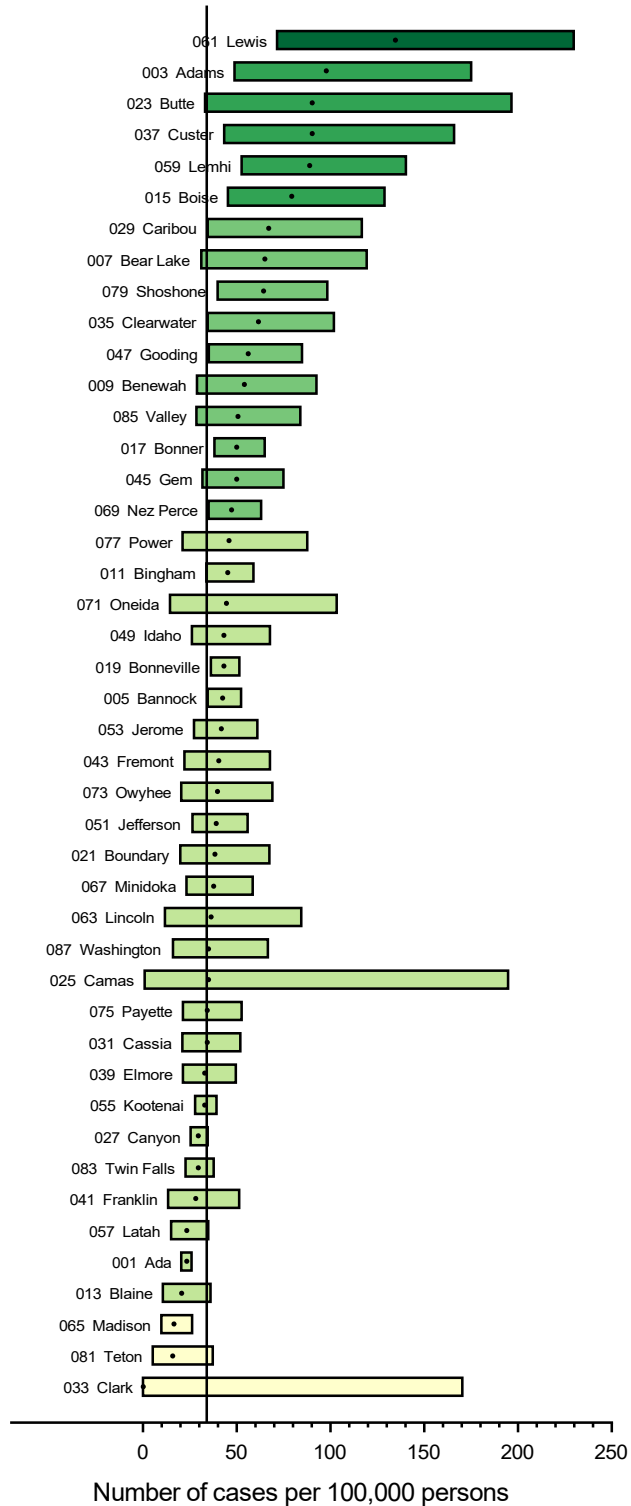

Males

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 34.0

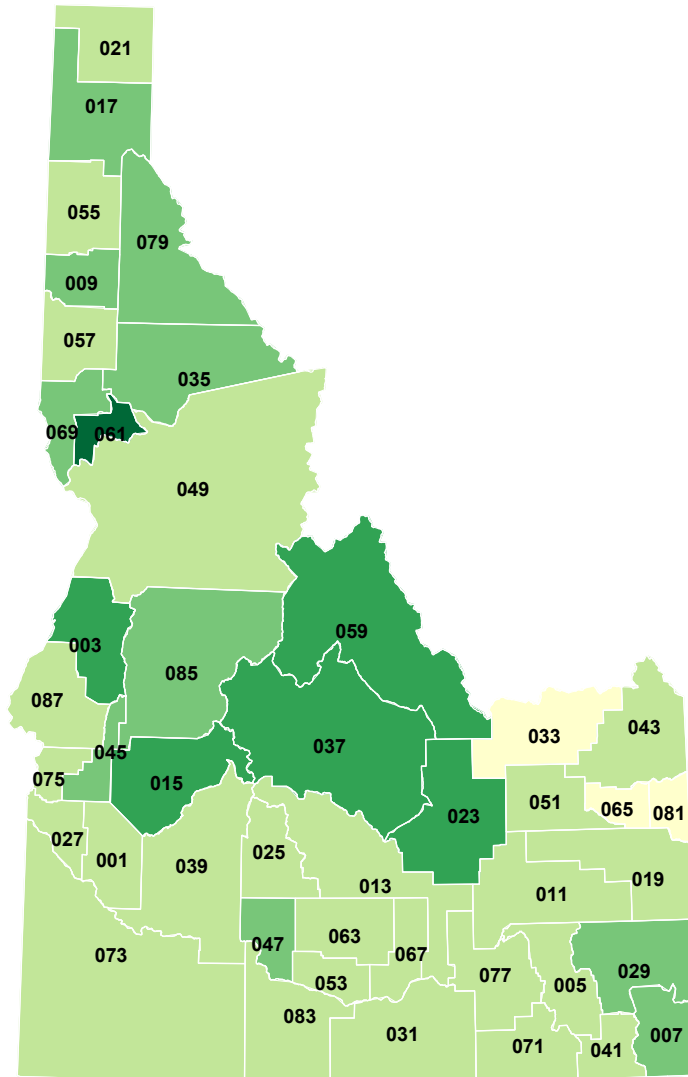

Crude Incidence Rates - Calculated from Injury ZIP Code

Firearm

Males

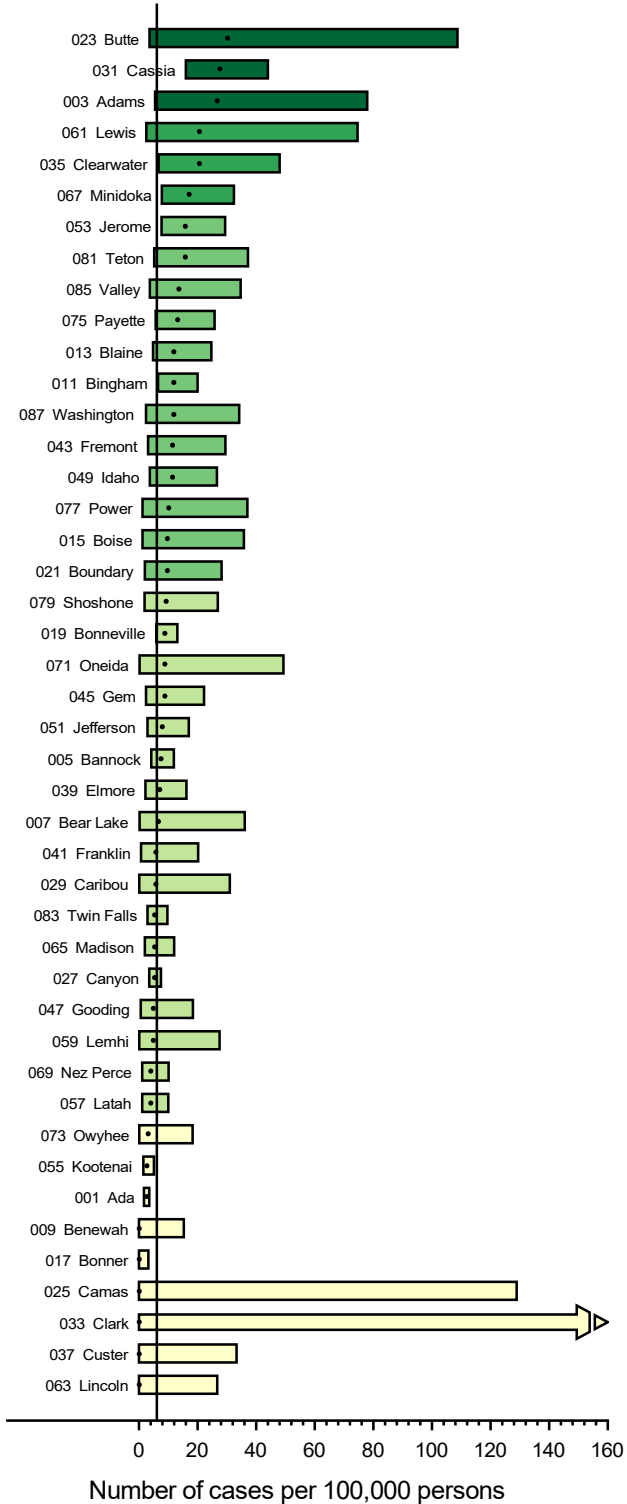

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 6.1

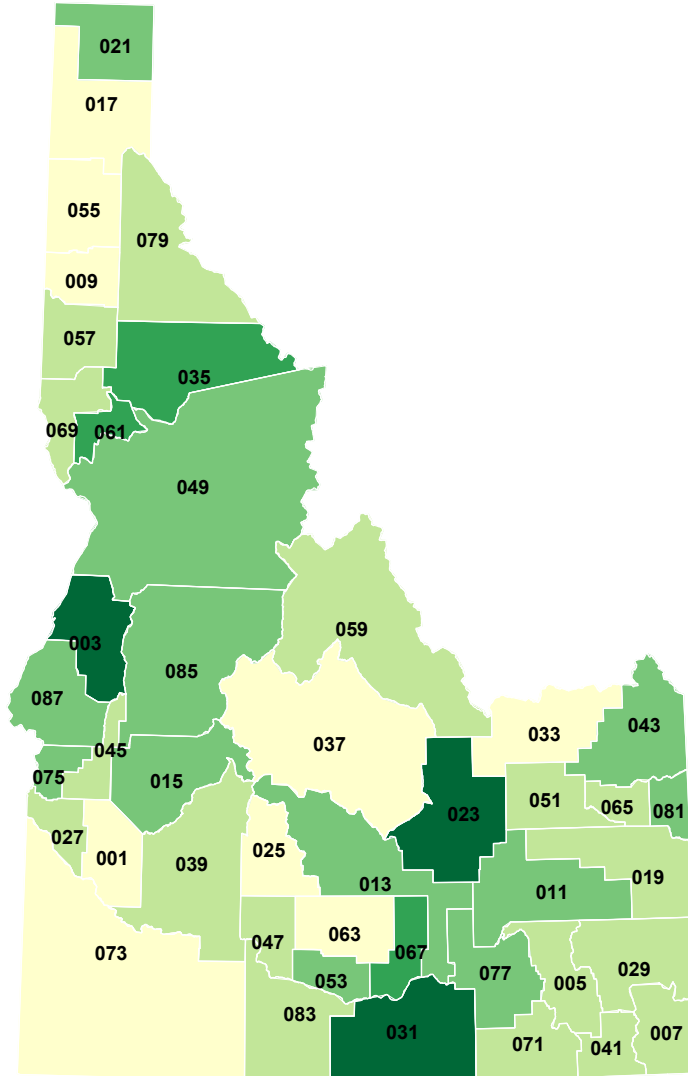

Crude Incidence Rates - Calculated from Injury ZIP Code

Machinery

Males

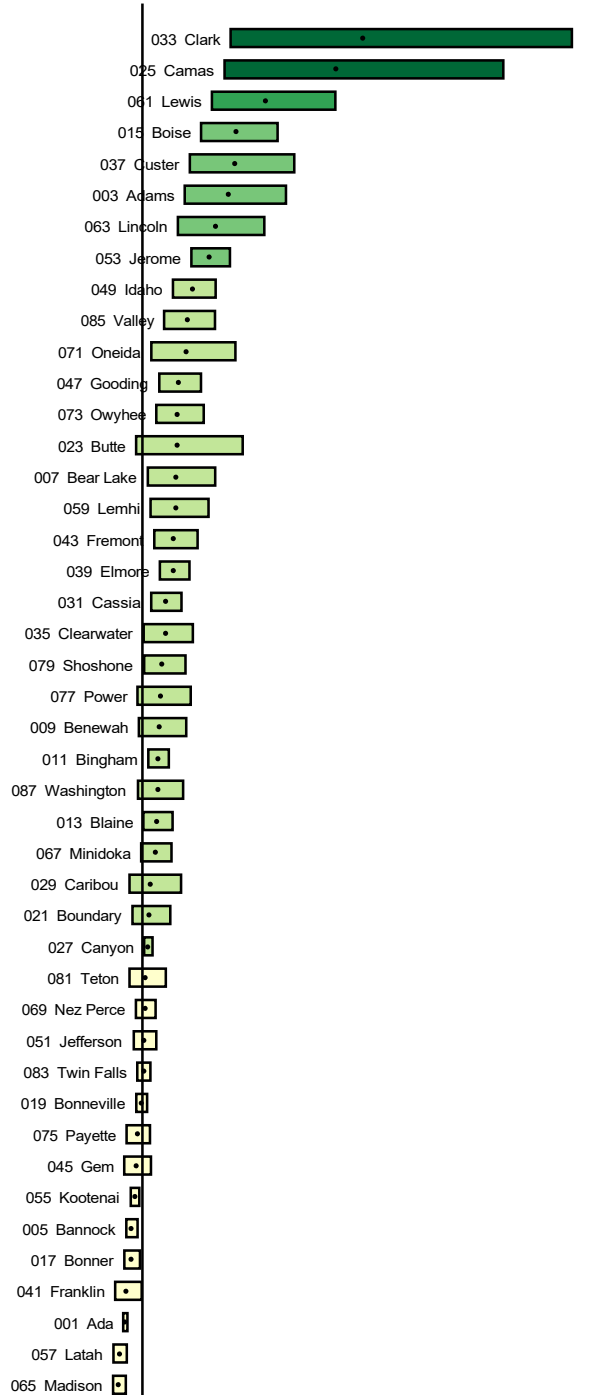

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 84.2

20 120 220 320 420 520 620 720 820 920

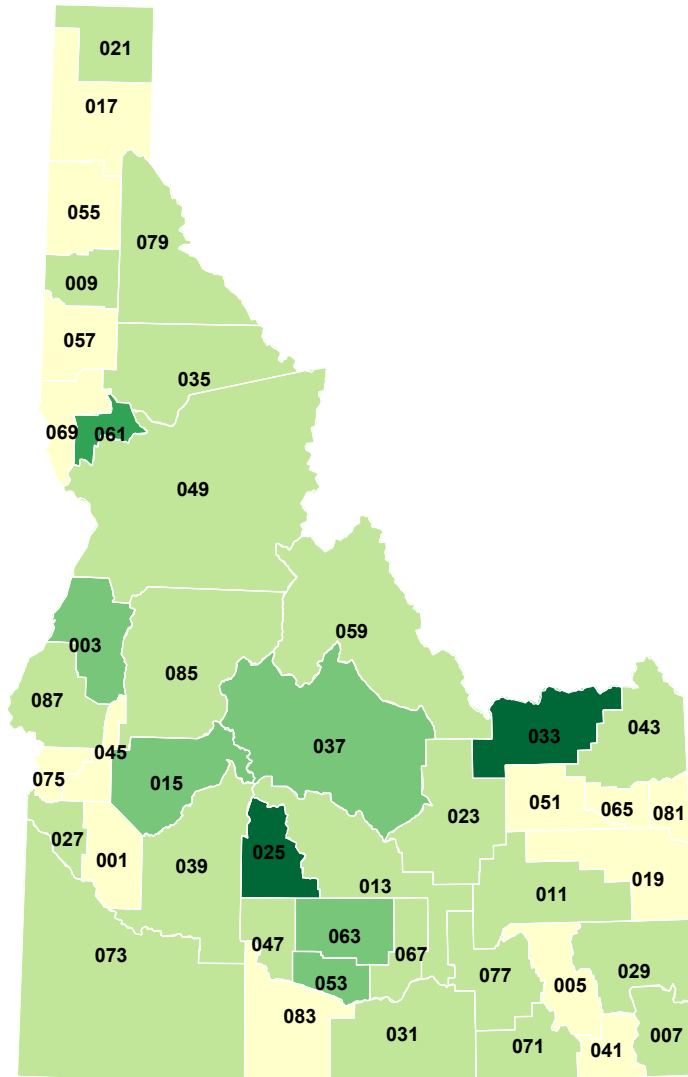

Number of cases per 100,000 persons

Crude Incidence Rates - Calculated from Injury ZIP Code

Motor vehicle traffic

Males

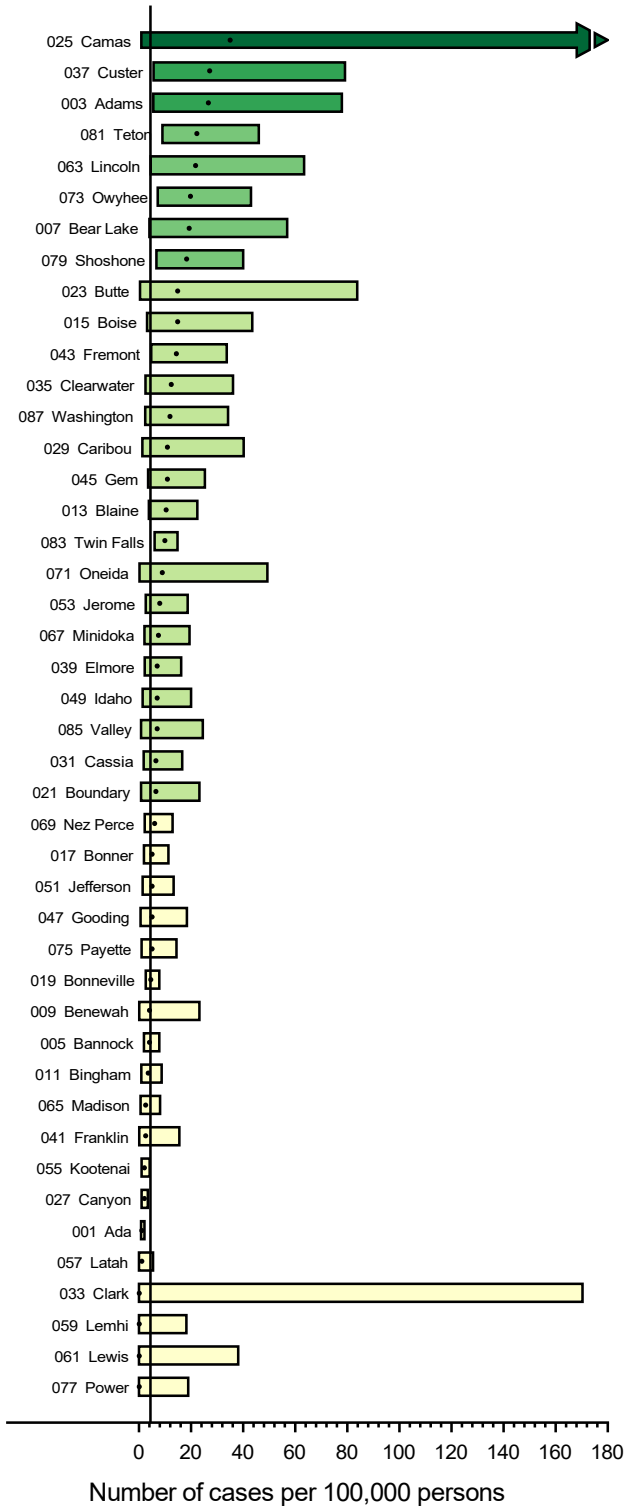

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 4.4

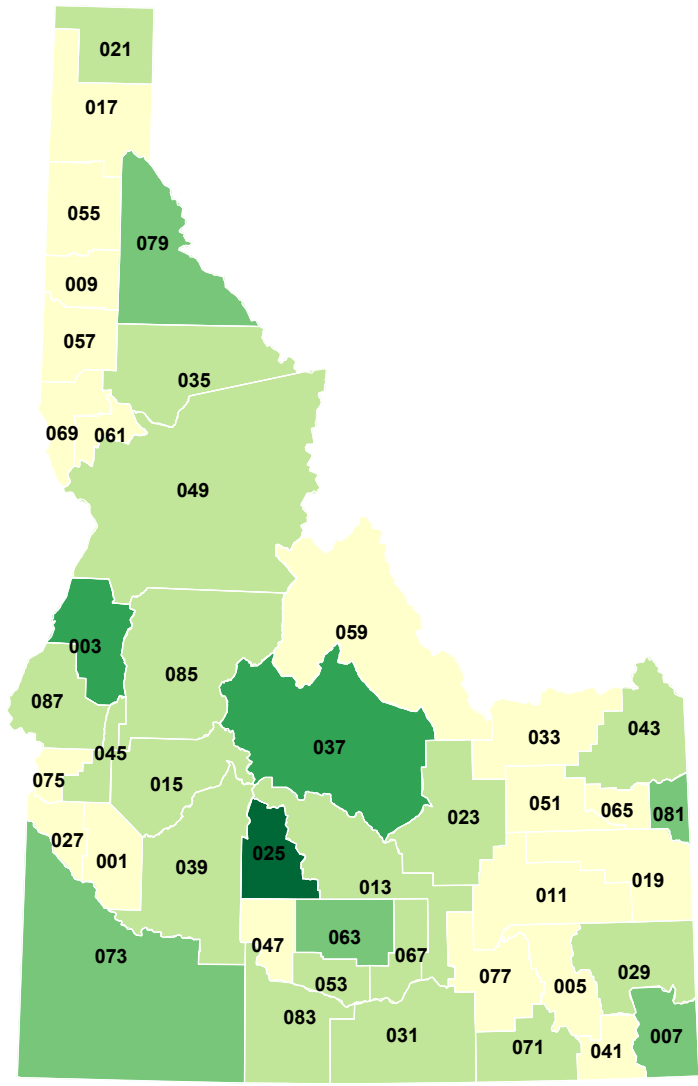

Crude Incidence Rates - Calculated from Injury ZIP Code

Natural/environmental

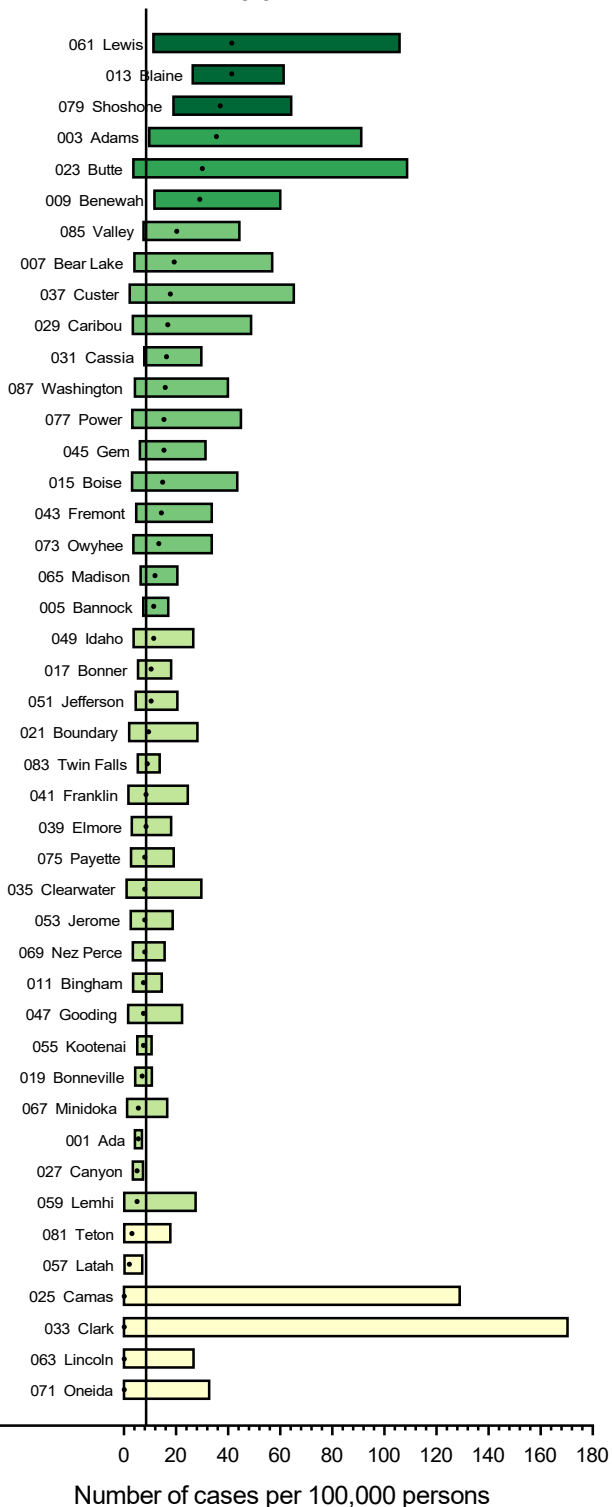

Males

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 8.5

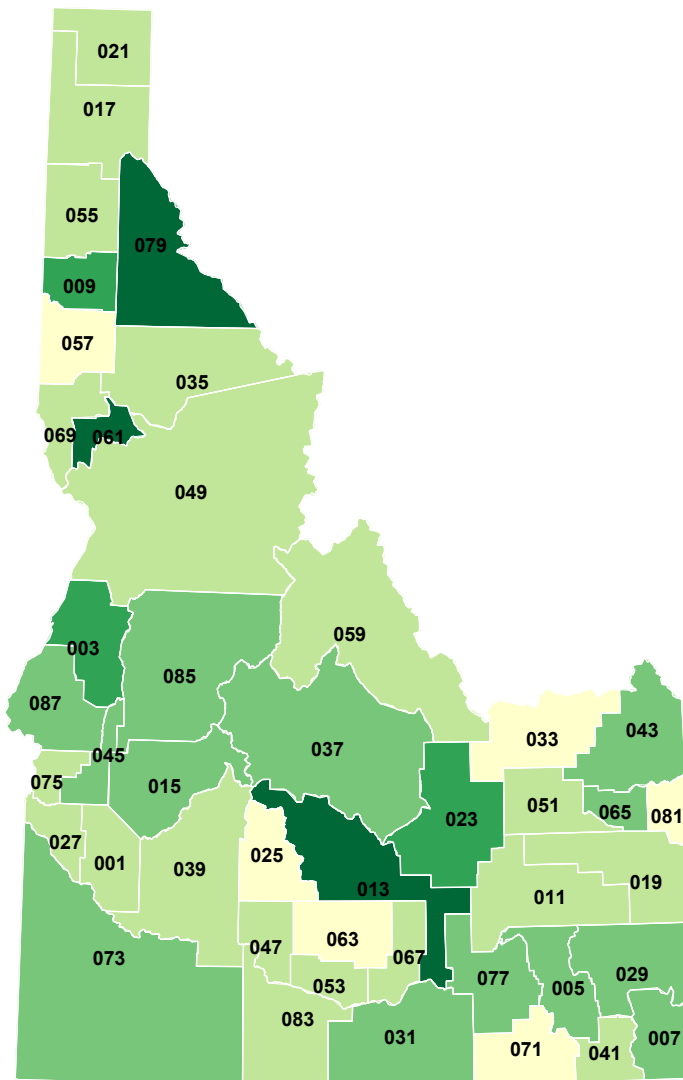

Crude Incidence Rates - Calculated from Injury ZIP Code

Other Specified

Males

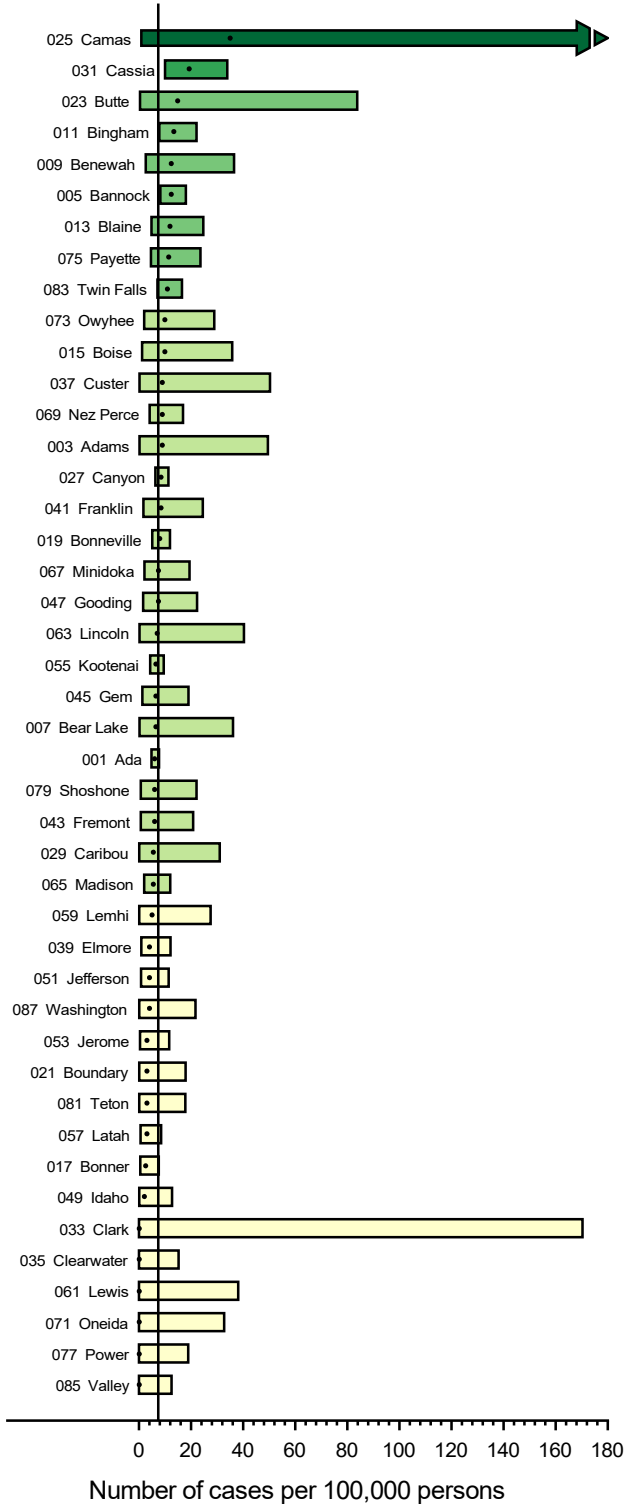

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 7.4

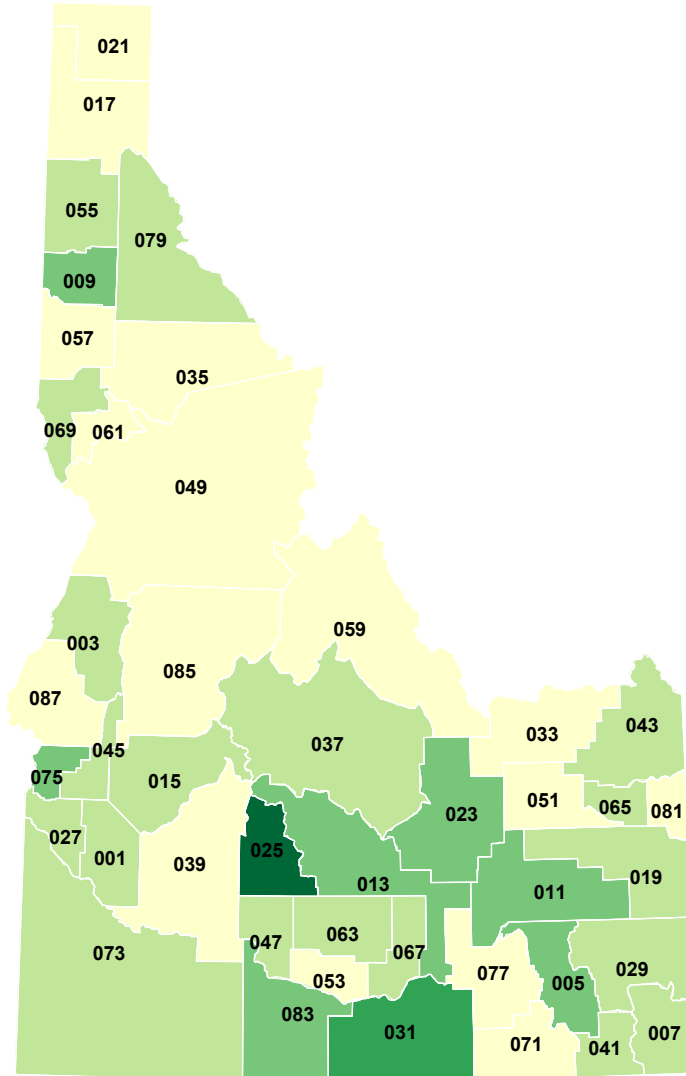

Crude Incidence Rates - Calculated from Injury ZIP Code

Suffocation

Males

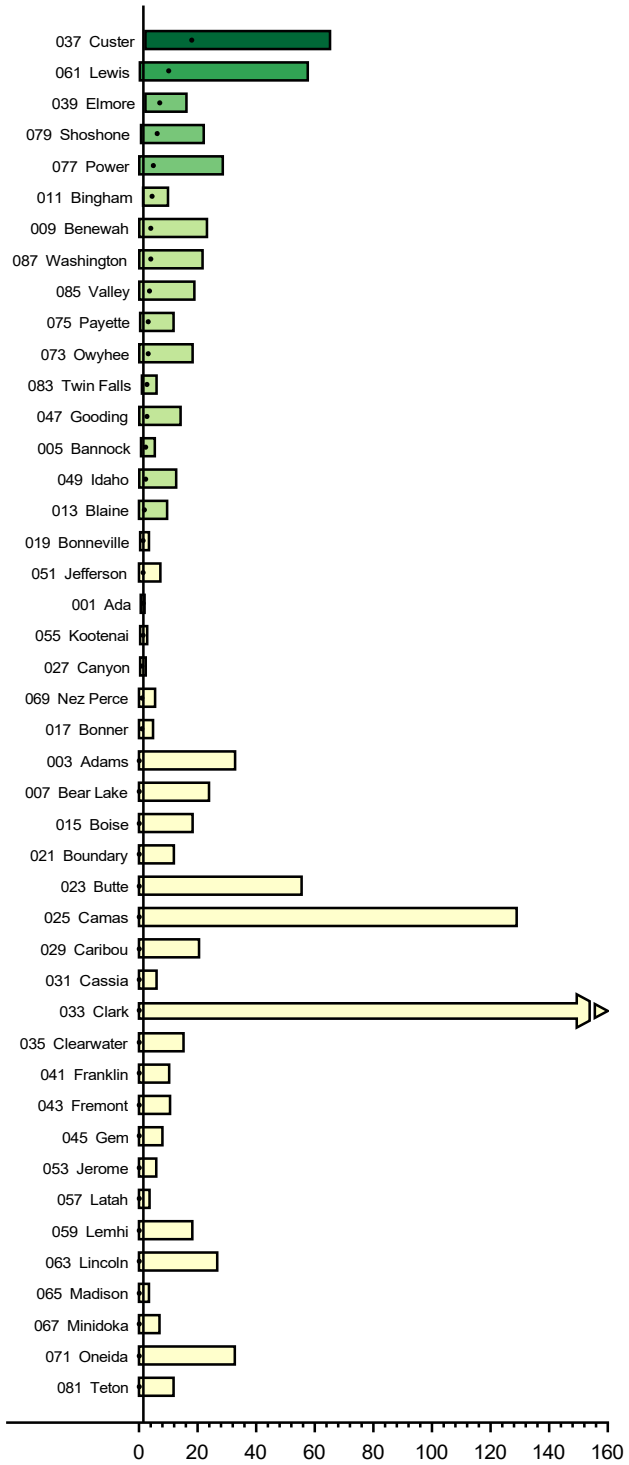

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 1.5

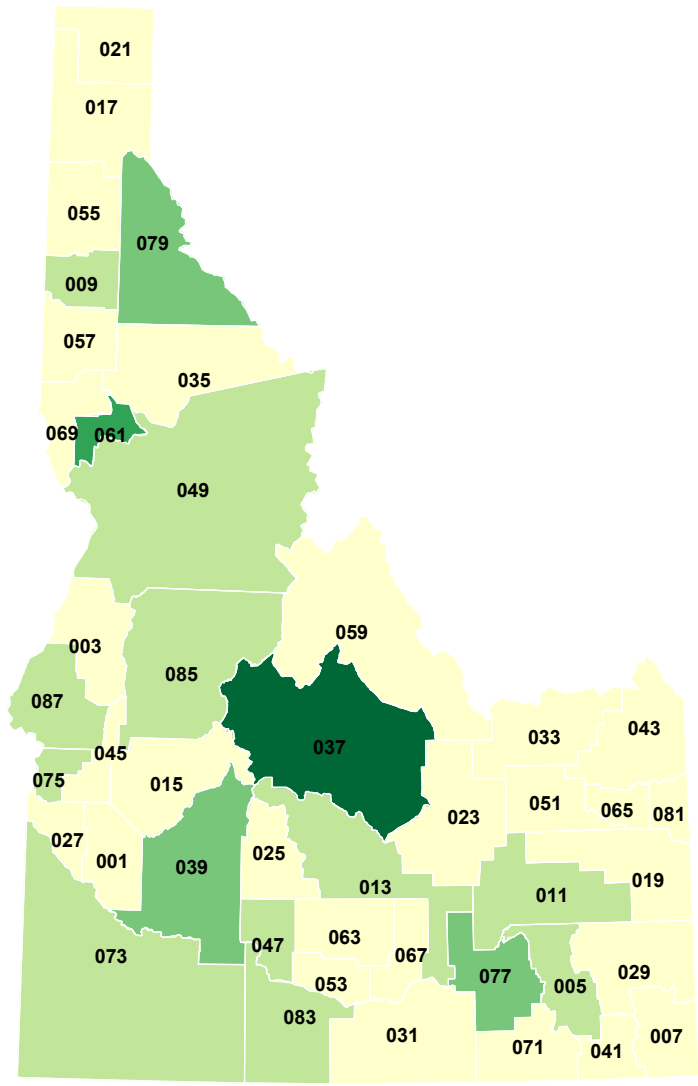

Crude Incidence Rates - Calculated from Injury ZIP Code

Unspecified

Males

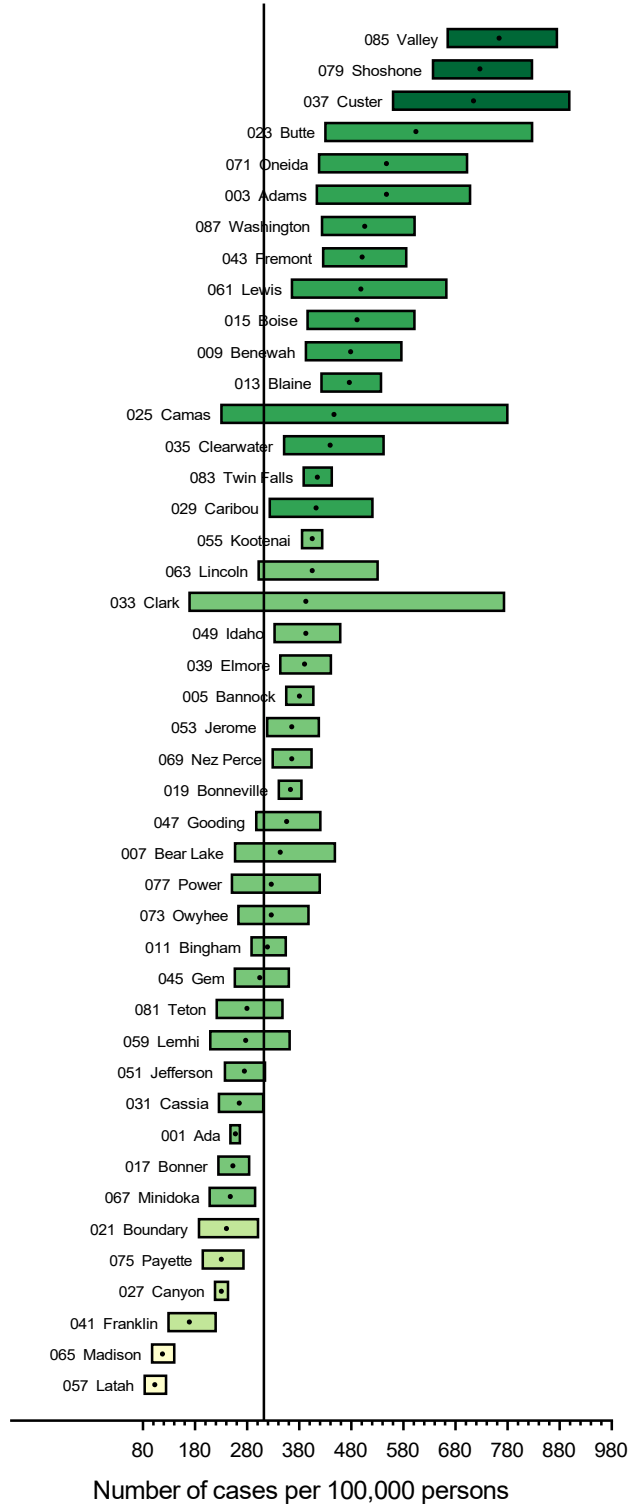

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

Female Patients (Idaho and non-Idaho Residents)

State of Idaho Rate: 312.1

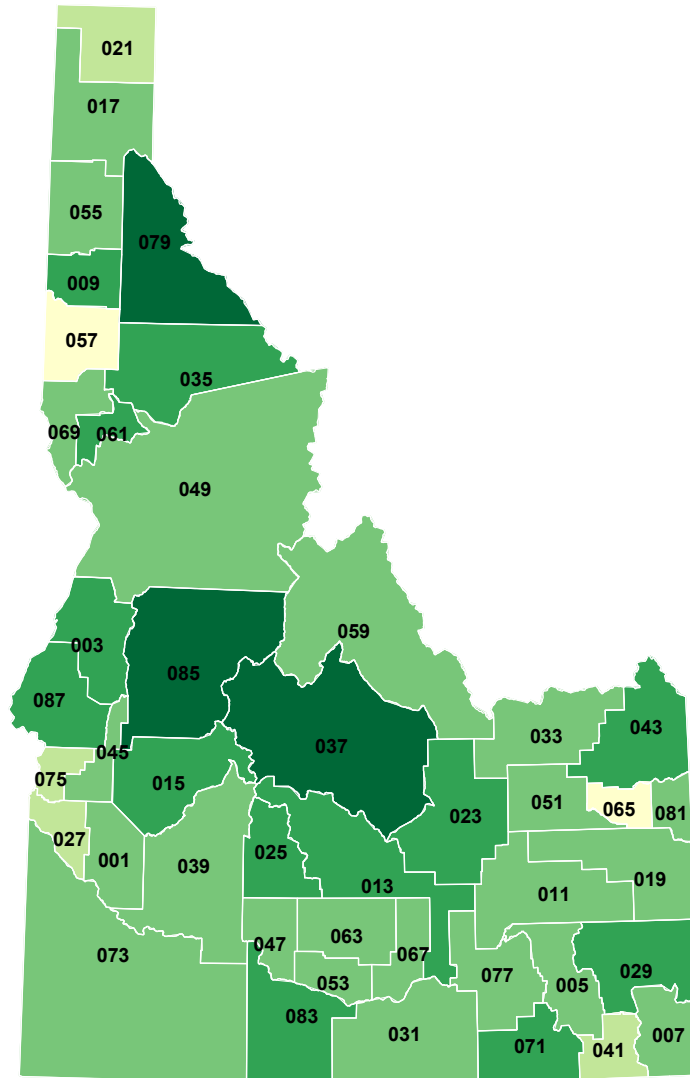

Crude Incidence Rates - Calculated from Injury ZIP Code

All causes (known and unknown)

Females

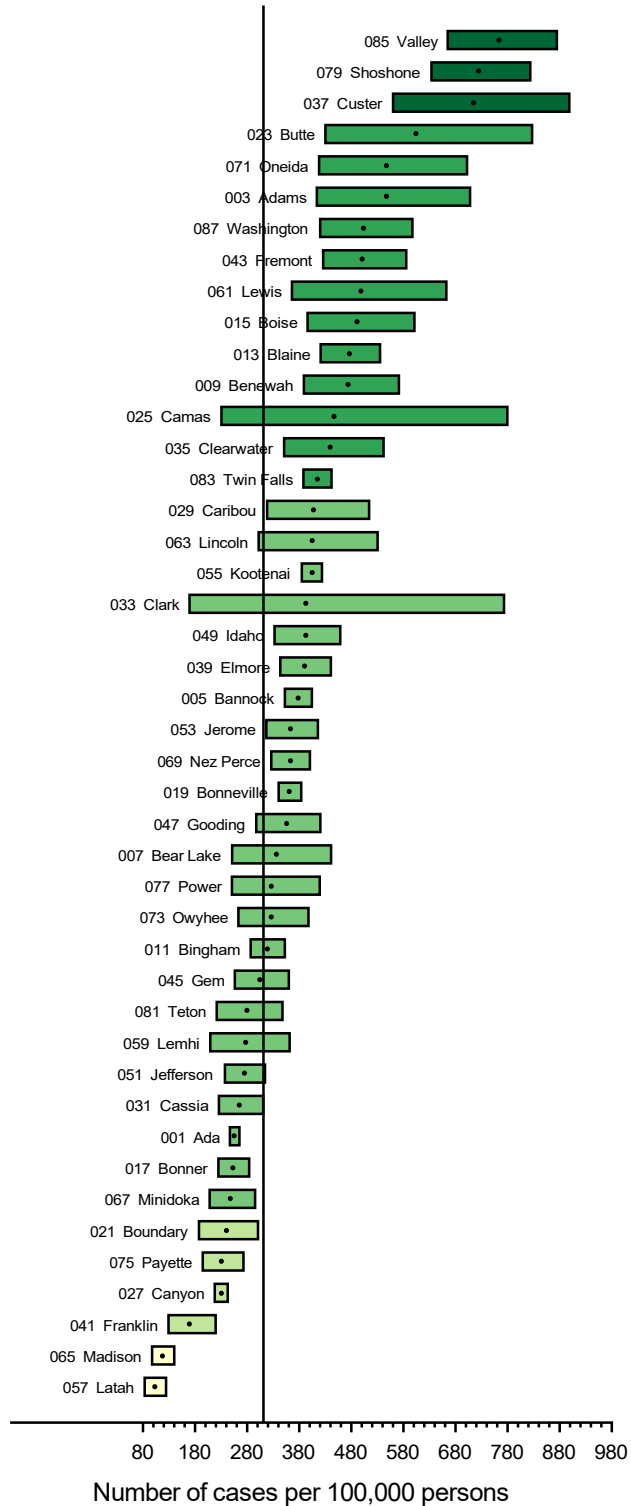

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 311.3

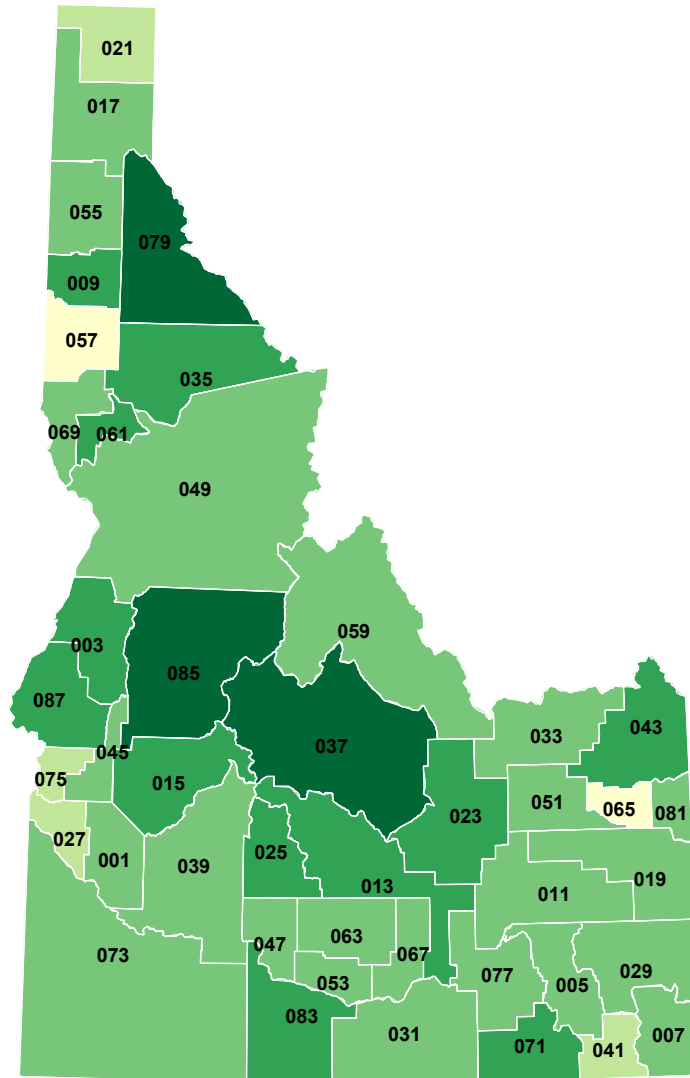

Crude Incidence Rates - Calculated from Injury ZIP Code

Total with known cause

Females

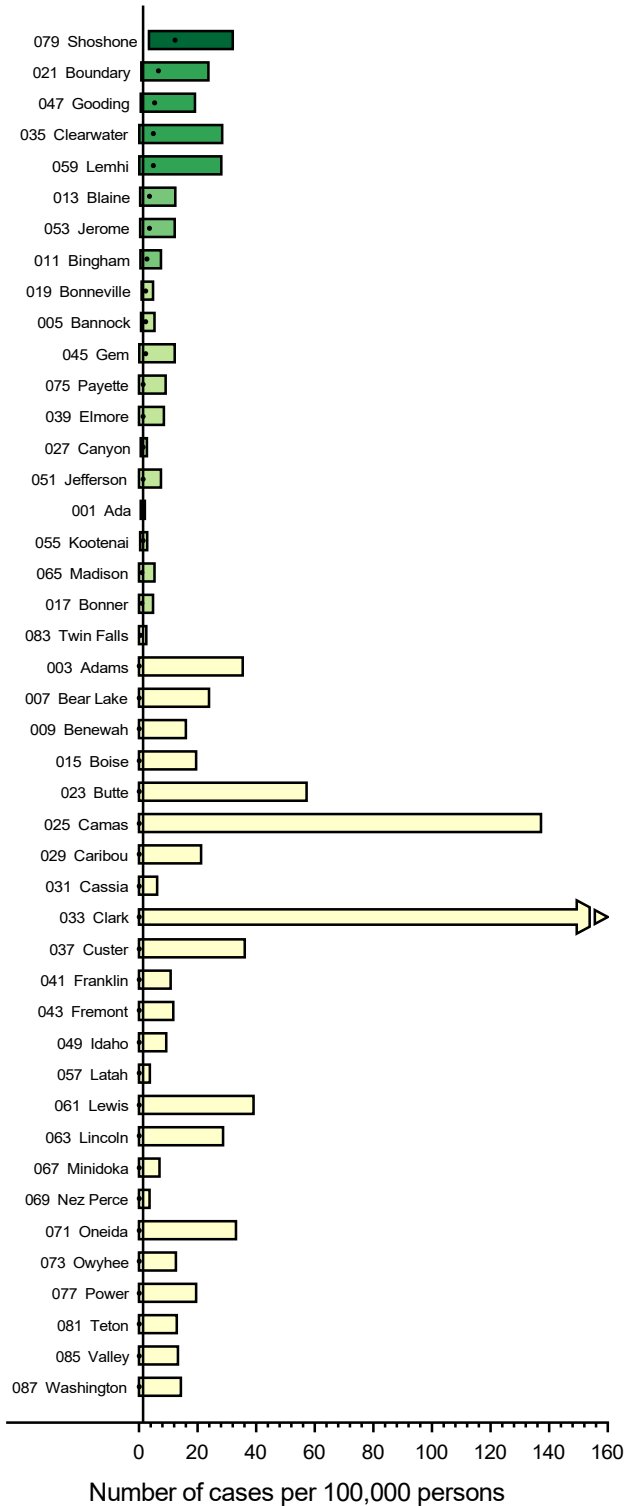

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 1.4

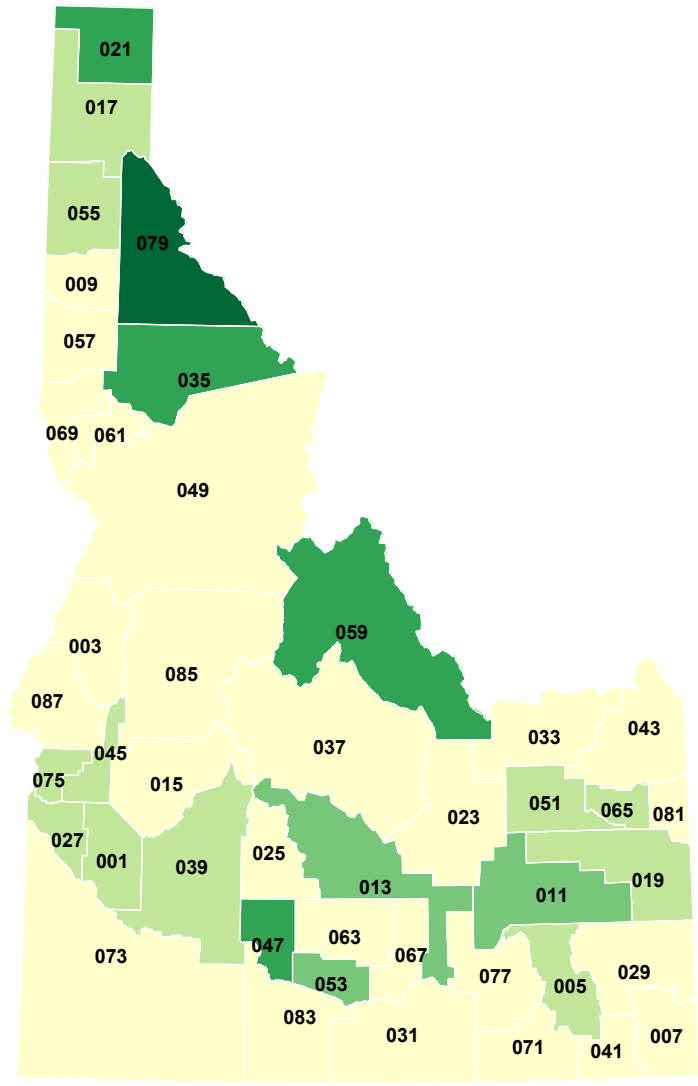

Crude Incidence Rates - Calculated from Injury ZIP Code

Bites and Stings

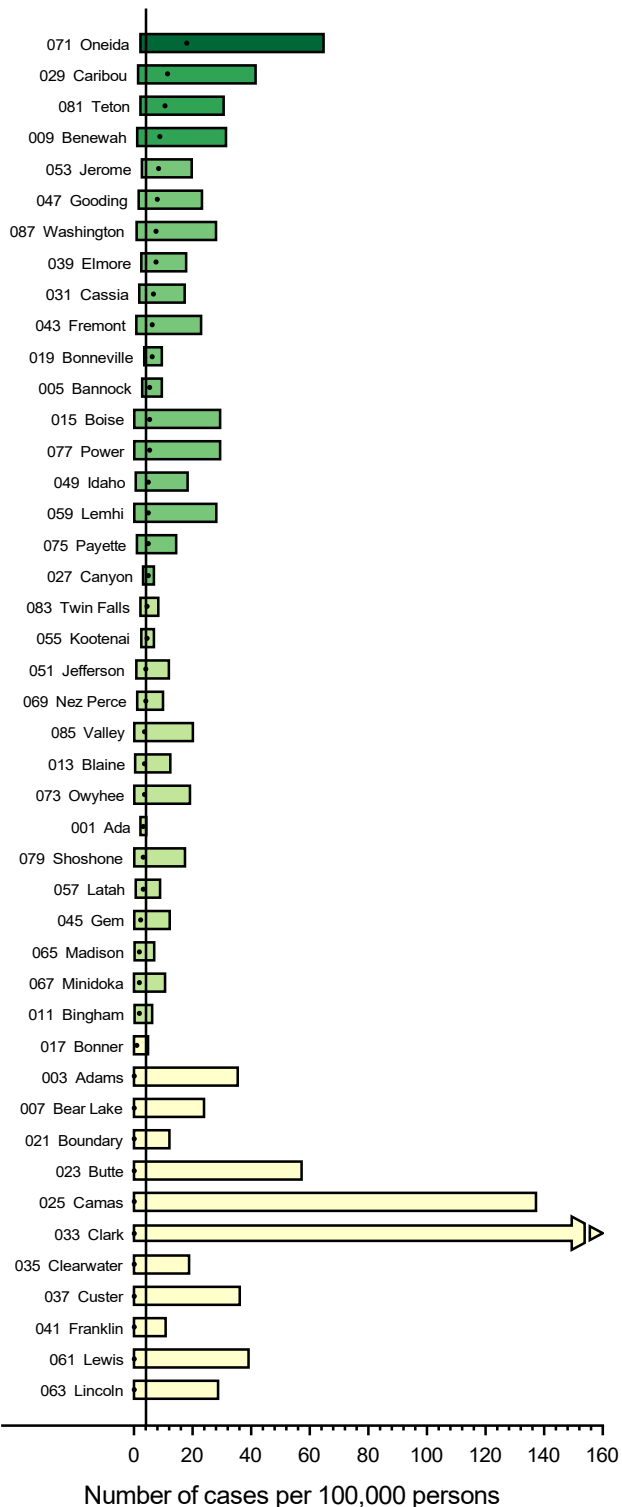

Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 4.1

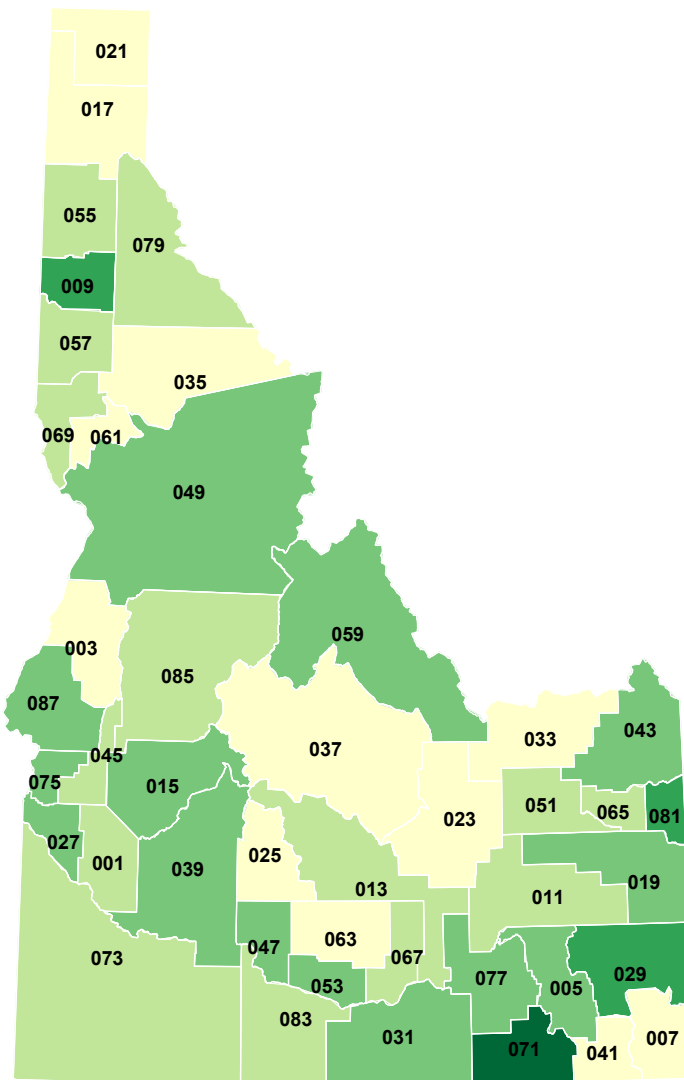

Crude Incidence Rates - Calculated from Injury ZIP Code

Cut/pierce

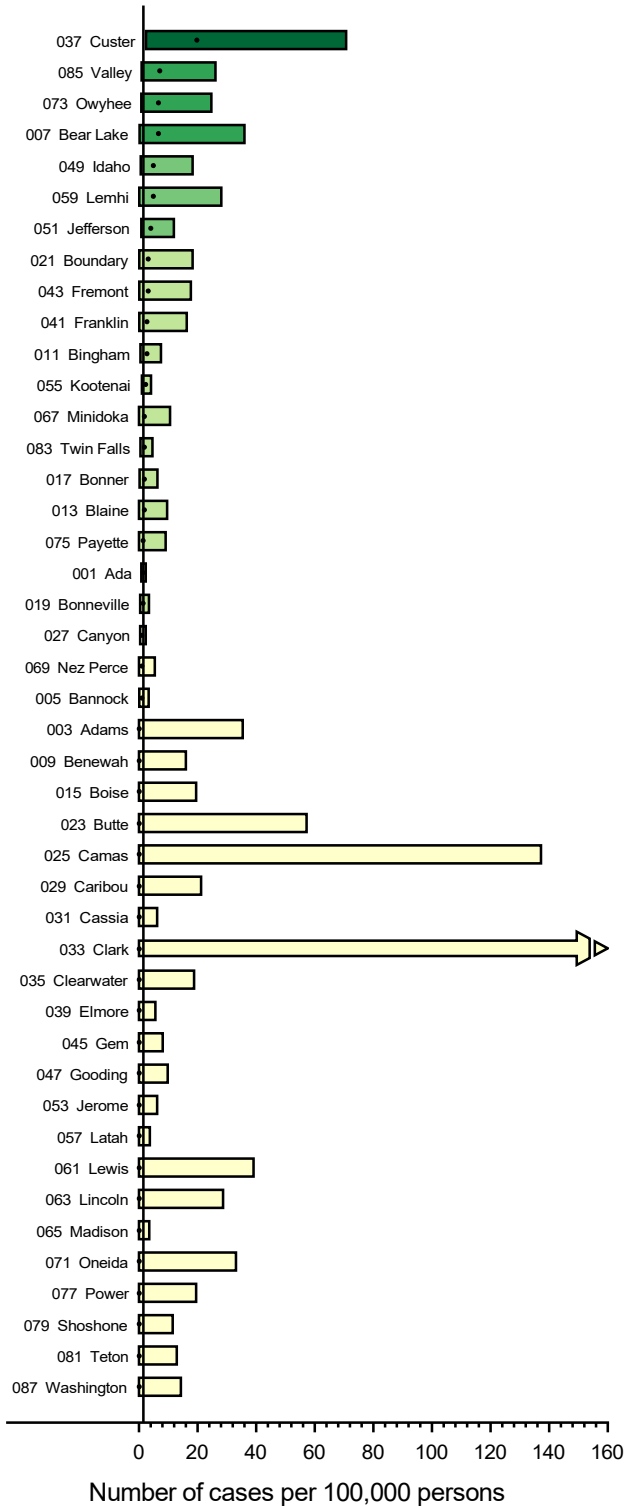

Females

State of Idaho, by County, 2017-2021

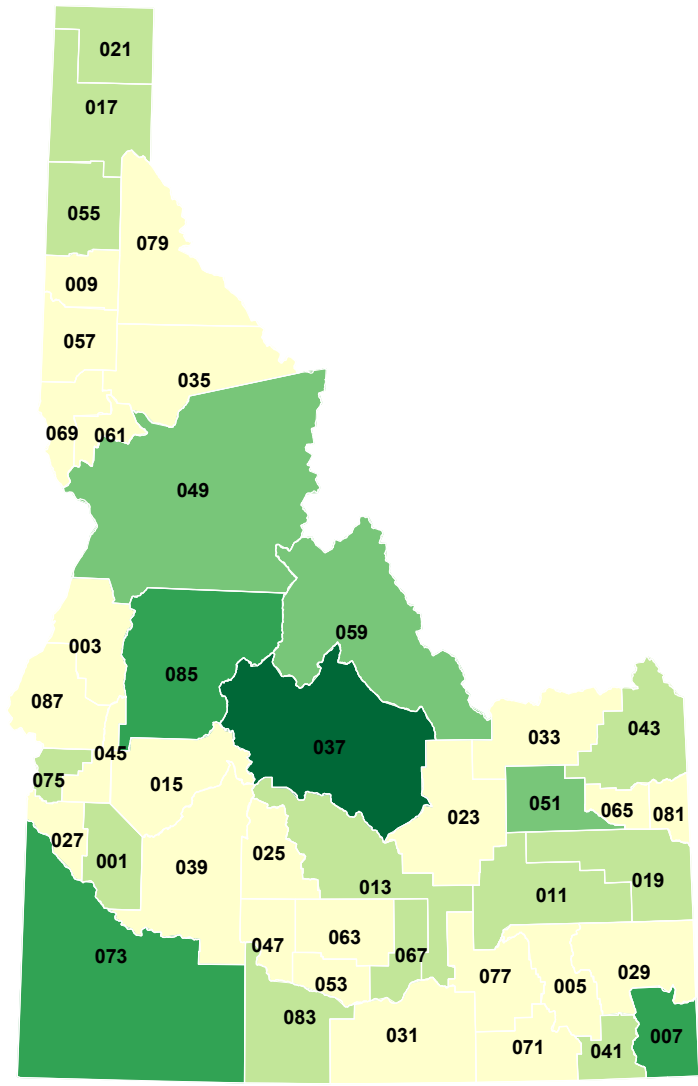

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 1.5

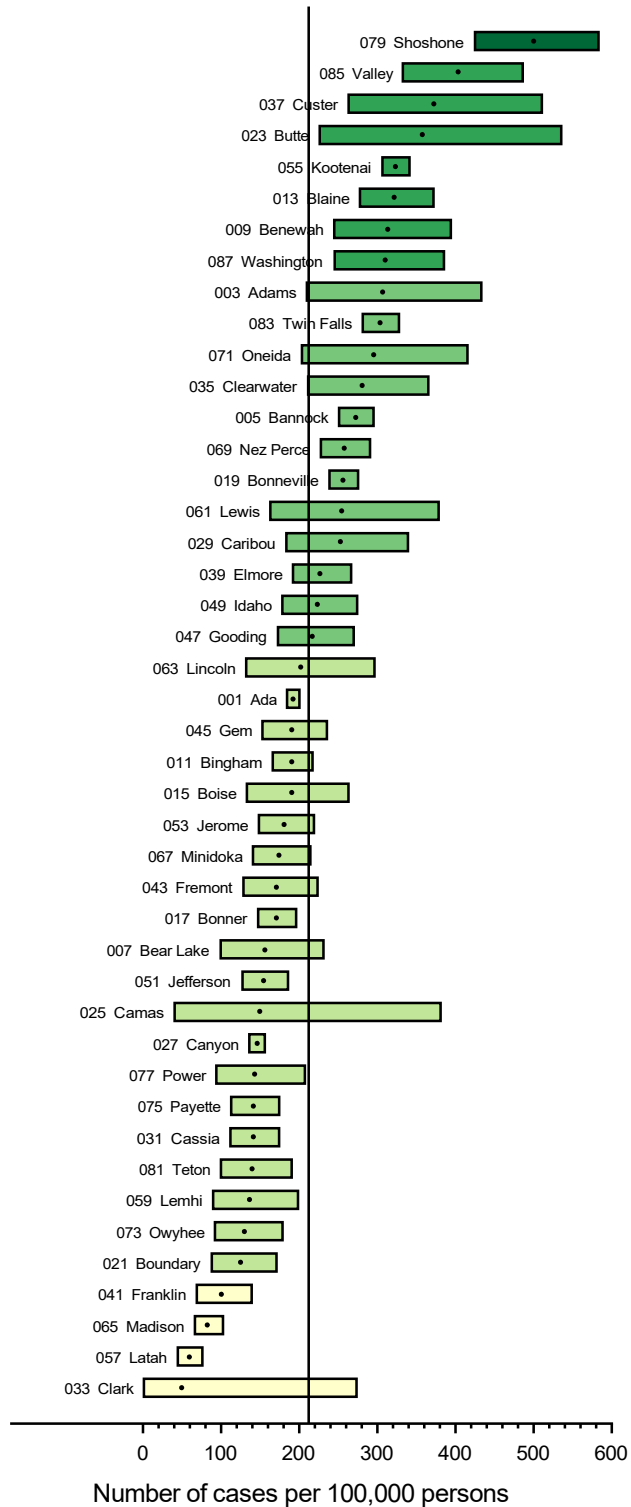

Crude Incidence Rates - Calculated from Injury ZIP Code
Drowning/submersion
Females
State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 212.1

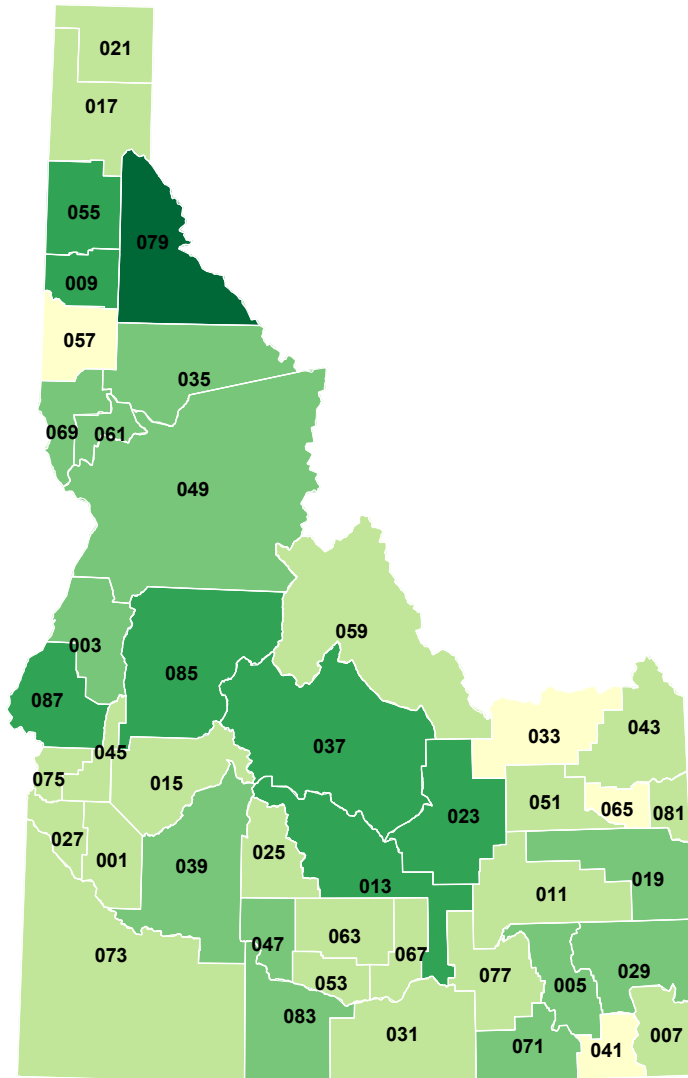

Crude Incidence Rates - Calculated from Injury ZIP Code

Fall

Females

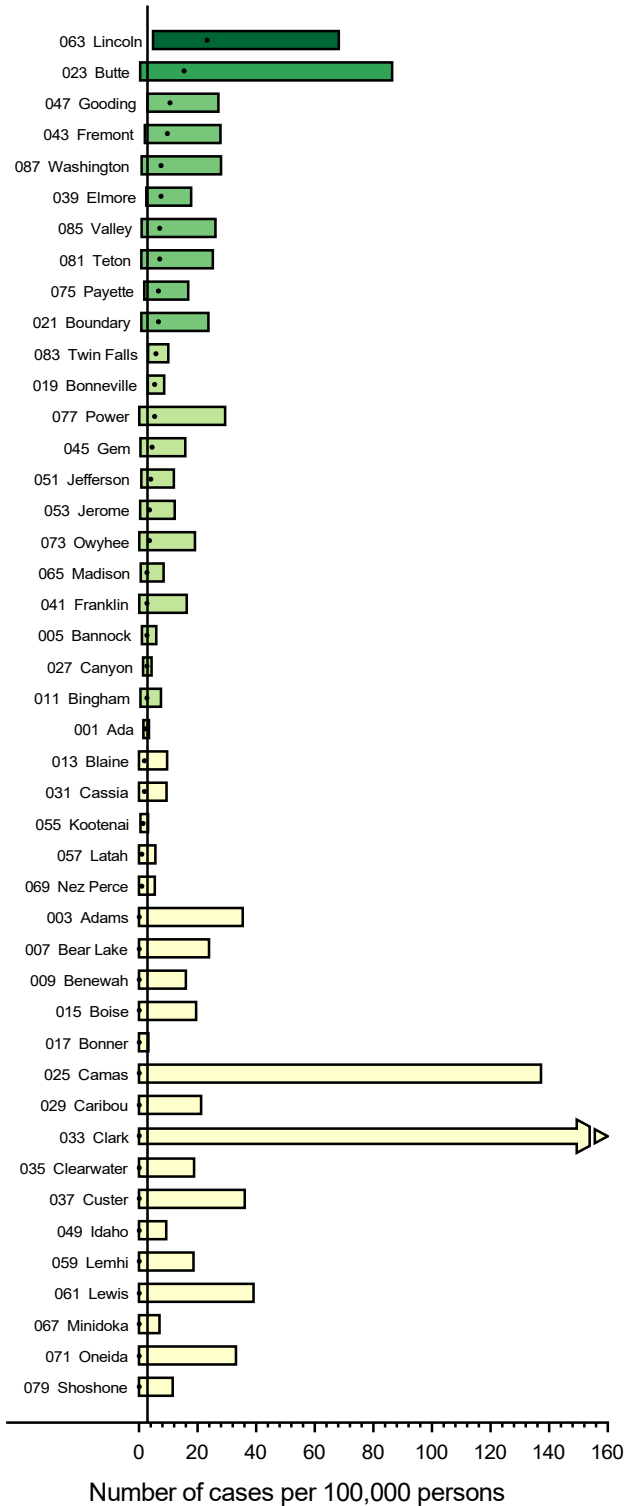

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals.

State of Idaho Rate: 2.9

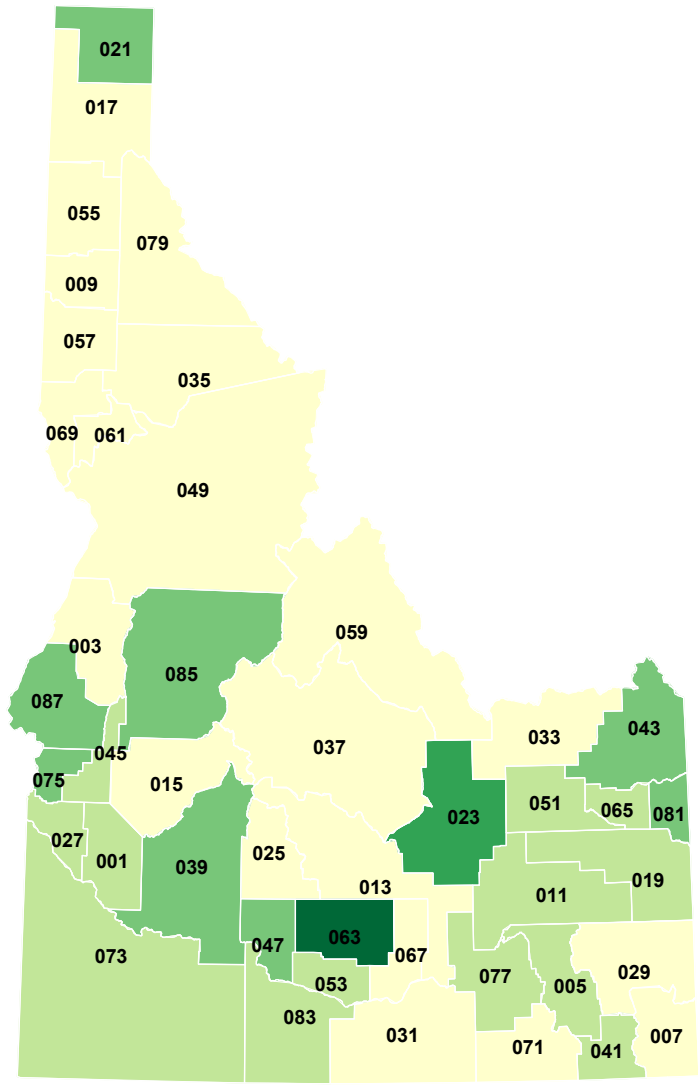

Crude Incidence Rates - Calculated from Injury ZIP Code

Fire/burn

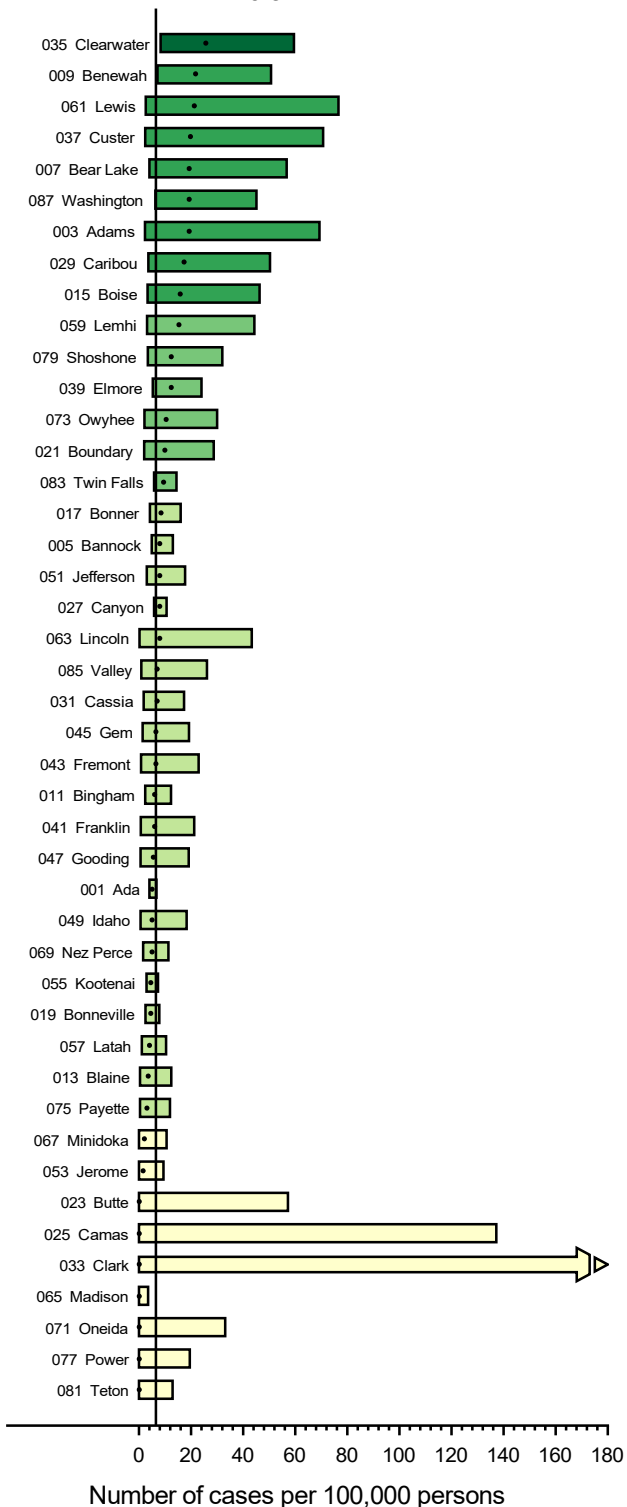

Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 6.5

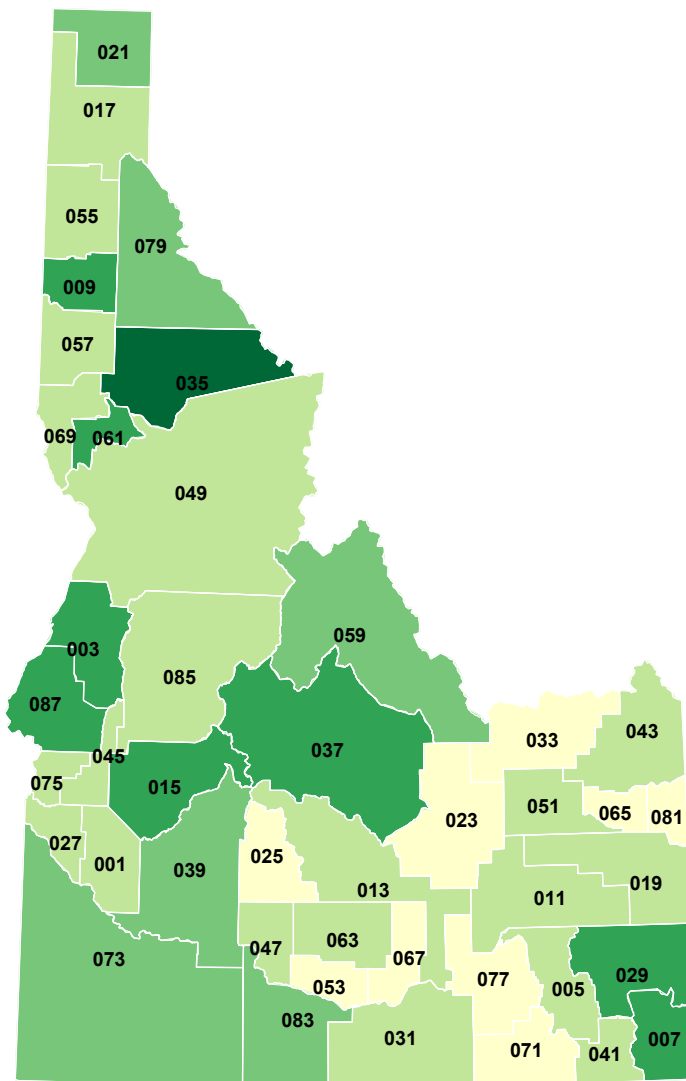

Crude Incidence Rates - Calculated from Injury ZIP Code

Firearm

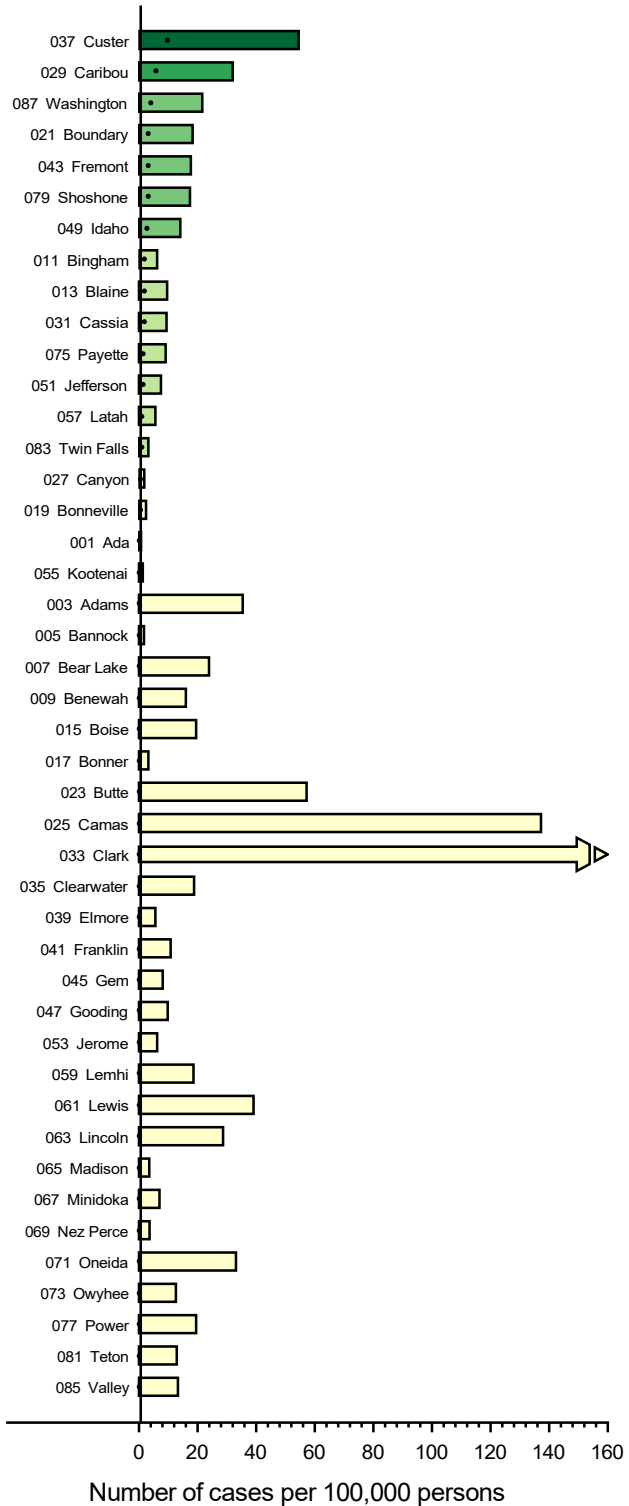

Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 0.6

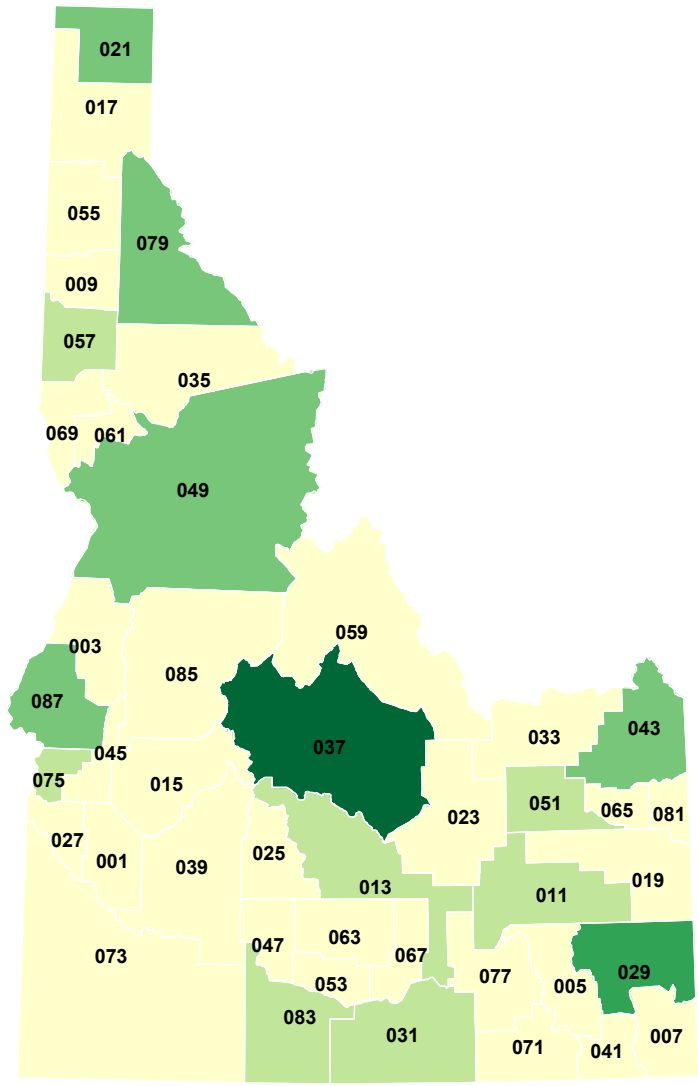

Crude Incidence Rates - Calculated from Injury ZIP Code

Machinery

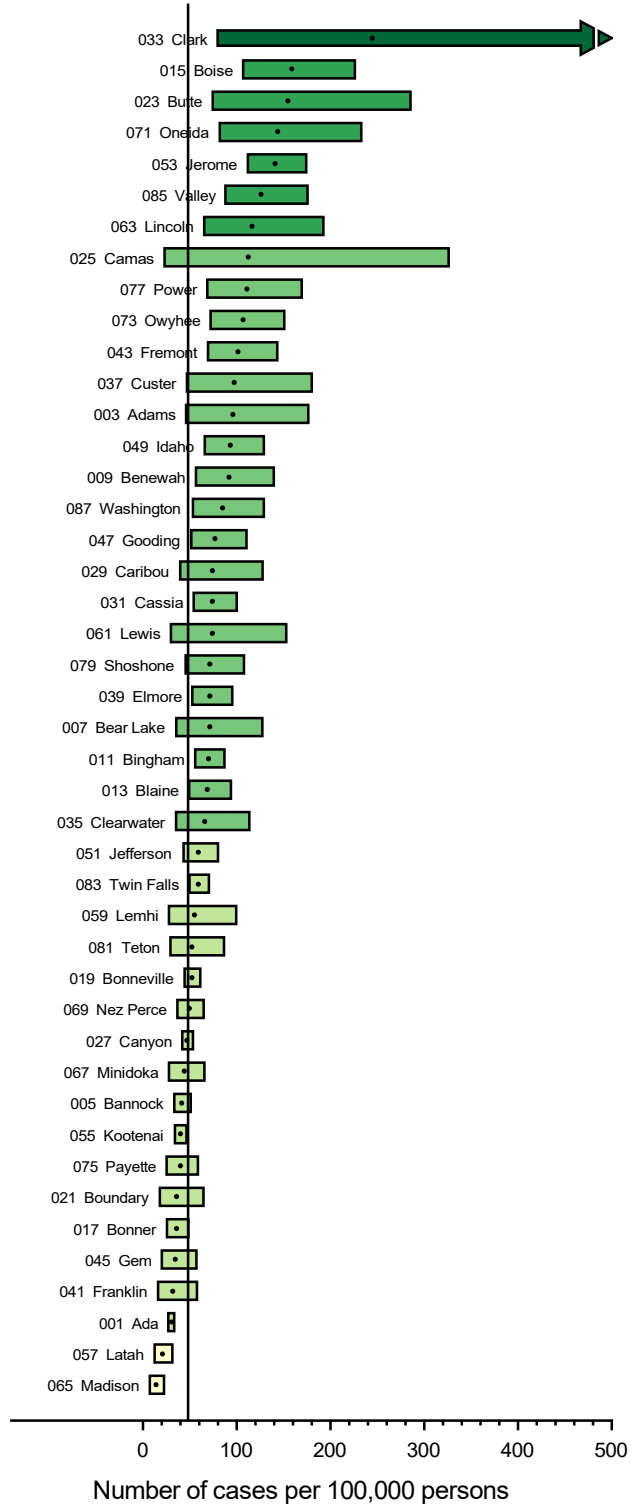

Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 48.1

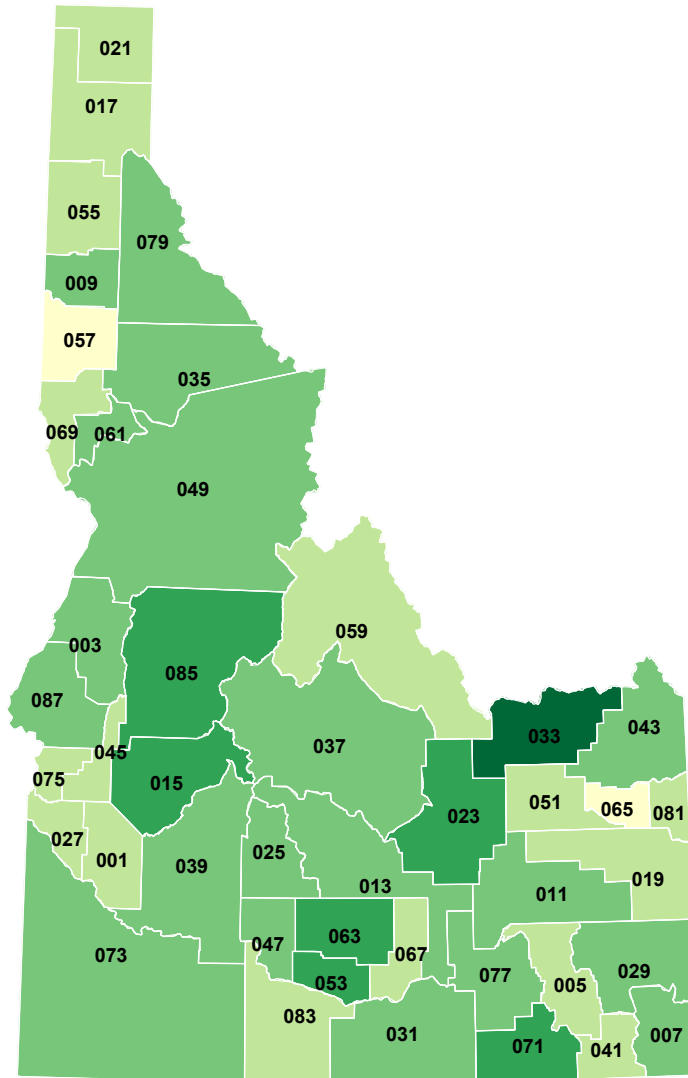

Crude Incidence Rates - Calculated from Injury ZIP Code

Motor vehicle traffic

Females

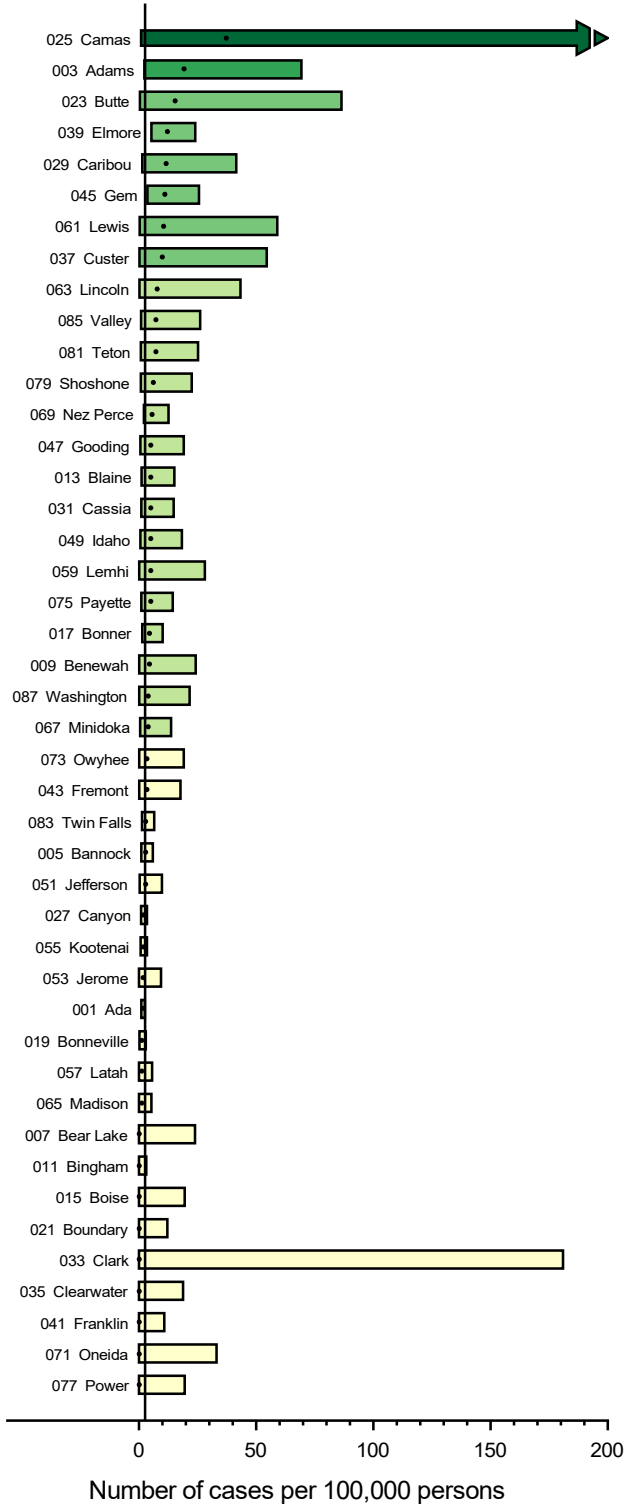

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 2.6

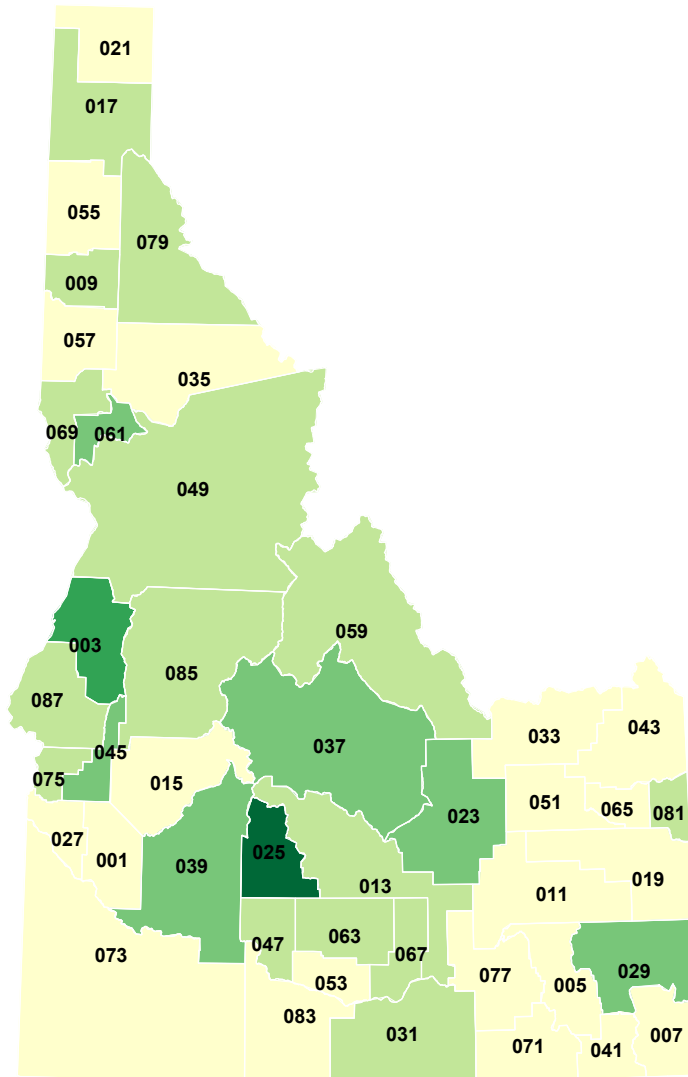

Crude Incidence Rates - Calculated from Injury ZIP Code

Natural/environmental

Females

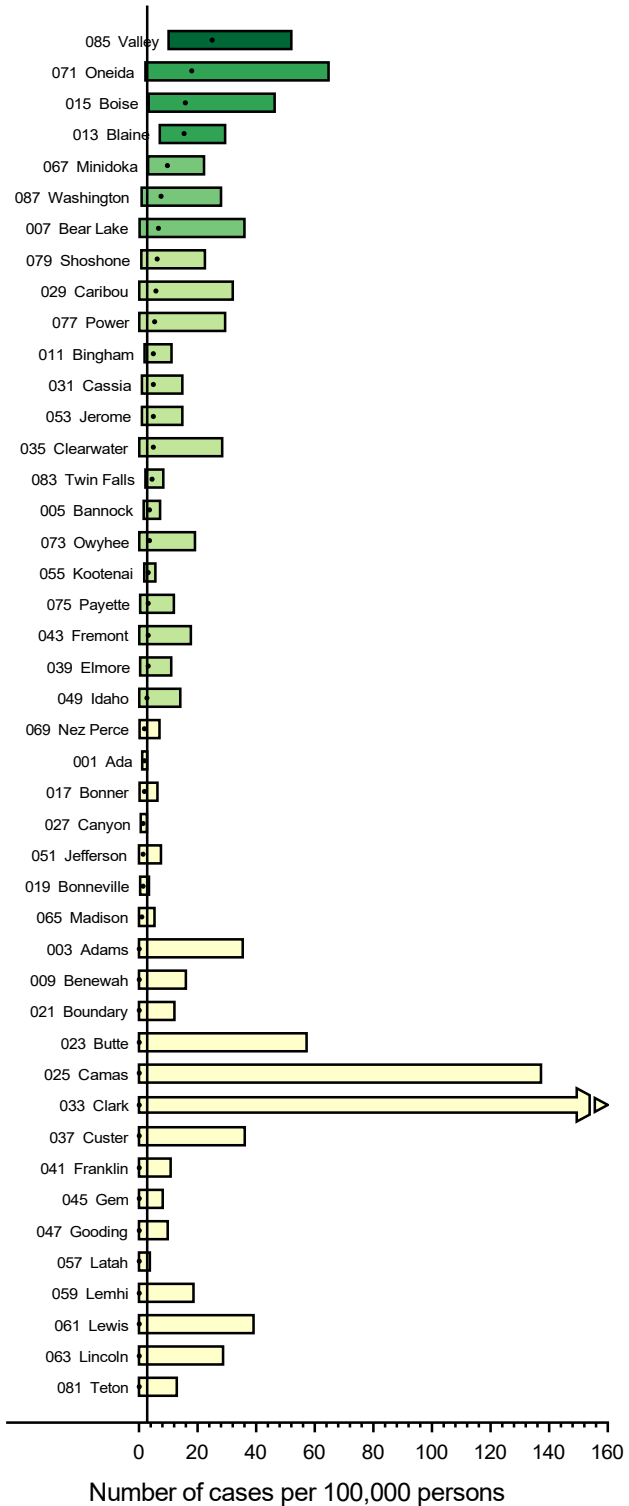

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 2.8

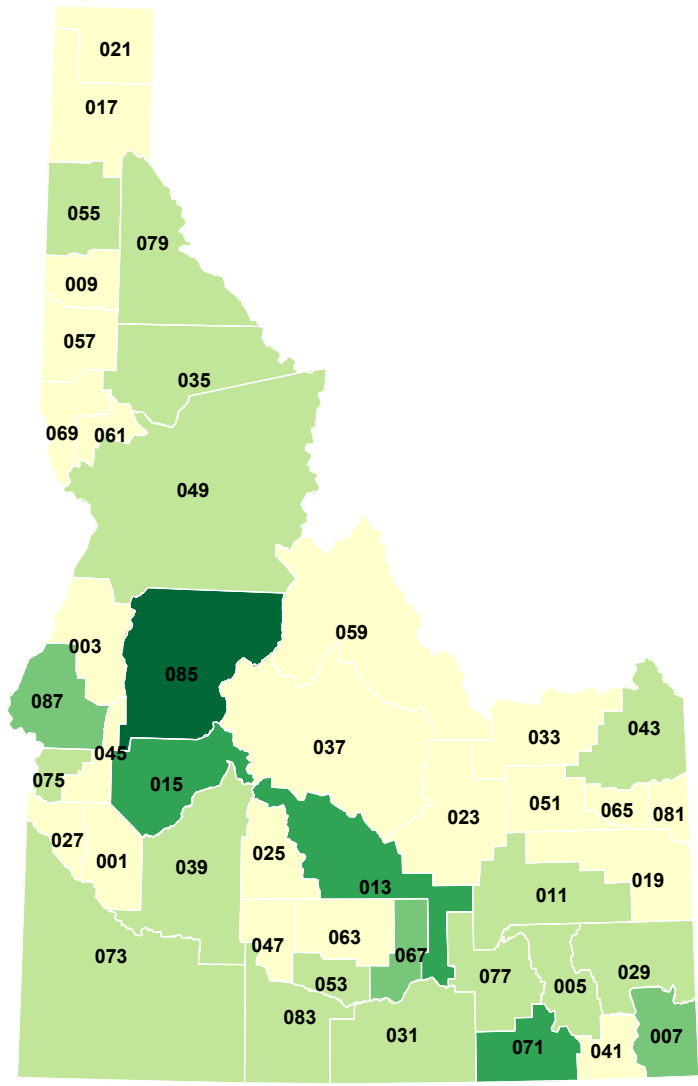

Crude Incidence Rates - Calculated from Injury ZIP Code

Other Specified

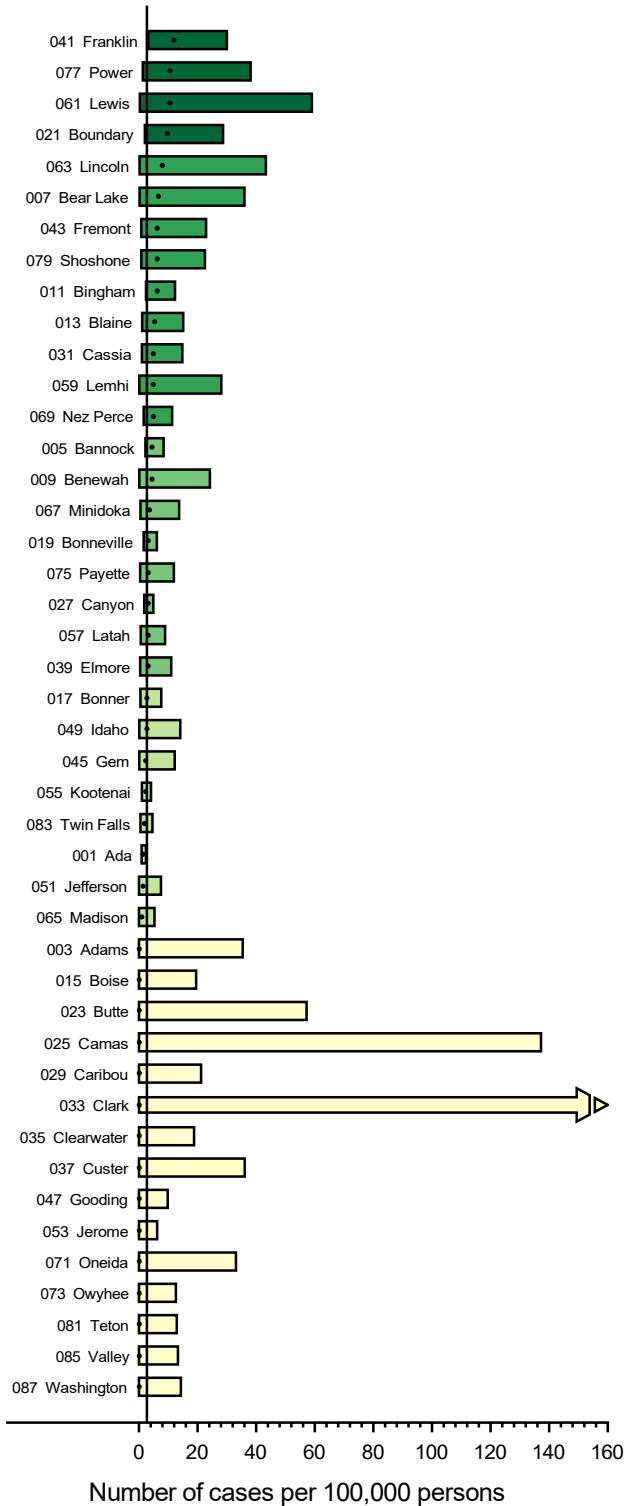

Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 2.7

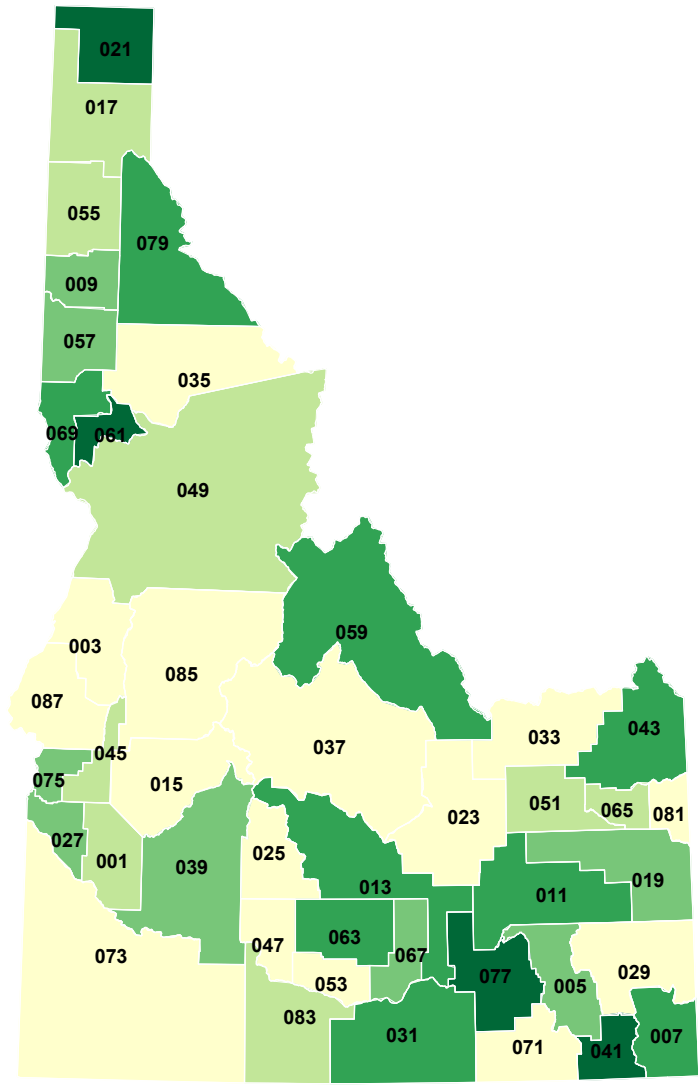

Crude Incidence Rates - Calculated from Injury ZIP Code

Suffocation

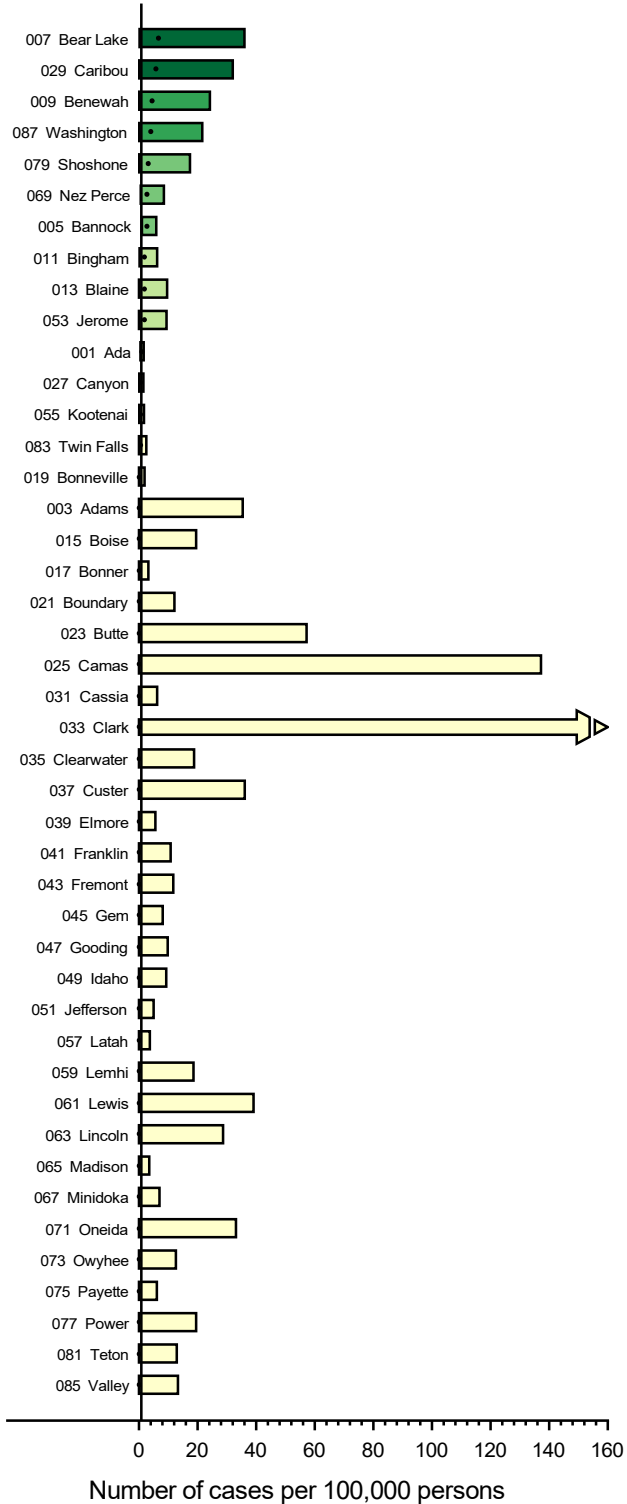

Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry. Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.

State of Idaho Rate: 0.8

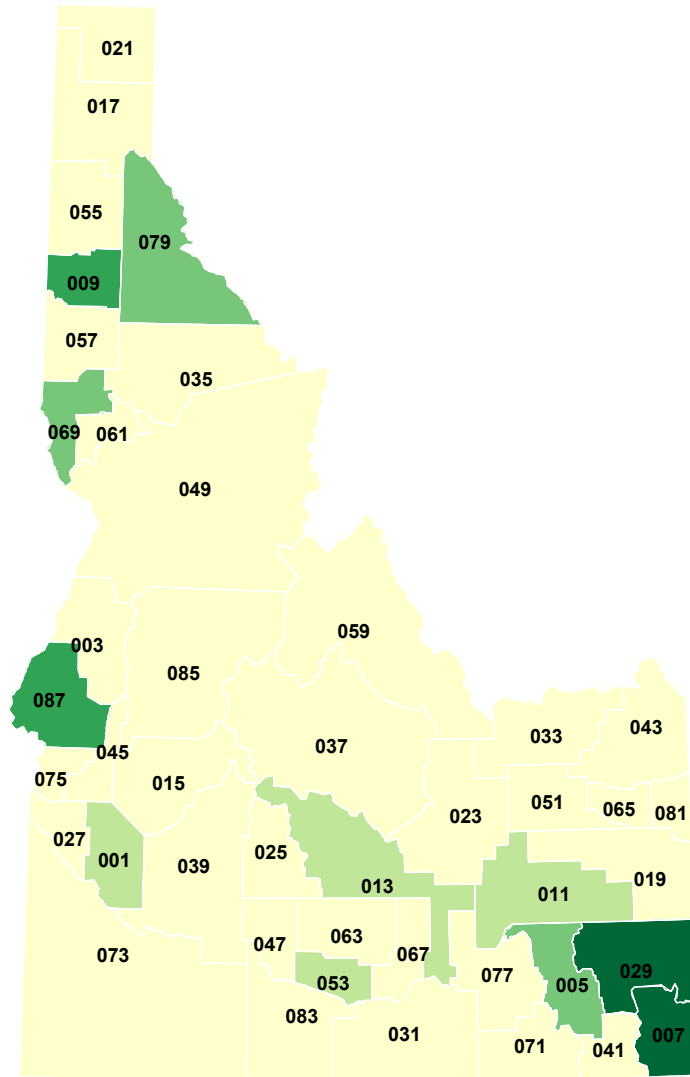

Crude Incidence Rates - Calculated from Injury ZIP Code

Unspecified

Females

State of Idaho, by County, 2017-2021

Idaho Time-Sensitive Emergency Registry.

Rates are not adjusted to a standard population. U.S. FIPS codes label counties. Colors denote rate clustering. Width of bars indicate 95% confidence intervals. Arrows indicate upper confidence interval extends beyond graphic area.
